FRATERNITY RUSHING

Impressed with the evils of fraternity rushing, the regents of Nebraska have made the following appeal to the fraternityists:

"The evils of early electioneering and pledging are from various quarters urgently pressed upon the regents' attention, with demand for correction, and can no longer be ignored. The regents think that no student should be pledged or admitted to any fraternity or security till he or she has been in the university at least two semesters. They, however, much prefer that this reform should be inaugurated by an agreement among the organizations themselves. The regents appeal to them to undertake the reform and carry it through, hoping that no enactment by university authority will prove necessary in the future.
