The Hawkeyes and How They Look.

"Old Grids" Prospects for the Coming Game Between Iowa and Chicago.

The Monmouth-Iowa game showed that Iowa is getting into first form, because Monmouth put up a faster game and was heavier than Iowa, whom Iowa played the week before. Iowa played a fearfully ragged game with Iowa, and the play was not altogether devoid of raggedness with Monmouth, but there was more team-work, and all the men showed up better. McKown got into the game again and made many fine blocking and cross kick gains. Kent showed good backward and good speed in quarterback runs. Green was a good ground gainer. Moore and Shell played the out positions well. Fieldman guarded his tackle position in good style, and Fitz and Ackerson passed the pigskin well at center. Iowa played good consistent ball at left half and "Germany" was a good like backer. Rockwood showed his old strength, and it looks as if up the men did better team work than hitherto. "Germany" was a good center; Pritarak, Barber and Knapp went up well. However, better ball must be played and less fumbling done. Stewart did not Saturday when Iowa plays Stagg's men.

The Kupper and Chanterm were out last night, after being on the sick list for some time. "Andy's" injured ribon is not very strong, but he expects to be able to help hold the Maroons on Saturday. "Andy"s his name is in the Hawkins, and will roll up no large score. Chicago played Wabash university, of Indiana, and beat the light Hoosier team but two touchdowns and a field goal. It was an undoubtedly an off day for Chicago as the best men made mostly costly fumbles. Stagg told his men that if they didn't play better ball Saturday Iowa would beat them. Ketterhall is reported injured, and there is a possibility of his not playing Saturday.

Chicago has Boilet college to play tomorrow, but the latter, being very week, will not put the Maroons to any inconveniences. Iowa has a good chance to make a fine showing if the men all play together, keep from fumbling and forget stage fright. The heavy Chicago backfield is the only great backfield Iowa, for the Iowa backfield is exceedingly light as compared with Chicago. This fact was what overbalanced Iowa last fall, but to go together with the working to two teams by the Maroons. At any rate, a good backfield will be a plus asset, and if it will not carry any one's scoring. This is the first game between the "Big Nine" teams this season.

Dr. WARD AMONG THE MUSQUA-KIES
Dr. Duren J. H. Ward, lecturer in the history of the Indian nations, recently returned from a several week visit among the Musquakie Indians. The trip was undertaken for the purpose of investigating both the history and the present-day life of the tribe, much valuable material was secured. Among that obtained by Dr. Ward and presented by him to the State Historical society, are photographs of many prominent Musquakies, histories of the tribe, and information regarding their language.

One of the most interesting of these acquisitions is a manuscript written by a member of the tribe in the Musquakie tongue and giving the history of the people. This book will be published in book form by the historical society.

A model web-knit, prepared by common men used by the women of the tribe, is also on exhibition in the Library of the society.

NEWMAN SOCIETY ENTERTAINS THE "Bible and the Dead" Sunday, April 6th. The Newman society entertained the Catholic students of the University at Majestic hall Monday evening. Over 200 Catholic young men and women were present. Dignity was shown in the occasion by the presence of Hon. J. M. Wade, Attorney W. J. Baldwin and George Hummer, who delivered addresses. Following the addresses, cards and dancing were the diversion of the evening. The fact that the attendance in the number of Catholic students has increased is thought that of any other religious denomination, was proved beyond any doubt by the large attendance. The affair was a success in every sense of the word.

A meeting for the University season will be held Wednesday afternoon. At this meeting the faculty members of the athletic board of control will be appointed for the coming year. The faculty members of the board, at present, are Professors A. G. Smith, L. M. Byers, J. T. McClintock, W. J. Teets and R. B. Bush. They have worked well together in the past and have given entire satisfaction, and it is quite probable that they will all be reappointed.

The senior engineers of the University are arranging for a trip to Cedar Rapids in a body, Friday afternoon. The purpose of the proposed trip to the Parlor city is to inspect the new steel and concrete bridge there. Prof. Lambert will accompany the students on the journey. On account of the low rate this week, it is thought that a larger number will make the trip.

NOTED ALUMNUS
Mr. Kresto K. Kavacnik, who will be in attendance as a student in medical science in the Graduate College, 1901, has been acting as press representative of one of the foremost Japa- nese dailies during the recent great jubilee celebration in Japan. His style of writing appears with that of other note-

The moment you leave the cost ticket out of calculations they are no more like any other shop's stock than last year's College Brand Models are like this Fall's.

**SMART chaps are always eager to inaugurate the new season in advance of the throng.**

We shall hold our opening display of Fall and Winter overcoats much earlier than the other shops because this is a shop that doesn't cater to men of average ideas.

You swagger young fellows around the young twentys—who to-day are dictators of proper clothes will find

**College Brand Clothes**

laid out for choosing tomorrow.

They are nearer to the custom-tailor idea than any ready-to-wear garments have ever touched. They have all the little trickeries of special measurement—as much, if not more, swing and dash to them, and certainly an equal degree of fitting perfection.

You can't find clothes just like College Brand Clothes because there "ain't none", and different from clothes for men of settled tastes.

They are custom-shouldered—custom draped—the clothes are custom clothes—the cut is the cut of custom shop. Every point has been strained to make them outstandingly clever without straining your income in their buying.

College Brand Clothes cost no more than any other kind of ready-made clothing—this resemblance, however, is only price-deep.
