The COUNCIL OF THE PUBLIC
The chairman of the council of principals, presented by the T. M. C. A. management, has come a long way to beautify the town of Iowa City and the music lovers among the residents to a better taste in musical entertainments.

Although the council this year has been carried at a loss, the management has not become discouraged but has planned for a similar course next year. They are doing this in the hopes that better support will be given to them when they know the character of the course.
