TWO OPINIONS

Cedar Rapids Republican

Senator Maytag does not believe that big bunches of hair and an eagerness at football and other singling matches should be paid for by the state. If Senator Maytag believes that the engineering department should be transferred to Ames, he can give good and sufficient reason. He is a prudent; conservative business man, and as he is careful in his own business affairs so he is with the affairs of the people, whose affairs he is. As to his hostility in the larger appropriation, Senator Maytag’s head is low. It is too much cold cash to pay out for fads. To keep a lot of long-haired professors well housed, well kept, and well paid, without good returns. It is a thing that the people’s money is legislating. Tax money does not belong in the university to entertain the public and can find no fault if an appropriation is made for it. The brats in the engineering department went out of their way to insult Senator Maytag, and the rebuff was dispasion from the university, and those in authority there should be discharged. But the true and genuine way out of the misunderstanding is that the state university, that of the students, and the public will support the university. It will be one less barstool back and we don’t understand it.

REPORT UNANIMOUS

BOARD OF CONTROL

DEBATING BECOME NOW IN THE SENATE

Would Give the University $80,000—Report Will Probably Be Adopted

The house committee on appropriations has, after an exhaustive investigation, recommended a bill to appropriate $200,000 for the State university. The bill was passed after the meeting, which lasted from 4 to 6 o’clock, that the committee was unanimous in its report.

This amount is $80,000 more than the senate committee on appropriations has agreed upon. Of the increase $50,000 is set apart for the construction of an engineering department hall.

The other $10,000 is appropriate for the purpose of building a dormitory for students shut out on the university grounds.

The recommendation of the house committee with respect to the engineering department is in the most gratifying manner. Senator Maytag, that the department be discarded secret was removed and removed to the State Agri.

cultural college was the origin of the activity of the friends of the institution to preserve its entity.

Dr. H. N. Stuart is in Columbus now attending the meeting of the Philosophical association, before which he will read a paper.

ELECTRIC TRANSIT

PAPER AT BACONIAN CLUB LAST NIGHT

Prof. Wells of Engineering Department Heard—Development of Electric Transit

"Some Developments in Electric Railroading" was the subject of an interesting paper read before Baconian last night by Dr. Wells of the Department of Engineering. A synopsis follows:

The electric railway is the most recent of the railroad transit lines and is its subject of importance to others aside from engineers. The construction of the interurban line is about 20 years old, but the hopes of finding some two billion dollars are invested in electric traction lines and equipment is now, perhaps, in Illinois and is extending rapidly into Iowa. The possibility of competing with steam roads up to distances of 40 or 50 miles has been well demonstrated. The electric roads are beginning to use the alternating current as there is less loss in transmission, a stronger current may be used, the cost of equipping automobiles is less, though this system has not yet proved fully satisfactory its durability and effectiveness. Estimates indicate that the best results on the electric road is where fuel is high, loads are light and trips frequent. It is in the within of possibility that steam roads will be superceded by electric lines for passenger traffic.

Is This True

The Daily Nebraska says electric transit is a fact that has not yet been taken on the

One thing is that there will be no objection however.

AMUSEMENTS

It is funnier than Peck's book of the Bad Boy and his Pa. That \because word painting, no mat- ter how clever, cannot be as vivid as real action. You laugh when you read the book, but you roar when you hear the same Bad Boy in flesh and blood perform those tricks. The cast contains many old and new favorites at the Opera House next Monday.

Note Freshman Coming

On Monday evening next at 8 o'clock in the liberal arts auditorium M. Dupouey will give a lecture in French upon the subject, “Paris Without Code.” M. Dupouey, who comes to this city under the auspices of the Alliance Francaise, is in this country as a representative of the French government. The commission with which he comes is studying American institutions. M. Dupouey paying particular attention to our educational methods. He is now carrying out his researches at Harvard.

Brodolphian elected the following officers yesterday for the spring term: Lulu Moulton, president; Sadie Hummer, vice-president; Nellie Stoner, recording secretary; Mildred Price, corresponding secretary; Ruth Marash, critic; Pearl Landon and Verna Shields, joint committees.

Soft Hats in the most fascinating foil colors and shapes are to be found here.

Marvin Spryette—In reply to your question as to where to buy your cigars and tobacco, I would say the Clinton Street Smoke House is the place. Its proprietor is Tom Brown, a special fellow and a friend of the smoke and student enterprises. His shop is clean and neat. The stock is up-to-date and in keeping with a first class cigar store. Brown sells customers what they want and no “as good as.” His store contains all the popular and advertised brands. As for pipes his line is as fine as any in the state. If you want anything in the smoking line go to the Smoke House, and Brown will treat you right. If he doesn't, tell “Brown.”

Yours for a good smoke,
B. L. RAZZLE.
