O Horticultural Honors

Henry G. Walker, the contestant of Iowa in the Hampton Club Contest, is now in Chicago ready for the contest which will be held at the Hampton Club House Monday evening.

Four universities, Michigan, Chicago, Iowa and Knox, are represented in the contest. The rules of the contest provide for three first places. Iowa drew second place, Michigan third and Knox fourth.

THOMAS JONES MEKE

Thomas Jones Meke will represent the University of Wisconsin with an oration on "Alexander Hamilton: The Practical Idealist." Mr. Meke is a student of the law school. He is a member of the Maroon Literary Society, and has been its representative on inter-society debating.

Thomas is also a member of the James H. F. Hall Law Club, and to Phil Delta Theta. As a freshman at Dickinson College, Pennsylvania, he won the Cede prize, and as a sophomore in the University of Chicago the Per inspection Prize in public speaking.

Sanitary Engineering—Prof. C. S. Magaw

It is now more than 100 years since Matthew arced sanitary disease to the interposition of providence. At that time diseases were held to be effects of sin or to the wrath of an avenging God. These ideas still find occasional expression in the use of the horse shoes and rabbit foot. Today disease is considered as a condition which is as natural as health and as much subject to natural laws.

The body is now considered a mechanism and as such, defects may be due to faulty material in the structure, it may be injured by accident or by the introduction of infectious materials from outside.

Sanitary science arose when the germ theory of disease was discovered and it was found that many diseases could be prevented by proper sanitary conditions. Great advance has been made within the past 100 years to which doctors, chemists, biologists and engineers have been the largest contributors.

The aim of engineering is to convert natural forces to the use of man.

Specialism has subdivided the work into many departments.

Sanitary engineering aims to promote healthy conditions by insuring pure water, air and food. It has another great object, that of forming public opinion regarding sanitary conditions so that private and corporate funds may be widely expended in this way. Professor Magaw urged the inspection of private dwellings. This and proper sanitation would prevent diseases such as typhoid fever and tuberculosis.

"One hardly knows," said he, "which is more appalling, the nosiness of the 

mumps or the inaccuracy of the intelligence regarding sanitary conditions. Murder is murder whether done with an axe or a house."

IOWA CHANGES

At the meeting of the DAILY IOWAN board this afternoon a number of important changes were made.

Geo. B. Coulthard, editor-in-chief, of the college team, was elected athletic editor, and will have entire charge of athletic articles.

Miss Mary E. Ballard, editor, Miss Nellie Chase and Ben Wyland were elected associate editors, and A. S. Barnes was elected reporter.

Mr. Roy A. Cook, the manager of the DAILY IOWAN, who has for some time been desirous of disposing of his interests in the IOWAN on account of his graduation this spring, is succeeded as manager by Mr. Pratt.

This will necessitate Mr. Pratt's resignation as editor-in-chief. His successor will be chosen shortly.

Mr. Pratt will assume the management of the paper with his next issue. Mr. Pratt will form a stock company to take control of the DAILY IOWAN and will soon offer the stock for public subscription. The shares will be sold at 10 each.

The plan of offering the IOWAN for popular control is the result of suggestions from various sources, and the success of the plan is practically assured.

AMUSEMENTS

"Mr. Jolly of Jolly," in which Mr. Edward Garrke and Broadway & Curry's big musical comedy company will disport themselves at the Opera House next Monday night. Pay, good, beauty, clean fun will be on tap for three solid hours, when King Joy will hold full sway and dull care will be banished for the evening. Sumptuous scenic settings and costly costume creations will please the eye. Calamity tuneful musical numbers and high class specialties will please the ear. They should have a big house.

We cheerfully call the attention of our readers to the eminent tragedian Mr. John Griffith who is to appear on Thursday evening January 14, at the Opera House. Mr. Griffith is an artist, in fact he is much more. John Griffith is a genius of the highest historic order, and they are born, not made. His elocution is faultless, his gestures natural and perfect, his presence superb, and he possesses a most magnificent voice.
