SIGNS OF DEGENERACY

DR. TALBOT READS PAPER AT BACONIAN

Causes, Signs and Results of Degeneracy—There Are Many Types

At the meeting of the Baconian Club last night the paper was read by Dr. Eugene Talbot on "Degeneracy—Its Causes, Signs and Results." An extract from the paper follows:

In the evolution of man many changes have taken place, and scientists have endeavored to lay down laws by which these changes have been governed e.g. Laws of the Survival of the Fittest, and Use and Disuse.

A degenerate is one whose nervous system is unstable and whose physical condition is abnormal. They are usually of arrested development and show reversion to the lower vertebrate types.

Fortal life is marked off into several sharply defined periods, one of which is at four and one-half months at which time deformity of brain, nose, face and teeth is especially apt to occur. At this period only two convolutions are present in the brain and if development be arrested, normal convolutions may never develop. The brain gets its growth earlier than other structures.

Skulls frequently show atavistic return to the savage state among criminals. Some of these atavisms are; eyes which are small and close together, large orbital cavity, high cheek bones, excessive development of the superciliary ridges supra-occipital and the mastoid processes. The whole body as well as the brain is sometimes arrested in its development and the subject retains the body and mind of a child throughout life.

The ear is the only structure of the body which continues to grow during the whole life. It develops from six buds and is unusually subject to abnormal development giving rise to such peculiarly shaped ears.

There are two types of the degenerate jaw, the atavistic V shaped jaw and the saddle shaped jaw which is a reversion to the carnivorous type of jaw. There is also a frequent return to the primitive cone shaped tooth, and irregularities occur in the number and disposition of the teeth.

There are two types of degenerate faces the depressed, sunken profile and the hatchet shaped face. The right and left side of the head are often unsymmetrical.

The frat women of Des Moines held their annual banquet last night. The Des Moines Women's Pan-Hellenic club has a membership of 100.

BOOKS TO COST MORE

CAN'T MAKE HAWKEYES FOR A DOLLAR

May Cost \$1.50 After This Year Could Get Out More Creditable Publication

The old question of how Iowa university can get out a more creditable junior annual is again agitating the minds of the members of Hawkeye board. Not that the annuals gotten out here are not creditable or that it is not the intention of the present annual board to get out a good compilation, but the experience of the present members of the board leads them to believe that it would be possible to get out a year book here far ahead of what is now gotten out.

Their solution comes in the simple matter of raising the price charged for the annual. It has never been customary to charge more than one dollar for the books but all of those who have had anything to do with their compilation seem to be in favor of raising the price to \$1.50. They argue that by charging a rate of this kind they would be enabled to undertake the work on a better grade and that in the long run the purchaser of the book would be the gainer.

One of the members of the present board in speaking of the matter said that the board had been compelled to omit a great deal of the material which was easily accessible simply because the estimated income from the books would not warrant its use. This was particularly true in the line of art, many of the drawings submitted being forced out because the expense of getting the cuts made would be greater than the income would justify.

It is not the intention of the present board however to make any increase in the price of the Hawkeye, but as one member of the board said, it will be wisdom for future classes to bear these conditions in mind.

Drake university dedicated her new medical building last night. The building however has been in use for some time.

The State Normal is holding a public celebration today in honor of the completion of fifty years as a member of the faculty by Prof. Moses Willard Bartlett. Among the distinguished speakers of the day will be Thomas McClelland, D. D., L.L. D., president of Knox college, Galesburg, Ill. Edward D. Chassell, of LeMars, a graduate of the Iowa state normal school in the class of 1882; Henry Sabin, of Des Moines, who for many years has been a personal friend of Professor Bartlett. Prof. D. Sands Wright, member of the first faculty of the Iowa state normal school will also give an address.

TRACK OUTLOOK GOOD

MANY CANDIDATES FOR THE TEAM

Have Advantage of Experience Are Now Training in Gym—Freshmen Material

Stock in Iowa University track athletics is considerably above par just at present. The outlook is for one of the strongest track teams that has represented the university on the field. The men are taking preliminary training in the gymnasium at Close Hall and are showing up to good advantage. In addition to the real ability of the various candidates most of them have the advantage of a season's experience at the work and this will stand them in good stead.

Captain Swift himself will enter the discus throw and will have an easy time of it without a doubt. He holds the western intercollegiate record in this event having established it at the conference meet at Chicago. For the dashes, White and Coyle are promising men. Davis, Miller, Young and Crossan are strong men on the 440 yard dash and will also enter for the relay contest. Ex-captain Anderson and W. Davis will try for the hurdling events and should make good records. In the pole vault there is Smith a new man from Syracuse University, Weinrich and Davis. White Parsons and Ross will compete in the broad jump. Crane will probably have easy money in the shot-put and Barker and Parsons will compete in the high jump. The university is weak in the hammer throw but Donovan may be developed into a strong man in this event. In the mile run there are Bateman, Gordon and Drake; half mile run, Jeffers and Schenck, and in the two milerun, Hands and Williamson. There are also a number of promising freshman particularly in the running events, these being Askwith Reilly, Burgess and Glass.

E. K. Brown has returned from a visit in Chicago.

The Hesperians will have a social hour after their program tonight.

The Political Science Club will meet Monday evening at the home of Dr. Horack. The paper will be read by Professor Plum.

Cunningham and McIntosh were last night elected the freshman debaters from Irving Institute to compete against the representatives from Zetagathian society at the annual freshman contest this year. There were eleven candidates for places on the Irving team and the preliminary addresses were of a very high order. Zetagathian has already chosen Peterman and Wyckoff as her debaters and they are to submit the question.

