**The Normalites.**

"Dee" Pelit's Teachers are Fast and Play Snappy Ball.

Iowa plays the State Normal team on the Iowa field Saturday, and the game promises to be a good one. It will be remembered last year how close a score Normal played Iowa and this team always plays Iowa a harder game than the other teams of the "Big Four." The teachers seem to assert all their strength when they play the Hawkeyes and play better ball than they do with the other Iowa teams. Coach Pelit is working his men hard and expects to have them in the pink of condition by Saturday. The Normalites trimmed Cornell Saturday by the score of 8 to 6. Clyde Williams has worked hard with his team, and they played the teachers a close game, but the Normalites were the faster for the last ten yards. The Normal team puts a great deal of faith in its two ends, Chase and Hamilton, both of whom are sprayers of the first class. Hamilton is known the state over for his sprinting, running 100 yards in 19 seconds, flat. Hamilton beat Hiner Davis out of a couple of races at the state meet last spring or Iowa would have won a larger score. The teachers claim their ends to be the finest in the state. Warren is playing a good game at center. Paul and Clancy show strong defense in the guard positions, and Glasey is playing a star game at tackle. Captains Ehret and Merner at left and right half are very strong on the offense, carrying the ball for good gains. Orr is a fast and heady quar­ter. The men are all fast or their feet and the line holds like iron. This is the hope that the Normalites are sending out about the game. But style and spirit are necessary adjuncts to them. The Normal team, Coach Pelit and followers of team will arrive in Iowa City tomorrow morning.

**Normal Stars.**

HAMILTON: R. E., Guard, Captain.

EHRET, L. H., Captain.

**What Minnesota Thinks.**

Say Freshmen Were Toughest Proposition of the Year for Their Team.

In a hard fought game the Minnesota freshmen defeated the 99 men from Iowa last Saturday by the score of 6 to 0.

Iowa was heavier than Minnesota, but not so speedy. They also lacked the team work of the freshmen. Their defense was especially good and it was enough to hold the freshmen to a point. Hastings at center, although the heaviest man on the team, seemed to be the brightest and did a lot of the work for the Hawkeyes. Curberry at end and Griffith at quarter were the best ground gainers. The Iowa was by far the toughest proposition the freshmen have met this season.

"Varsity Game.

When at its best the work of the "Varsity" in Saturday's game was all the better as it was most enthusiastic and the best of its kind, and when at its worst it was enough to disgust the most loyal supporter of the team.

For about twenty minutes in the first half and after the first touchdown in the second half Dr. Williams' men played in championship form. The team work was the best seen on Northrop field this year; the plays were started well and the men got into the game with the best spirit. On the other hand, for the first few minutes in the first half and the better part of the second half, the play was rugged and the men seemed to have entirely forgotten that the ball was a necessary adjunct to the game. The scrumming was enough to make the championship game a dozen times. At these periods of relief Minnesota was repeatedly held for downs and her defense seemed to weaken in proportion to her offenses. Fortunately, their form at crucial moments and Minnesota's goal was never in danger.

One quality which has recently been developed and which was especially noticeable in Saturday's play was the manner in which the men sustained the runner in the offensive. In every play the man with the ball would be held or dragged or pushed for an additional yard or so by some of his men. This was individual and was particular­ly gratifying was that this was not confined to just one or two men, but seemed to be the policy on the team.

The exceptional condition of the men should also be mentioned. Practically the entire line was taken out for the Gopher players, while the Hawkeyes were continually taking the count. Minnesota had one-fourth of its team down with injuries, but was not satisfied with its performance.

Dr. Storms coming.

Students will be glad to learn that President Storms, of the State Agricultural College, is coming to Iowa City for next Friday's game. This visit is in response to an invitation from the Daily Iowan, and he will be present in Iowa City during the coming year a number of times and will address students in the Daily Iowan.
SCATHING CRITICISM.

The Harvard Bulletin has an editorial, from, which some extracts are quoted below, that makes strong language regarding football. This cannot be put in the class spoken by Henry Van Dyke as coming from the people who do not know, for the Bulletin is the official organ of the grade body of Harvard—and they know how to play football at Harvard. However, the question of interest only be classed with the talk of "the hogs.'

It is not strange that football should be less interesting to a man than it was thirty years ago. The validity of this statement from the Bulletin may properly be questioned: "It is often said that the constant attendance at the important football games conquers the statement that they are not interesting. This would be true, if they were. The truth is that the ability to find interest in the advertising which the newspapers give the games."

The caption seems to be of the men who saw the games in the early 19th century. I am not sure if there are infinitely more interesting to watch when bleachers which are present. One sees a player plunge into a group of men others and these disappear. That is all there is to 75 per cent of the formations in the modern game.

The criticism noteworthy for consideration is the latter part of the following: "Something is the matter with a game which grows slow and more uninteresting. "An inquiry made by a visiting professor of Ohio State University as to how many cigarettes an ordinary smoker will consume in a year has disclosed the fact that ten students, none of whom are regarded as good smokers, smoked 22,000 in the college years of the last two months—University of S. B. Violace.
