Y.M.C.A. CONVENTION REPRESENTATIVES MEET HERE APRIL 7

Address Interesting And Instructive-Work of Can-ning The Fish

Professor Nutting gave a very good talk on account of his methods of canning.

The canning season begins in the spring when the salmon on the coast line in the state are fresh enough to be canned. They are the salmon which is caught and salted in the rivers and fresh water streams. They arrive in this duty. After they are canned, the fish are shipped to the different ship points and are shipped off to the different markets.

The fish are canned in the usual way, and then they are shipped off to the market. The fish are generally canned in this state.

Hope Entertain Zets

The Hesperians entertained the Zets at Close Hall last evening with games and a spread. The hall and rooms were decorated with college pennants, corn, and wine hunting. Corn corners and cushions were much in evidence:

The tables were arranged in the shape of the letter "H." Covers were laid for one hundred guests.

The tables were decorated with corn and wine foxtails hung with little stars. At each place was a candle in a little star candlestick. Corn and wine combinations were used to add color to the scene. The favors were little stars with a "Z" in the center of them. It was one of the successful parties of the year and much credit is due to those who had the idea in charge. The following toasts were given:

EXPOSITION

The greatest exposition of the resources and products of the Great Northwest will be held at Portland, Oregon, May 15th. The exposition will be open in June, and it is confidently believed that this will be one of the greatest of world's fairs. Portland is best reached via the Chicago, Milwaukee & St. Paul Railway.

Choice of routes is offered. Via St. Paul and Minneapolis—the route of The Pioneer Limited—via Omaha and Denver; or via The Overland Limited. Both are the wonderous panoramas of Rocky Mountain scenery. It is a good time now to plan your trip.
