2000 MARK IS REACHED

PREDICTED REGISTRATION IS AN ACCOMPLISHED FACT.

The County Clubs Have Helped- Fifty Per Cent Increase in Three Years.

Two thousand students already enrolled, and the second semester registration yet to commence, in the extended "report of programs" just made public by the director's office. While a few people of Iowa have had an idea of the programs being made in the business work of a student body like Iowa's, yet the great mass of those who have little of the University's real growth and development until last year, when a somewhat comprehensive investigation showed that the University's growth last year was to increase of that attained by other representative universities in the United States. The figures just announced are at the same time an augmentation of a much earlier trend. The figures estimated to have been reached by the end of the first term, may now be postponed until next semester; but if the figures will aid without and as Professor Byers declines the unprofitable task of picking out any group to represent many others, the attendance must increase, also, Professor, also, Professor Wilson was a Harvard man, and the hope of the situation would seem to indicate a certain Junior who is not in college a year ago, but in college and the least of title to be called "Professor." However, the mister is not counsel and certain Junior who has not the highest reputation for the physician, and the "Professor."

The Senate considers debating plans. The Senate made a motion for the formation of a debating League to serve the University in the past, and for the present year. Professor Shimek, who followed the tradition closely, and discovered many things of geological importance which have been further elaborated on the basis of the deposit in that region.

Mark, the official School organ, presents the color culture, the University of the state. The official organ will be of particular interest to Professor Shimek, in whose research on the subject in Elite was made.

ALL A MISTAKE.

Mr. James Barry Antoni who He is Not Going Back to the "Gold Sox."

"Fancy" was he looking for the team that started the report about that trip to Ireland. He hasn't made any trip, and not at all, and began his picture. He was quite convinced that no serious opposition exists, and the prospects of ultimate success for the plan are as bright as they ever were.

Basket Ball.

The next big basketball game will be on Ue with One at Iowa City Saturday evening, Jan. 10th. Every effort is being put forth to get our team into condition. Training is being pushed to prevent a defeat by Our. Our members are not in as good shape as it was for the Normal game. Two weeks' vacation and no training has neither handicapped the men. It is understood that One did not break training during vacation.

Figures Were Wrong. An error crept into the article printed yesterday concerning the work of the State Board of Health's Physiologic Laboratory. It shows the total value of lab'or's work, estimated at the summer's close, should have been $15,000, and a year's work on this had would total $30,812.

Professor Charles Wilson was unanimously re-elected secretary of the Central Division of the Modern Language Association, at a recent meeting, and also one of four members of the editorial committee.
New Goods

Never has such a large and well selected line of strictly first class goods ever been shown in the jewelry line as we are now offering.

Brackets, Lockets, Neck chains, Fancy Comb, Umbrellas, Plain, Fancy and Signet Rings. An exclusive line of cut glass and hand painted chin. In fact our store is filled with all the new and up to date goods of the season.

Manchester RIFLES
Model 1903, 20 cal., is the best value for self-reloading .30 and .38 cal. game or target rifle, combining the good points of the old muzzleloading sporting rifle with the advantage of speed and ease of loading. It is constructed on the same lines as the following models: Anti-Mosquito, 1892, 32 and 44 cal.; 1894, 32 cal. and 44 cal.; 1897, 32 cal. and 44 cal.; 1899, 32 cal. and 44 cal.; 1903, 32 cal. and 44 cal. and all cal. There are 12 calibers. The 20 caliber are just the thing for small game while the long nose .44 caliber is fast and deadly. On the first 200 cartridges you have paid the cost of a .44 cal. Rifle. See and handle before buying. We have in store these models and our Experience Book tells what we think of all our work and is free to all. For the money, we know of no better value Previous models are no longer made.

New Courses of Institute Lectures.
A new course of Institute lectures has been planned by Professor W. C. Wilson. His theme is "The Use and Abuse of History." There has been a growing demand on the part of teachers' institutes for lectures on the methods of studying and teaching history. Professor Wilson has not met with the following subjects:
1. The practical value of a historical study.
2. The influence of Geography upon History.
3. The relation of biography to history.
4. The source of history.
5. The teaching of history.

Students Wanted--At our Boarding Club, corner of Linn and Market.
Rates $2.75, Individual breakfasts served. General table for dinner and supper.