LOSES FIRST GAME

VARSITY DEFEATED BY AUGUSTANA

Absence of Newton and Brock Felt—Collegians Play Faster Than Before

Augustana 44; Iowa 21. Iowa felt the absence of Newton and Brock in the contest this afternoon with the basket tossers from Augustana college. The game was not the easy victory that was expected. Iowa's customary team work was lacking while the visitors played together well. The game was called at 3 o'clock. The score of the first half was Augustana, 28; Iowa 17.

Lineup:
Iowa Augustana
Kingsbury forwards Lindebold
Negus E. Pierson
Parsons center W. Pierson
Schenck guards Purin
Ross Johnson
Referee, Udden, umpire, Rule.

Debaters Elected
The makeup of the Iowa debating team which will compete against Minnesota at Minneapolis in March is now completed. At the meeting of Irving institute last night O. R. Davis of Eldora was elected as the representative from that society on the contest. The Zetagathians had already elected Messrs. Files and Randall.

The team is considered very strong and Iowans have confidence in its ability to give the Gophers a lively discussion.

Society
Last night in the dining room of the St. James hotel, Dr. Dean, of the medical department entertained with an elaborate banquet, in honor of Dr. Eugene S. Talbot, who is here to attend the dental clinic next week. The guests went in a body from Baconian where Dr. Talbot delivered the address of the evening, to the hotel where covers were laid for eighty at long tables profusely decorated in carnations and hyacinths. Dr. Deans guests included the deans of the department, the members of Baconian, the science department and a few particular friends.

The Phi Delta Theta fraternity entertained with a card party, last evening, at their fine, new chapter house on Dubuque Street. Cards, followed by dancing provided amusement for the evening. The prizes were carried off by Miss Crane and Miss Gabriel.

Manager Baird of the Michigan football team has completed a trip which included Yale, Harvard, Columbia, Princeton and Pennsylvania but failed to secure a game. The big easterners turned him down without exception. Upon returning he declared that they were all afraid of Michigan.

A Training Table

The outlook for track athletics at Iowa this year is especially good. There are numerous candidates for all of the events and there is above all an excellent spirit which cannot be overestimated in the matter of winning contests and bringing out the very best that is in the material at hand.

In view of this promising outlook it is up to the athletic union and the board of athletic control to take every possible step that would seem to encourage the men who are to compete.

It is an old cry at Iowa—that of a training table for the members of the track team. The board of athletic control has not heretofore seen its way clear to make such a provision and its course has perhaps been a wise one inasmuch as the income from the track department did not justify the expense. This year the track athletes themselves are going to have a training table at their own expense. If it be possible for the board of control to assist them in some way, it should do so. It is to be hoped that such assistance can be given this year.

EXCHANGE

The senior and junior girls at California University have adopted the custom of wearing courduroy skirts on the campus.

The editor-in-chief of the Daily Maroon of Chicago University lives at Des Moines His name is Oliver B. Wyman.

The Debaters Club at the University of Minnesota is negotiating with eastern universities to arrange if possible for a debate between the western college and eastern representatives.

First class shoe repairing done at Morton's shoe store by John Voparil expert shoe repairer. "Student work our speciality."

AMUSEMENTS

Alan Dale, the best known of the more severe critics in New York, is said to have praised only one actress without qualifying his homage. This fortunate individual is Miss Ida Werner, who has been selected by Charles H. Clarke to play the leading part of Eleanor in "The Little Christian." She is said to give an excellent account of herself with this new responsibility. Seats now on sale.

Great as Mr. Hanford's personal popularity is, he has never permitted it to stand as an apology for deficiencies in the mechanical details of his productions. The costumings he displays represent a small fortune in silks and satins and it has been his pride to present to every city he visits a strictly metropolitan production. Mr. Hanford's company too has been selected with so much care, that there is no danger of their being overwhelmed by the magnificence of their surroundings. Miss Marie Drofna his leading woman has won golden opinions for her excellent work the past two seasons.

Chicago University granted seven official C's to members of the football team. All seven of the men are eligible to play next year.

LOST—Gold band ring, engraved "R. W. A." Finder leave at Dean Currier's office.

NOTICES

Students and faculty members are requested to send all notices to THE DAILY IOWAN for publication. Notices must be left at THE IOWAN office or the President's office before 9:00 A. M.

REGISTRATION for the second semester. Students in all colleges may register for the second semester at once. It is desirable that as many as possible avail themselves of this privilege in order to avoid crowding and delay during the opening days of the second semester.

G. E. MACLEAN.
On account of the photographer's not being able to finish all the junior photos for February 1, the time will be extended in this way, that all juniors who want their photos to appear in the Junior Annual, must sit for the negative before Wednesday February 3. This does not apply to those who have had their negatives made up to this date, but it does apply to all those who have not yet had their picture taken at all. So there is still a chance for every college to have every junior member represented.

MOST young people select their life partner and their occupation on a sentimental basis rather than by deliberate judgment. The best profession is
1st. That which renders the greatest service to humanity.
2nd. That which is accompanied by a good income.
3rd. That which makes one his own employer.
4th. That has reasonable office hours, leaving time for self development and recreation.

STILL COLLEGE OF OSTEOPATHY

1422-31 Locust Street, Des Moines, Iowa

offers the profession of an osteopathic physician to fill these conditions and nearly four hundred students are in attendance upon the two and three years course from thirty-two different states, including one hundred and thirty-five ladies. Legal protection for this system of practice is now provided in twenty two different states. Our graduates go out to great usefulness and independent incomes. Eleven ministers are taking the work because they can often reach the hearts of people through their bodies.

The students of the University of Iowa are extended a special welcome for a visit of investigation at Still College.

A faculty of seventeen professors. Every study in medical college except Materia Medica; in its stead principles and practice of Osteopathy.

Illustrated catalog on application. Please write or call.
