MANY TENNIS GAMES

IOWA’S TENNIS SCHEDULE ANNOUNCED

Contests With all of the Big Western School Will Begin Early in May

The first part of May will be productive of plenty for the tennis men over here. No less than five meets of no little importance have been arranged for the tennis men this month. Among the schools which the Iowa men will try conclusions with are the Universities of Minnesota, Ames and Nebraska. In addition to the meets between the state university men will com- pete in the state tournament at Cedar Rapids May 24, 25 and 26 and the intercollegiate meet at Chicago later on. The meeting with Michigan and Northwestern will be held on the Northwestern campus and will be a meeting of the nature of a three cornered contest. There will be a series of games in singles, doubles, and handicaps.

The meet with Minnesota will take place at Minneapolis probably on May 14, the day of the dual track meet between Iowa and Minnesota. The Daily Ne- braskan announces that the Ne- braskan players will be at Iowa City on May 13 and 14 to engage in series of games with the Iowa men. Ames will be visited at Iowa City May 10 and a return match may be arranged at Ames. The Nebraska players are to hold their tryout for the Iowa match May 10. The present team of the Ne- braskans has already closed her en- try and is ready to avenge the loss of the previous season.

The Ames student says: The outlook for the coming season in tennis is not so promising, although the weather has been bad and the courts hard to get. After opening, there is a great deal of interest being shown. This should be taken as a good omen by all those interested in tennis. We have our own team back this fall, Hubrook and Talifer, and those in the field for third and fourth places are Statton, Stat- ton, Gilbar, and Williams.

Thyasaurus Found at St. Paul

An advanced student of the an- tomological department of the University of Minnesota is in possession of a valuable bag containing the skeleton of the genus Thyasaurus and was found incidentally on the river bank midway between Minneapolis and St. Paul while they were engaged in the collection of rare bugs for the univer- sity department. The in- sect is only the fourth or fifth of its kind ever located and is the rarest specimen in the country. It is a small white worm about a sixteenth of an inch long, was found by means of a glass.

HAWKEYE IS DONE

JUNIOR ANNUAL WILL BE OUT NEXT WEEK

Book of Unusual Excellence

Some Black and White Features Of This Year’s Book

The ‘05 Annual is coming. Those who have been awaiting its completion with the impatience of airplanes, are not likely to be disappointed as the annual is now only a few weeks away about Thursday.

The Hawkeye of the class of 1905 is a good book. In literary work, in artistic work, in the drawings and engravings and arrangement the book is clearly the best annual that the univer- sity has yet put out. For their efficient and untriring work Mr. Sheldon and Mr. Danielson as well as all the members of the editorial board deserve very great credit and in the success they have achieved they will have the hearty congratulations of the students and the gratitude of their class.

A book of special features is the dedication to the old bell. An excellent picture of the bell precedes this dedication which, by the way is in the form of a sonnet. The excellent draw- ings throughout the book have been mentioned before. The work of Mr. Call, the art editor and of Mr. Cooper deserves the greatest praise not particularly, just as it struck our eye, the Iowa would mention the work of Frank Sanger, which ap- pears scattered through the var- ious departments. His sketches are not pretentious but apt; they are somewhat in the nature of cartoons and always do their work.

A good deal might be said about the excellent prize stories, not to speak of the jokes. The arrangement of the book in de- partments is good, and the in- dex is a very convenient addition to the regular book. This is the last of the $1 books, and in view of the fact its excellent deserves special credit.

The book was printed by the University Press Company of this city, it being the fifth annual to which the printing was on- ered. The typography is unusually neat and accurate, and the binding is excellent.

C. J. Snithleby H.V.11 of Belle Claire is in the city with a patient for the treatment of rickets.

Belot easily defeated Nebraskan yesterday by a score of 10 to 2. Today the same man defeated yesterday the score being 4 to 3. The board of trustees of the Iowa state university has granted Prof. W. J. Kennedy a year’s leave of absence and asked that the vacation be used for study American Life in the Orient. Good shape. Whiting was feeling well again.

Mr. Hanley continued for the affirmative, drawing parallel con- ditions from the conflicts and disputes of the European nations especially the present war between Russia and Japan, as a warning to the United States to continue an anti-expansion policy. Mr. McCudden for the nega- tive showed up the commercial advantages gained by the United States in retaining the Islands, an increase in exports and trade and thereby the upbuilding of home industry.

