ELECTION POT BOILS: FRESHMEN ARE ACTIVE

FIRST-YEAR STUDENTS HOLD ELECTION TODAY.

Two Full Tickets are in the Field—Large Number of Politicians are Held at Work.

Neither is a result of Jim Caskett's visit to Iowa or whether it is to come as "unusual" presents to the year's best policies and plans. The following tickets are scheduled for the first round, all at the same time and place included:

1. The first ticket on the slate is the "Nationalists" ticket, which includes: L. D. Taylor, W. P. Brown, and J. M. Thompson.

Both tickets are scheduled for the first round, and the election will be held at the usual time and place.

Another Football Song

The following song written by Mike unknown football enthusiast was found in the Iowa's news box:

The Lord Has Crowned His Own

The" Football song is a stirring tribute to the Iowa football players, and its lyrics are as follows:

The Lord has crowned his own,
With the gold of victory.
They march to victory's sound,
With the 'Hawkeyes' on their side.

They're Iowa's heroes, true and fair,
With the 'Hawkeyes' on their side.

They're Iowa's heroes, true and fair,
With the 'Hawkeyes' on their side.

They're Iowa's heroes, true and fair,
With the 'Hawkeyes' on their side.

They're Iowa'S heroes, true and fair,
With the 'Hawkeyes' on their side.

They're Iowa's heroes, true and fair,
With the 'Hawkeyes' on their side.

Iowa Has No Football Game Tomorrow
-- But We Will Be Open

We want the Laws to take judicial notice; the Medics to make a careful diagnosis; the Dents to neatly articulate; and the L. A. s to give a translation of the fact that this store wants to see the University men tomorrow. Saturday is to be a real “season-opener” with us to celebrate the fall of the mercury down toward the shut-out mark and we can’t play the game unless you help us. There is a full field of fashions here—the biggest array this store has ever had.

You Have Heard Us Say Suits

We talk the whole year around about our suits because we have plenty of inspiration. We are enthusiastic over the garments the tailors who furnish our stock turn out for us and every season sees a larger list of careful dressers who share our enthusiasm.

Stein-Bloch and College Brand

WE ILLUSTRATE herewith a couple of the season’s models shown in our stock made by the Stein-Bloch company. If you have any special acquaintance with the clothes product of this country you know that the garments bearing the Stein-Bloch label must pass muster for the highest perfection in ready-to-wear clothes. We ask you to study the illustrations here, then come and say, “I want to see these Stein-Bloch suits.” You will be on track of the highest degree of clothes satisfaction you ever realized.

FOR YOUNG MEN there is no more generally popular brand of clothes made than the College Brand suits. They are designed to give the figure a clean-cut, striking appearance by a boldness in pattern and model and the tailors who make them are expert in the production of these very effects. We had rather talk the suits over with you in front of the mirror, for there we can show you just what we mean and you will understand by a “try-on” things that we can’t express on paper. An especially elaborate showing of THESE SUITS AT $15.00-$18.00

A Special Showing of ’09-’10 O’coats and Cravenettes

WE INVITE ATTENTION to our showing of Cravenettes. We are enjoying a trade in these garments which warrants us to believe that our stock is meeting with the approval of the men of the university seeking the best there is in neat rain coats.

The materials in these garments are of the best. The patterns are of selected cravenette cloth in black and fancy mixtures and the sleeve and body linings are of the most serviceable known. We especially urge upon you that you see this stock early if you have need of a rain coat.

PRICED AT $15-$25.

Stein-Bloch Models

MEN’S WINTER OVERCOATS—The big goat stock in this section of Iowa. The patterns include solid colors and mixtures in worsted meteons, and vicuna, serge or silk lined.

These overcoats embody the latest style and in America and therefore are good enough for Iowa. Nothing else is. You will feel warm and feel right inside one of these coats for you will know that there is nothing more correct possible this season. The models are in varying lengths and either form-fitting or loose, as you like.

PRICED AT $15-$60.

Protector Styles

THE “MUTO” is a protector style of rough weather overcoat when you want it, as it is equipped with a special collar which permits of being turned up and buttoned closely about the neck when you want, or can be turned down to look like a regular dress coat.

