This year, Macbeth is now being considered for the murder of Duncan, his stepfather and king. The whole basis of murder of King Duncan by Macbeth is not suitable, as the scene creates almost whole body of suspicion between Macbeth and his son, Macduff, in context. The scene in the Banquo case justifies in an extreme symptoms of insanity of Mac- bench, and in the fact that the trial is for the state’s sake in the latter year of the murder, who in all cases require coroner for action.

The cases have been uniformly well told, and the present trial has not been behind the predecessor in cost. The attorneys are selected from the most with the highest academic standings in the class, actually the whole class participates, either as attorney, or witness, or jurors, and the breadth of it should be not insignificant at all. It is believed that these cases have been a credit to the College of Law, and have contributed to the marks in it favorably given outside.

the trial of King Macbeth is one of the most interesting and instructive cases in the annals of the College of Law in the annual Jr. Law Trial. Each year the members of the Junior Law Class, under the direction of Prof. M. M. Byers, who has charge of the Practice Court work in the Department, carry on a case in court.

These cases are usually taken from some historical event as if it were a present-day event.

The case is carried on under the Code of Iowa and the rules relating to court practice and the admissibility of evidence are followed as closely as possible. The trial shows the excellence of the experiences in the method of court procedures and in examining witnesses. The attorneys are selected from the membership of the class, and also from the members of the court, jury and witnesses.

One case for this year is entitled "The State of Iowa vs. James Macbeth, John Green, Joseph Black, William Silver"; another has been selected and is entitled "The murder of Banquo by the number of Rum in the year 1640.

The court is presided over by Judge Byers. The attorneys for the prosecution are C. F. LeBlanc, of Cedar Rapids; Owen N. Elliott of Shady and John P. of M. Pleasant. King Macbeth is represented by Miss Hannah of Bangor, C. E. Berrill of Bair and Vincent G. Garber of New York.

E. L. Edwards of Columbus Junction is Clerk of the Court and Thomas Wright of Iowa City holds office as Probate Judge and he proved to be the most efficient and hard-working official about the court.

The following members of the Presidents and Junior Classes were drawn as the Jury: Ethel Ford, Minnie Williams, Jane Long, Ada Cleary, G. W. Collowing, Gladys Conners, F. L. Dent, G. N. Kinney, Kline, B. Snyder and Wallace.

The trial opened Thursday, April 5, 1890, at 8:15 P. M., with James Macbeth (James L. Lonigan) of Dubuque in the capacity of John the Thane. After the opening charge of the case for the prosecution in the closing address and outlined the crime of the State. He was followed by the Assistant Attorney General for the defense who stated that during the address and the defense of Macbeth would be listened to carefully.

The witnesses for the state were then called: Edward Allen of Dubuque, son of the late Cyan, gave a precise account of the murder. He was followed by the three members of the defense (Harry Ma), who testified to the propositions which they made for the King. James Keefe appeared next in the behalf of Ross and presented an interesting witness. Robert Ballard, (James Gillies) as an attendant of the King, testified to the conversations between the King and the two attendants (N. D. Tiemann and John Higby) who did the actual killing, and had sworn to stand by the

link the mental instability of the murderer at the time he is alleged to have committed the crime. On the cross-examination of Lady Macbeth by the prosecution, the one connection behind her pregnancy of reverting to answer any question which might be probed by the witness was by the supposed one or in the previous murder of King Duncan, and largely defied the efforts of the attorney for the state to obtain usable information from her. Lady Macbeth could not remember enough to assist the prosecution and was then discharged after some able cross-questioning by Attorney Elliott. Miss Benson made an admirable witness and showed thorough preparation and study of the case of the trial and the Law Professor's opening argument.

The defense submitted the remainder of their witnesses yesterday. Law Professor's Father, Mrs. Mary E. M. Byers, the speaker in assembly at the beginning of the trial was the father of Professor E. M. Byers of the College of Law Faculty. Prof. Byers formerly practiced law in the Capital City.

ELECTRICITY

The Silent, Forceful Agent in Commercial Pursuits

Electricity is recognized as one of the greatest conveniences of modern times. Its application is so general that to eliminate it would be a backward step that would mean an enormous loss to the welfare of the world.

The people of Iowa are fully aware of the conveniences and advantages of electricity, and a very large per cent are now using it for lighting their homes, as well as assisting in other ways in the work of the house. As a power it has no equal -- always ready, will pull all you can load, do it with dispatch, is clean and economical -- The ideal power.

LIABILITIES

Senior Whipple who intends to file what was posted proving a single bond of control for a three state educational institute graduated in the class of '79, finished his Liberal Arts course six or seven years earlier.

The Beginners Problem

Every young lawyer has to decide several important questions which vitally affect his whole career. Where shall he locate? Shall he open an office alone, take a partner or accept a position with an established firm? How about a working library?

The failure to solve this last problem wisely has cost many a young lawyer dearly, either through his being handicapped by lack of proper tools or by a debt so large as to be a constant drag on his progress.

Neither is necessary. You do not need at the outset an extensive library of Reports, Digests, Text-books and Encyclopedias. On the other hand, you can do no more than stagger along unless your library covers the whole field. There is only one way.

Lawyers Reports Annotated

Are Reports, Digests, and Text-books. Reports in that they report at the rate of 1,300 cases a year those cases from all jurisdictions which are most valuable everywhere. Digests in that they contain the best possible key to any large reference library, state or otherwise, which may be accessible. Text-books in that the notes, taking for its subject a narrow brief point, analyzes all cases and presents all the law on that point.

Buy first your own state reports. Next LAWYERS REPORTS ANNOTATED. You then have an adequate working library. You can add other valuable reports, digests or text-books as your need for them may develop in your practice.

