GRIGGS OF WISCONSIN

CARDINAL CANDIDATE IN HAMILTON CONTEST

Preliminary Contest at Madison was Strong and Gives Hopes of Winning

In the Hamilton preliminary at Wisconsin, V. R. Griggs '06 won first place, Paul Vogel, N. W., second.

Griggs' subject was "Hamilton and the Civil War." He said that the fact that our contestants had little time to prepare, the contest was a very creditable one. Mr. Griggs, the winner, has most excellent prospects. His oration shows thorough appreciation of the character and services of Hamilton. One strong feature is the fact that in the development of the theme he keeps before the audience the idea that the principles of Hamilton are recognized in the constitutional, political and governmental ideas.

IOWA GRADUATE CLUB

Will be Entertained by Dean and Mrs. Weld

The Graduate Club will hold an open meeting this evening at the home of Dean and Mrs. Weld. At the meeting will be present Professor T. Gregory Foster, of the University of London, who will have an address upon "Graduate Work in English Universities." President MacLean and Professor W. G. Wilcox will also speak.

Delta Gamma Party

The Delta Gamma sorority chartered Kloe's bowling alleys Thursday evening, and entertained their masculine friends at a "Flip Van Winkle in the Mountains" party. The exciting and engaging contests were followed by a supper at the home of Mr. and Mrs. John Springer.

The basement of the west building is being fitted up as an electrical engineering laboratory. New apparatus is to be purchased and installed along with that already owned by the University. Further alterations in the same building will be made in the near future, when other quarters will have been provided for the department.

The whole building is then to be devoted to the requirements of the chair of mechanical and electrical engi­ neering and will be provided with every necessary for thorough and practical work.

Prof. H. G. Pinn of the University of Iowa inspected the high school today.—P. D. Messenger.

Mrs. Lela Graff-Weld of Cedar Rapids is visiting at the home of her parents in this city.

Pres. MacLean Stands By Colleges in the Fight Against Six Year High School

The Seventeenth Annual Conference of Academies and high schools of the State held in Des Moines today. It was at a similar meeting, last year, that the University of Chicago heralded a movement for a six year high school.

The object of this was to eliminate the first two years of the college course. A committee of twenty­seven was appointed to investigate the idea. President MacLean, because of the prominence of his work in the North Central Association, was selected to report on the proposition from the stand­point of the presidents of the small colleges, because they feared it would crush them out of existence.

President MacLean, who was unable to be present at the meeting, said this morning in an interview, "that he had stood by the colleges, because he believed the college to be a real American institution, and had a work peculiar to itself." The six year high school, he said, is a move­ment to transplant the German system here. Our system is distinctly English, and the Ameri­can college is a feature that is here to stay. The ordinary high school cannot do this work, and it would be a blow to the cause of education, if we tried to hold them to such an artificial standard. It is possible to do it in the high school.

Through President MacLean's influence the report of the com­mittee was materially modified, and the conclusion reached that the function of the six year high school is general and not special, and that, it meets the demands of only a small class.

The following delegates from the Iowa State Teachers Association convention now in session at Ottumwa, Lulu McGowan, Lulu Drummond, Lulu Carrol, Mary Griffith, and Grace Holmes, present the report of the board of education, which also includes the following:

The Iowa Association of Chari­ties and Corrections has adjourned at Des Moines.

Issac A. Loos was re-elected a member of the executive com­mittee. Deforest L. Gray, and Judge Deemer took part in the program, conducted by Professor W. R. John­son, who made a special study of the indeterminate sentence, which was also presented. The next convention will be held at Sioux City.

Fighting Stubbornly, Tigers Go Down in Defeat

Missouri Does her Best, but the Hoodoo of the Year Still Works Against Her

IOWA 16 MISSOURI 0

COLLUBRIA, Mo., 3:00 P. M.—The game was called at three o'clock this afternoon on Rollins Field. The score was 16 to 0. Both teams were in good shape, and the Iowa team was in excess of the Iowa City. Missouri was stubborn and deter­mined to fight, but her only hope was to hold the score down the score.

The following was the line up: IOWA

MINNESOTA

Children    o Johnston   Landon    rg Atkinson
Haggard    rt McGowan
Tillam    ra Watters
Hoff    lg Donovan
Corns    il E. Buckley
Walf    ie Coons
Isenberg    bch Allen
I. Anderson    hh Jones
Anamosa    to F. Buckley

The Ill. Huck, which has follow­ed Missouri all the year, work­ed against her again. It was her old standby, "No Iowa high school played a good game.

A NEW DAM

Senior Engineers Survey Location Below City

Prof. A. V. Sims has been working with a party of senior engineers along the river from below this city up to Coralville. The purpose of their work has been to secure the best location for the proposed dam that has been failed about by the Com­merical club and the members of the board of regents. The sur­vey has not been finished and there has not been any definite place, where the engineers think best for the location of the dam.

It has been estimated that a dam located near where the city would raise the water up to the level of the Terrill mill and thus would keep the water at the same level all of the way up the river.

The Terrill dam cost in the neighborhood of $20,000 and the new one could be constructed at about two thirds the cost of the old.

Norman P. Otney, business manager of the Coe College Cosmes is in city today.

Surgical Clinic to Be Held at a Homeopathic Convention

Among the many things which will take place for the benefit of the physicians who will visit the city and attend the Central Iowa Homeopathic Medical Association on December 9, will be a special surgical clinic. This will be held at the homeopathic hospital, and will be of great interest to the medical profession.

Prof. H. G. Plum returned last night from a high school inspection tour.

BACONIAN

Relation of Mass to Chemical Action by Dr. Andrews

"By mass," said Dr. Andrews, "We refer to the concentrations of a compound, that is, to the space through which it is distrib­uted. This influence very large­ly its chemical action. The in­tensity of a reaction is propor­tionate to the mass concerned, and the velocity of the combina­tion is equal to the square of the mass involved in the reacting substances.

Certain reactions are reversa­ble, and the direction of the action may be controlled at the will of the operator by increasing the strength of one or the other reagent.

Other reactions are not revers­ible, e.g. 2 HCN + HgCl2 = 2 HCl + Hg(CN)2. This also shows, that contrary to the general opinion, one of the weakest of acids may sometimes expel from combination one of the strongest acids.

"In physiological chemistry most of the reactions are found to be reversible."

AMUSEMENTS

The more you see "The New Dominion" the better you like it, secure your seats in advance and see Clay Clement and all star cast at the Opera House Tuesday night.

The Whitney Opera Company has scored a most marked success in "When Johnny Comes Marching Home." All critics declare this to be the best American opera opened 'Robin Hood.' It is a great novelty in every respect and drew immense audiences, such eminent men as Senator Doep and ex-Governor Black highly commending it. The latter has seen it several times. Many of the musical numbers have attained a great vogue and are being widely sung and whitelisted and played by orchestras. An especially attractive number is a song and chorus "Katie, My Southern Rose," sung by Union officers and in producing a prominence of officers and Southern bodies arrayed in the great crinoline and hoop skirts worn during the Civil War period. Another big feature of the opera is a waltz scene in which forty cowboys and Confederate young women are disclosed in an old-fashioned dance with all its extravagances of movement. The effect is novel and is repeatedly encored at the Opera House next Thursday night.
