Drake or similar institutions on the schedule. Furthermore, the Iowa Outdoor Club has greatly increased the all-round honors. No matter how good a man may be, if he plays on a team which the critics, never sees, he has no chance of gaining much fame. All in all, Keill's has done much for athletics at Iowa, where he came here.

A FEW REAL FACTS
AS TO ST. PATRICK

SAINT WAS REALLY NOT AN ENGINEER
Neither, says the Investigator, was
He a Native Irishman, but
An Adopted One
Who was St. Patrick? Putting
aside all speculations of irremovability, who was the
man in honor of whom the Irishwoman has set aside the
17th day of March as St. Patrick’s Day? He was an architect—everybody knows that, no matter
how many fairy tales they may have
enlarged to the contrary. He lived
at a time when the only engineers
were Roman; and even they were
not known by any rank name.

Then, who was St. Patrick? At
his baptismal vows, he was one
of the great teachers of
Christianity, and he was one of the first to introduce
Ireland. Almost single
ly, St. Patrick
was a Missionary
and spent some time preparing him
for the work under the direc-
tion of St. Columba.
When fully prepared for his mis-
sion, St. Patrick departed for
Ireland.

WHERE KPSTICK, we are speaking of his
saintliness as it is understood and he was esteemed
by a large majority of the people.

We Expect to Derive a Two-fold Benefit of this Sale