Mr. Hanley continued for the affirmative cited the trade relations with the European nations and their colonies and the de- crease in the trade of states with the Philippines in the past year.

Mr. Crossan pointed out the work the United States had al- ready accomplished in the Islands and argued that the salvation of the Islands was the continuing efforts of American civilization. Mr. McCudden made a good rebuttal and said that Mr. Broos’ closing speech was also clear, concise and on- vincible.

IOWA STUDENT HAS EX- CITING EXPERIENCES

TAKEN FOR BAD MAN

Whiting Accused of Putting Railings to Hold Up a Train

To be taken for a train wreck-er, a holdup man, and every other kind of a bad man is not very pleasant according to the testimony of one N. B. Whiting a senior in the academy. The sen- sation is all the more unpleasant after one has walked a little more than twenty miles and lost a whole night’s sleep. Such was the experience of Man, Whiting not many nights ago. The story was Whiting “looked out”.

It is related that N. B. Whiting and James Irvine both of whom board at the same place became involved one evening in the discussion of the possibilities in long distance walking. Whiting boasted that he received a great deal of benefit from long walks taken every evening after supper. Irvine invited him to undertake a walk to West Liberty and return and the challenge was accepted providing Irvine would also make the walk. One night last week not long after the rain the men decided to make the trip.

West Liberty was reached in good shape. Whiting was feeling strong but Irvine decided to ride the freight back. The next day had made a good start on the way back when he heard the rumble of a freight train be- hind him. But before the train overtook him the rails had spread across the track.

The train officials seeing Whiting at once seized upon him as the man who had harmed the track with the intention of robbing the train. He was taken in charge and severely questioned. Gruff voices demanded that he be turn- ed over to the officers but finally after exhausting practically all of his persuasive powers he was released and allowed to walk back to Iowa City. He reached the Athens shortly after five in the morning.

Willis R. Hotchkiss will speak at a union meeting of the Y.M.C.A. and W.C.T.U. at the Congrega- tional Church Sunday afternoon at 4 o’clock.

The Yale Athletic Association has decided that the following Yale- ingulate shall be sent to St. Louis to take part in the ex- position games.

Harold B. Gilbert left yester- day on board the same train which met the meeting of the Interstate Or- thographical Association of which he is secretary and treasurer. Gil- bert was elected to this position last year and is still president; and holds his position here although Iowa is not a member of the as- sociation, and will be elected at this meeting.
Reward for Debaters

Hereafter, and for a year past, those who enter in contests in debate and oratory for the Iowa State college in contests with other colleges are to be rewarded with a gold honor "A." The big A is the award for winners in athletics at Ames, and at recent meetings of the debating league and the oratorical council it was decided to give some recognition to the work of men in debate and oratory.

The award will be gold A's to be worn as pins or watch fobs. The honor is to be extended to those who have won for the college in intercollegiate debate and oratorical contests beginning with last spring's term.

The University of Michigan has 3,000 students on its registration list, which has just been issued. This is the largest ever enrolled.

Ralph Rose, variously known as the "boy wonder" and the "giant freshman," is desired as an athletic member by both the Chicago Athletic Association and by the Olympic Athletic Club of San Francisco. These associations desire to have the tall shot putter represent them at the Olympic games in St. Louis this summer. Rose however, has not made up his mind as to which invitation he will accept.

A Hobo Convention at Missouri

The students of Missouri University have organized a "hobo association" with a view to hold annual conventions in Columbia. As a student project the idea is entirely an innovation, and the hobo convention promises to be one of the most interesting of all the annual events at University of Missouri. It will take place some time in April each year and the program will be carried out with ceremonies appropriate in a real convention of hobos.

All members must on "Hobo Day" be garbed as "Wandering Willy," and act their part in full detail.

The first annual hobo convention took place last week and was a big success. The students sprang a sensation by holding up an incoming train and riding in on the baggage in true hobos.

They gave a street parade in the afternoon, visited Stephenville female college, where they were given "hand-outs" at the kitchen door and in the evening held a convention, where addresses were delivered and matters of interest to hobos in general were discussed. It was resolved at the meeting that the "Wandering Willy's of this country are much abused and misunderstood.