COLLEGE WOMEN MAY TAKE RHODES EXAMINATION

General Federation of Women's Clubs
Committee Offers Your Study
Aboard—One Applicant

For the first time in the history of the university, women this year are privileged to take the Rhodes scholarship qualifying examination to be given October 19 and 20. One applicant for permission to take the examination has already applied, although her name is withheld from publicity.

The scholarship for which the women will enter is not a Rhodes scholarship, however, but one given by the General Federation of Women's clubs with headquarters in Washington, D. C. Through the permission of the Rhodes Trust, the applicants for the scholarship will take the Rhodes scholarship examination.

Some of the conditions of the scholarship award are contained in a folder received at President MacLean's office and are as follows:

1. A scholarship of $1,100 to be held at either Oxford, Cambridge or London Universities, for the year beginning Oct., 1915, will be awarded an American woman by the General Federation.

2. The scholar shall be selected from among the group of American college graduates of good standing. The age of the successful candidate, when she enters upon her scholarship, shall not exceed twenty-seven years, and she shall be unmarried. It is expected to enter either upon undergraduate work for her degree, or upon graduate work for her degree, or upon graduate work for her degree, or upon post-graduate work.

3. It is expected that the applicant for the scholarship shall take in October, 1916, the same qualifying examinations as are provided by the Rhodes Trust for college men who are competing for the Civil Rhodes scholarships.

4. The committee will write to the State Federation of women with whom she has her initial correspondence, duplicates copies of credentials in regard to her good health, her moral qualities, her literary and scholastic attainments, and her promise of distinction.

Admission to the examinations will be allowed only upon written certification of a candidate for this privilege by the national chairman of education of the General Federation whose address is given below. This permission will only be issued upon the request of a State Federation president or chairman of education.

Examinations will be given in mathematical, Latin, Greek, and it is not necessary for the applicant for the scholarship to be examined in Greek at the qualifying examination. The student selected will have time to study up before she takes the entrance examinations in the English universities.

Athletic Board Notes
At a long session of the athletic board on Wednesday evening, the composition of the new "F" team was concluded from the long list of applicants. The team will encounter the 1910 board with the team of 1909. It is probable that the "F" team will not be out of the running with the board to see the cup this year.

WHEN on an deadline of Examen Work,
written in an Iowa residence; with an
Iowan representative, Prof. W. C. Wilson
gave some interesting facts regarding the
annoying examination work.

"This began in England in 1894,
when a "mad wall" was erected
in America by Richard G. Moody
and William Lawrence. It was taken
up here by the university of Pens-
sylvania and the university
of Chicago was founded, a
department was established there.
The wall seems to be the only
work that is now being done
with systematic work. At Chicago this
department has a special faculty
numbered with those who do that
taxation work.

There are three division of ex-
amination work, namely, lecture
staff, class instruction and correspondence.
Credit can be obtained for attendance
over a series of lectures given by
two main and the accomplishment of a
certain amount of outside reading.
Correspondence work has been the
best prepared for, during the last
decade, the real university extension
work has been slowly on the
wane." This has been due to several
reasons. First, the summer vacation
diverts the attention of intelligent
people from the other lines of work.
Second, the development of the
lecture bureau in another faction.
Agencies various towns and cities
and places for the purchase of their
materials. Again, those who attended
this work in England, were students in
America. Finally, the American peo-
ples new work, amusements, more than
intellectual culture.

New Equipment in Library.
Because of the expenditure of 34,
this summer for a new stack to accommodate
14,600 books and new furniture in the law library of
the state university of Iowa, the
library will have the same kind of equipment as that possessed by
the congressional library at Washington and
the New York public library, two
of the most well equipped in the
country. The new equipment is
due to arrive in December.
The books have been cut off
rights and steel shelves and are made
by the foremost manufacturer of the
country. The furniture ordered will be
the same high class. The present
equipment of the library has been
many years of service and in new
sunlight and in modern.
The work of the library is going
smoother and the demand
for books on a par with that of
past years.