We will send you free a 600 page bound book called "Desk Book for Brief Makers," showing subjects covered in its volumes. Send transportation, only 25 cents, in stamps, if most convenient.

You can start with the New Series if you wish, 13 volumes, 1906-1908, and add 1-70 First Series, 1888-1906, later. Ask for sample pages and full information.

That "Piano Advertising Plan" from Iowa
Pulls Prosperity out of a lean business caused by shortage of crops, panic, strong competition or bad location
A WONDERFUL WINNER—NEVER FAILS—CANT FAIL

The piano costs you nothing—Your customers pay the full and YOU get the profits—all the way from $20.00 to $50.00. That's what my patrons testify. Let me show you their letters—the sweet bunch of delighted mamas takes most hard headed business men you ever read or will read. Merchants. Manufacturers. Publishers all brilliantly successful.

Beginning Campaign
I equip you complete with the whole premium plan—all details worked out to win.

Send me your order and tell me the competition you want to overcome and I'll do all the rest. I know how. I've done it for others and don't know what failure means. Take the public by storm—sell ten thousand and more. I'll guide you to the dollars your way and keep them rolling in amazement.

The Cote Piano
A perfect instrument. I sell it to you at a moderate price. but no $500 instrument has richer tone, more perfect action or a longer life than the Cote. Used in a thousand homes. Well and favorably known every where. A specially overhauled throughout and led to a perfect finish.

And let me tell you it would be suicidal for any merchant to give way to a cheaper made, inferior piano to any customer if he wants to reap a permanent benefit from the enterprise.

Used by Merchants, Manufacturers and Publishers, large and small, and always wins.

Live Ones, write me, Needy ones, wake up, I'll show you how it's done. Salesmen, boys with "get and go", it's your chance. I want a few reliable salesman to canvas the retail trade. Samples in coat pocket. Don't worry trying to revive dead lines. Get one with breath in it now. Get wise to the "Iowa Idea." Mention this paper.

In Search of Sensible Clothes

No man wants to spend a large part of his time to assure himself that the clothes he wears are right--right in style, satisfactory in service, and just in price. The men who have solved the problem of good dress today are the men who have learned where to place their reliance. They havelearned that the store which knows what its customers must have to keep them in the lead of fashions. Such a store guards the appearance of the men who come to it to dress and whether the demand be for a new cravat or a suit which is perfect in every line that store is ready to meet the demand.

We have a continuous history in the clothing business in this same store of fifty years. The alumni who are now in high positions and whose heads are crowned with the white hairs of wisdom many of them took their first lessons in good dress here. The store has progressed, the old timers would hardly recognize it now except for one thing--that is its policy to lead all competitors.

For Half a Century This Store Has Been The Students' Acknowledged Standard

A Word About Our Suits

We sell College Brand and Stein-Bloch suits. We sell them because they satisfy the tastes of the men who want to be in style. Especially striking are the patterns and the models of the College Brand suits for this season. The Stein-Bloch suits are more conservative in style but no less satisfactory for service.

A Stetson Hat. "Nuffsed"

Stetson hats need no introduction to the men who wear the best clothes. Max Mayer has long been Stetson headquarters in Iowa City and especially complete is our spring line in this make of hats in both the soft and stiff shapes. Make Stetson your specialty.

$3.50 to $5.00

Topcoats and Cravenettes

A cravenette or topcoat from our present line assures the purchaser of a garment in which he will take the maximum of comfort. Our cravenettes are made for us by Stein-Bloch & Co. and are notable for their shape-keeping qualities. The 1909 styles in top coats will please you for their exceptional beauty.

Knapp-Felts Always Here

Young men like Knapp-Felt fans because they are the only kind of hose made especially for young men. They have what other hosiery lacks, many times, just the right fit to the foot and shape to the block to make the wearer appear as young men should.

YOU expect about this time of the year to "blossom out" in new clothes; Easter seems to be the date for it; and just before is the time to make the necessary preparations.

One other thing: Our store is just the place for the man who wants to be well-dressed to begin his Spring decorating; and you'll find it most important to get acquainted here with our fine Hart Schaffner & Marx suits and overcoats. In no way can you dress with so much satisfaction to yourself and to everybody who sees you, as in these clothes.

We know we're doing this town good by making it possible for our men friends to have such clothes as these. They're strictly all-wool, tailored in the most perfect way, in correct style; and we'll fit you. If you want a sack suit; or a dress suit; if you want an overcoat for dress or any purpose we'll supply it. It will be right in everything, including price.

Lots of other things, too; shirts; Easter neckwear of all kinds; gloves; fancy waistcoats; Derby and soft hats; we'll outfit you right.

Hayes' Justice Practice
By Samuel Hayes, Professor of Law in the University of Iowa.
One Volume, Buckram, $4.25 Express Prepaid.

Judge H. E. Deemer, of the Iowa Supreme Court, says of the book:
"The entire book is the product of a ripe mind, and it cannot be too highly commended for brevity, clearness and lucidity of statement. It is a relief to pick up a volume and find that it has not been padded. Repetitions are studiously avoided, and the publishers have joined with the author in producing something which is well worth the price asked. No one who expects to practice in inferior courts can afford to be without the work. No where will there be found so much law within so small a compass. Author and publisher are alike entitled to praise."

Holmes' Probate Law and Practice

The Old House of Representatives

For practically two generations the former House of Representatives in the Old Capitol has served the lowly law student as a law lecture room. Within these four walls more interstate law students have studied the law than in any other room in the State of Iowa and probably in many of the surrounding states.

I have reason to believe that the students of 1896 were every bit as modest as those of the present day, and in four that they might stick into solution carved their names or some still as deeply on the chairs and walls as deeply in the heart of the Iowan.
