PRESSES NEVER STOP; ANNUAL OUT NEXT WEEK

LARGEST HAWKESY EVZ NOT OFF PROMISED

Leather Copics Stamped with Gold-Artistic Frames Please Management.

With two press prosing day and night, there is no reason to consider Sunday, for the next week will be rapidly moving full form in the rooms of the Press Club in evening entertainment, and we do not to have. The book will be ready for distribution early next week, as has been promised by the pressman. The printing is using every endeavor to have the printing done as soon as possible. In order that the book may be allowed to remain in the press a few days after binding. This is something which usually is delayed in the case of college books, and results slow in the poor quality of the binding. This year there will be a very large number of changes after this line is taken from the press, and the problem of how to keep the book together will be a much longer worry than those who published it.

The proof-readers have almost finished their trial, only a few care being left for them to go over. The care used by the Impson expert of the Western Republic has been a source of the ordinary materials of the printing arm of the staff In many cases.

Manager C. H. Owen is making daily trips to Cedar Rapids in the interest of the book, and is keeping a watchful eye on the progress of the affairs there.

The Hawkesy for the handing of the society will be held tomorrow night. This part of the work is almost completed, and the finished leather outfit will be sent in Cedar Rapids some time this week. The colored covers for the hands of the various departments will be finished promptly, and other material used in the binding of the book will be completed. As originally planned, this work will be

It makes a sale green that the Hawkesy will have as far up as the credit limit to fill them on their own account. The line-up will be brought out to the community, and will be a notable feature of the play, unless the play will be written for the Badger state fair, and will be a worthy apparel of the three. The author's distinction in this picture must be considered in the selection of the best play and work on the first week's play.

New Clock in the Low Library.

THE JOURNALIST AND STUMP SPEAKER

When Dean W. G. Wilson, in a re cent lecture, said, "I would rather treat the doctrines of this republic in a newspaper reading public than to a stamp speaker hearing public," he not only paid a fitting tribute to the achievements of the modern daily but he someway raised the changed at titude of the average citizen toward the newspaper. From the time of the three hour stump speech to that of the modern daily delivered between breakfast has been hardly more than a generation. In fact the shortening of the stump speech by the newspaper has accomplished the supplanting of the stump speaker by the journalist, and we feel sure that present tendencies will warrant the conclusion that, through his rule as political educator, he will yet bring about the proper rank among the professions of men.

Registrar and Landor, Des Moines, Iow.: The orchestra under the baton of Enni Oberhotrer was the greatest musical treat that has been given to this city. Mr. Oberhotrer is a genius as a conductor. His personality pervades the entire orchestra and the strings and woodwinds move in sympathetic response to his baton. The Osmin Box, Omaha, Neb.: The Minneapolis Symphony Orchestra, Enni Oberhotrer conductor, again won its way in the hearts of Omaha people. From the "Carmen," of Bizet, through that wonderful symphony Polka of the great Technkovich, to the Respighi Hungarian No. 2 in C, last night there was nothing but true luxury. This orchestra and its inspired conductor deserve the applause which ever represented their wonderful accompaniments. For once in symphony orchestras are more or less indifferent to this all-important phase of the work, and this orchestra做到了…
