A School for Ship-Builders.

Among the many schools and colleges founded during the past year, perhaps none is so much a departure from the usual nature of educational institutions as is the Webb Academy and Home for Ship-Builders. A retired ship-builder, William H. Webb, desiring to invest a part of his large fortune in some philanthropic enterprise, determined, several years ago, to found a school for the instruction of young men in the modern science of ship-building. Accordingly he set aside $2,000,000 for this purpose, andaday stands there in New York, upon Freedman Heights, overlooking the Harlem River, a magnificent building which is soon to be dedicated by this branch of education.

The work of the school will be to teach advanced methods of constructing and repairing ships to such an extent that every student is taught to build vessels as well as to maintain them. The instruction is held at the request of the Y. W. C. A. ladies who wish to determine what colors they should sail on the open seas and keep them at the same time well-proportioned and beautiful.

How Colors Will You Wear?

The Vincennes-Reporter will hold an election Friday and Saturday forenoon for the purpose of determining what color shall be worn by S. U. I. students at the State Field Meet. This election is held at the request of the Y. W. C. A. ladies who wish to determine what colors they shall wear in the coming season. The single color that shall be decided on shall be worn by the day before the Field Meet. The Vincennes-Reporter has always supported the "old gold" and merchants have advertised with us that they were prepared to furnish the "old gold." If it can be obtained we see no reason for changing, and have no sympathy with those who desire a change simply for the sake of changing. We have always believed that there would be as many different colors of "old gold" as there are students who wish to wear it. This is the reason why we are opposed to changing colors.

College Notes.

Four young men at Harvard were drowned while boating last Sunday afternoon.

The Chicago University Common, which were closed some time ago, as a financial failure, were reopened Monday.

As college after college in the West hold their spring athletic meets, it is to be hoped that they will hold their events at the same time, and in the same manner, as Harvard did last year. It is to be hoped that all of our colleges will have a similar athletic program.

EDWARD WILSON HARKET, D. D., Pastor of the Presbyterian Church, Iowa City, Iowa.

I have this day read over the 'Seventh Edition' of the International Cyclopaedia, because I know that it contains valuable information and to be found in no other similar Encyclopaedia.

C. F. RYDER, Attorney at Law, Iowa City, Iowa, I have examined it and found it a most valuable work. I have had the pleasure of having examined the American and Canadian Cyclopaedias, and can heartily commend it to the public.
