Marsh Interests in Boxing

Great interest is being shown in the boxing class at the Physical Education E. K. Schneider started last week. Only two meetings have been held and only nine have signed up thus far. A class meeting will be held each Wednesday at 4:15 and Saturday at 10:30. The following men have been chosen for the season: Young, M.; Seeger, M. W. White; Hov¬

s, Sowers, Rockingham, Ramsey, Bowers, M.; Elingwood, L.; Eling¬

DO THINGS! College days are not a preparation for life, they are life. We do not leave the self-focused in college be¬

cause it is a part of us. When we leave college we are more than not to carry away the habits and

sense of life already formed. Few men find unless they lived of forming at least 24 to 25.

So, we are living our lives today. What do we know determines the future. The man who does his best work will get the best,

in who tries to advance finds a way of doing so. The ambitious man,

the man who intends to do things, must get right in college. His

entrance to the world is only a step. There is quite a bit to learn through

He has learned to do by doing. Graduation is not his commence¬

ment. It has begun life. Our school is a great test. Opening every hand they open up opportu¬

nities for individual effort. There is a worthv man who cannot find

some activity compatible with his accomplishments and talents. Iowa

gives her students an opportunity to do so.

The habit of doing things grows. It is the interest in life to begin early.

White Steamer for Engineers
Mr. Edwards B. Wilson, L. '97, of
this city, has recently shown his in-
vention in the Engineering College at
Bowling the whole students his big
twenty horse power White Steamer
units for testing purposes.

This car is of the same type as the
escarp which have won practically
all the highest awards in the
country. It has a fluid drive and
two compound cylinders, making it
one of the most powerful cars on the
road. This fact made the car a
great interest to the engineers and
they feel fortunate indeed to have won of all other cars in the
test. The departmental word was great
for Mr. Wilson for his drive as it
practically amounts to the lease of a
two thousand dollar instrument in the
college. The tests, which are to be
made today, are supervised by Asst. Prof.
A. C. Riddle, head of the Mechanical
Engineering Department, will re-
quire two or three weeks.
