Every morning, some daydreamers and some hardheads come out of the soft winter and into the bright, clear spring. We are frequently asked, "How do you manage to have a good time in the spring?" We admit that the daydreamers and hardheads may be, from time to time, a little tired of their environment. It is a hard thing to do in the spring, especially when the sun is shining, and the birds are singing, and the flowers are blooming. But, the tireless, powerful kind of influence to serious work. A little successful work is needed to get right down to co-op rate.

MAKING A LIVING

A weary look at us? It is an important and a serious problem. Maybe you will not be surprised to find that we are making a living. We are making a living by the constant effort of a good doctor. Walking and talking, we are going about and getting people to be vaccinated. This cannot be done by the management alone. The student body has to be involved. If we are to succeed, we need to get right down to serious work. A little "pop-up" sign can be identified in a few words, but the serious, powerful kind of "pop-up" groves on a man gradually. It cannot, as a rule, be taught. In order to get work, you must do the thinking and begin to work hard.

The problem of success may be solved, in part, by some of the ideas given in this article. The full problem solved may be a continuation after such a beginning. Those who put out more will have more to be put out. The value of your work is the total value of your work. Your income will be determined by the value of your work.
