DOE STORY NO. TWO

BOB HAINES SPEAKS UP FOR GRINNELL

Says Iowa Will Not Have Easy Task

Has Faith in Watson

Following the doe story of Bill Bremer (the "Patron Saint of Iowa Athletes") for Grinnell, it was predicted that Iowa would have an easy time this year. At this meet this year, Bob Haines the Grinnell oracle has pumped a column of hot air into the Register and Leader. Here are a few extracts:

"I see that Bill says that Anderson of Iowa will have to be shown in the hurdles. These are a young fellow doing a row over our way who never saw a hurdle or a sprint in his life. He may show the whole field all the way in the two-year-old event, and Iowa will be agog seeing some in the high ones, too. He has a slice of the broad jump too, as you will probably remember. He will be there again this year and Anderson will have to get off fast or he will have our Missouri.

"How about the sprinters? No problem here. Jack Watson can't make that track. He has been producing the leads at the State meet from the days of Speedy Rough down to date, and so far as anybody knows, he is still at it.

"Talk Bill Bain, who won the hundred yards a few weeks ago, a young fellow. He was a creation of Watson's. Could he ever get to his classes unless Jack took hold of him? But he made good though, is a Youngsman, who won all the dashes in high school, and is doing the west for some years. He's down there in Watson's hands. He is a marvelous fellow, of only a fifth off event, and that's going some for a youngster. If he don't do in it events this year I will be surprised. That will be plenty fast enough to win.

"For myself, I rather fancy Robinson, the fellow who did the trick of them on faucets last fall during the football season. He has the build for a sprinter and ought to go all the way from the point of view of the old track. He has a winning time. Then there is Semptopel, who was on the relay team last year. He is a good one, I do not know, but I get hold of him in touch with a man in black. My pieces play in our favor in the old track.

Miss Ida Doyt '05 has been called in as our pinch hitter in the serious illness of her father.

Pipe Dreams

Dope stories seem to be the order of the day. Bill Bremner, Iowa's Patron Saint a few days ago told a Des Moines newspaper man how Iowa would clean the slate at the state meet this spring. Now the redoubtable Bob Haines speaks forth in behalf of Grinnell. Its time now for some enthusiastic alumnus from Ames to chip in.

The dope story is the avenue left between a few of the more fortunate and their alma mater. Fanny as they may seem, they serve a good purpose. They show at least that some one on the outside is taking an interest in what is going on in the school.

Let the pipe and infuse into present students the spirit of the good old days.

Statisticians have figured out that during the past year there was five times as much money spent for literature as there was for liquor. The same statisticians have figured out that if all kinds of literature are taken into consideration there has been done about five times as much harm as has the liquor.

It is said that there are no swear words in the Japanese language. This is proof enough that there are no such things as examinations in Japan.

**TEACHING PHYSIOLOGY**

Prof. Houser Advocates a Change in the Methods

In the February number of the "Midland Schools," published at Des Moines, Gilbert L. Houser, Ph. D, Professor of Animal Morphology and Physiology in the State University of Iowa, urges a change in the manner of teaching physiology.

He says that the results of investigation of the last few years, concerning the entrance of disease germs into the body; the source of contamination of food and water; the physiological or nutritive value and the market value of different foods and water; the physiological or nutritive value of different foods, and the sanitation of the home, should be given the widest dissemination yet these facts are rarely mentioned in school text books. The processes of digestion, circulation of the blood, respiration, nervous conduction, and muscular contraction will mean something to the pupil only if demonstrated by a skilled teacher. The time allowed for the teaching of practical physiology may probably be lengthened by dropping much of the present work in technical anatomy and histology. Reduce microscopical work to the minimum, and devote less time to the study of bones. Summarize as follows:

It is desirable to modernize the scope and better the character of physiological instruction in the high school.

Improved results are to be obtained, not by instilling expensive apparatus most of which would be out of place in the high school, but rather by placing physiology in charge of a teacher who has been specially trained. A teacher whose training fits him to give instruction in physics and the biological sciences must be paid an adequate salary.

If you wish to secure a position to teach, write to: James E. McCallugh, 600 Fine Arts Building, Chicago.

**Reduced Rates to California**

March 1 to April 30.

That long-looked-for California opportunity is here at last.

March 1 to April 30, the Rock Island System will sell "our-first" tickets to principal points in California at these low rates:

$33.00 from Chicago.
$25.00 from Missouri River Points.
$33.00 from Iowa City.

Tickets arranged in Tourist Sleeper, which the Rock Island runs daily, Chicago and Kansas City to Los Angeles and San Francisco by way of El Paso. Three time a week via Colorado Springs and Salt Lake City. March and April are the pleasantest months of the California spring, doubtlessly so because, at home, they are usually the very opposite.

Tickets and berths at all Rock Island ticket offices or addressing:

Jno. G. Farmer

G. P. A. Cedar Rapids.
