The high school visitors by the university was so successful that the representatives of the high schools this morning decided to hold a meeting on which Iowa City under university auspices in spite of the fact that Grinnell was expected to win. The vote was unanimous, green Ida Grove and Council Bluffs the two teams which caused the greatest distance voting in favor of the proposition. The high school men expressed themselves as fully pleased with the treatment they have received here.

Who wins?

The business meeting of the state high school athletes association left matters in a muddled state, but it seemed to be the sentiment of the meeting this morning not to accept the decision of the referee on the question. The eligibility of P. S. Hurley, a member of the Des Moines squad, was brought up in renewed mind that the decision of Cochran shall not be accepted. Such an important changes were made in the constitution of the state principal's club barring undergraduates students was adopted. The principal's scholarship clause was also adopted. It was also decided, to establish a faculty committee as an advisory body. All matters of protest shall hereafter be referred. Such a board has hereetofore been used but it has been a figure head.

The daily work was cut from the list of events and the half mile and mile relay races substituted.

The following officers were elected for the coming year:
President, Robert Cook, Independence; Vice President, Meyers, Monmouth; Secretary, Lees, Marenisco; Treasurer, Wells, West Des Moines; Executive committee, H. C. Overton, L. E. New, E. J. Taylor, East Des Moines and Brownlow of Des Moines.

At the final business meeting of the state high school athletic association this morning Chairman Chalmers disqualify the Capitol Park high school athlete who won first place in the discus throw yesterday was thrown out from competition and凫水 of Ida Grove was awarded second place instead of third; yesterday, Russell of Oska lossa getting first. The professionalism charges against Chalmers were proven to the satisfaction of the members of the committee this morning.

The close of the day was in keeping with the great success which as been won in the field this week. According to the report, Mochers university gave its concert in the campus and it proven even more popular than the preceding ones had been.

High schools for the State University of Iowa, Des Moines. Ames for the State University of Iowa, Des Moines, and Monmouth for the State University of Iowa, Des Moines.

Socially the Liberal Arts building was crowded from the inside and the outside.

The江 "Governor Given Before a Big Crowd"

The Dramatic Club has scored again. "His Excellency, The Governor," as presented last night by an all star cast, with Will Haughn in the title role, was a worthy successor to "Esmeralda." That the play was a success from beginning to end was most evident from the liberal applause throughout all three acts—aplace which had its climax in a brilliantly executed curtain call after the second act—and in the general good natured congratulation after the play was over.

"His Excellency, The Governor" is not a "plotful" play. It is flawless in a three acts, with generous quantities of both farce and romance in all three. There is a humorous episode in which the shoe is a love charm, but no one believes it—or indeed—until well.

The play opens with the arrival of the Rt. Hon. Henry Carlton, M. P. his sister Mrs. Wentworth-Bolingbrooke and his daughter Ethel. In anticipation of the coming of the ladies His Excellency was Carlton, who is on the staff, and Bavertock is his private secretary that Carlton would do anything for them. There is to be no love making. This idea was transformed by the Countess Stella Deflex, the Countess Stella Deflex, who has been introduced to Carlton by his playmates "Stella the evening star"—a friend of His Excellency during his younger years. Complications now begin. The fall of the shoe becomes part of the plan of Captain Carew makes love in soldier fashion to Ethel Carlton. Bavertock makes love to Ethel Carlton with the use of a nightingale whistle and a carefully prepared love address in three pages, read with appropriate emphasis. On his return the Countess Stella Deflex makes love to Ethel Carlton from the top of a barricade against the natives. The Rt. Hon. Henry Carlton is completely entranced by Stella. The Countess Stella Deflex, widow, falls in love with His Excellency. So on to the end. A supposed uprising of the natives and bombardments of the castle and advent and interest. Then the descent of the supposed uprising turns out a flasco, Carew wins Ethel, the Rt. Hon. Henry Carlton; M. P. his sister Mrs. Wentworth-Bolingbrooke, widow, falls in love with His Excellency.

AMUSEMENTS

The secondary title of the Lady of Lyons is Love and Pride. The horst Pauline is the daugher of a rich merchant of Lyons. She has been reared to look down upon those who are not equally fortunate. Like many Amorican girls of today she has a fancy for a title. She will not marry any common mortal no matter what her inclinations to him may be. She is quite per sonified. How she was cured of her folly, through that bitter experience she has to pass before she learns that a title is an empty sounding can be learned when William Owen, J. W. Connell with Miss Camilla Reynolds and a strong east will put on The Lady of Lyons at the opera house, on May 25 and you want to see it.

Iowa Will Win
Iowa should have little trouble in defeating Minnesota at tennis next Saturday when the representatives of the two schools clash for the customary match. Minnesota's and Nebraska are now conducting a tournament at Lincoln and the honors were evenly divided at the end of the first day. The Nebraskans are represented by the same team which was defeated so unanimously by the Iowa players a week ago.

Norman Dale, the Leland Stanford athlete was presented with a loving cap by the students of the University of California for his feat in breaking the world's record in the pole vault.

Professor Lincoln Hutchinson, head of the department of sociology at the University of Califor nia and formerly instructor in economics at Stanford will spend the whole of next year in the study of London making a social and economic conditions among the poorer classes.
