TWO HUNDRED GIRLS TO PRESENT WV SPRING MEETS

In Washington, D.C. on Saturday, April 21.

Browning Female Athletes Getting Into a True Fall Season Event

Plans are rapidly being perfected for the girl's gymnastic demonstration which will be given on Thursday, May 4, at 1:00 p.m., in the university auditorium. This demonstration which is given by the department of physical training for women is designed to display the ability of the classes in the work required of the girls and the objective classes. About two hundred girls will appear in this demonstration and all phases of the physical training except the corrective will be shown.

The program as planned will be as follows:

1. German gymnastics.
2. Old World dance.
3. Folk dances; (a) American

Country Dance; (b) Pop Glee Club.
4. Wade drill.
5. Rhythm; (a) The Massengar.
   (b) The Colf-faire Scholastica.
7. Heavy apparatus.
8. Rhythm; (a) The Fort Kla.
9. Polish dances; (a) Norwegian
   Mountain Dance; (b) Swedish-Miss.
   Quadrella; (b) Danish Dance Squad.
10. Indoor fieldball.

There are many interesting things that might be said about the event of this program. An opportunity will be given for observing the difference between the German and Scandinavian systems of gymnastics. The German is generally taught with music, the Scandinavian without; and there are many different methods in the methods. The Zouave drill, in which the appendices gives a beautiful view in a French drill, being originally used in training the Zouave recruits of the French army; as would be naturally supposed, this will be marked by a military precision and obedience of time and promise to be an interesting feature. If the girl's gymnastics are in the present good standard of work, the full dance will be mastery of the gymnastics. They are danced, of course, full of fun and highly enjoyed by the girls. The drill work, while the given by the freshmen is a German drill, pretty, graceful and sure to please. The rhythmic dance is intended as a feature for the various apparatus; in "The Masqueraders," small brass bands will keep the appendices grating "who's who and why." The apparatus work has never been shown in its demonstrative hereafter. Naturally, the larger the number of men in ability but the class will give an as able demonstration of

The third and largest spring musical festival of the State University of Iowa and Iowa City is to be held on May 15 and 16. Plans are rapidly being brought to completion by Prof. Charles R. Walker, the manager of the festival, and it is expected to satisfy all previous expectations. The placing were placed on sale today, and will be obtained from Professor Walker or members of the Choral society and other organizations. One marked innovation is the program this year will be that all the concerts and exercises are to be held in the University auditorium.

The first concert will be held on Tuesday evening, April 30, and will consist of vocal numbers from a soprano select, a basso, and a contralto select. The soprano, Madame Sylvy Bumac-MacLurendy, is today recognized as an exceedingly clever dancer and singer, and will appear in a singing and dancing role, Mr. MacLurendy has won fame as the author of many songs, which during the past five years have reached an enormous sale. Many of these songs were written especially for Madame MacLurendy, and there is a peculiar charm in hearing them interpreted by the composer and the voice for which they were intended.

The second number on the program is "The Einheit" by Max Ratz, a man of great originality, and will be produced by himself an available place among the able besses of the United States. He is said to have a voice of exceptionally rich, admirable quality, and of great power and wide range. His success with the leading choral societies of the country have been notable.

The Boccella Trio, the final number, is composed of M. Jeanes, Mr. B. Bracken, violin, and Carl Brooker, viola cellists. All these musicians are famous players. NewLoudes has been connected with the faculty of the school of music of the University of Iowa for several years, and is now director of music school in Chicago. Mr. Bracken studied in Berlin, also, and is one of the greatest players in the United States. He is also a great orchestra player.

Marcel MacLurendy in Sopranos is produced in "The Reconquest," "Our Continental." "Eliza".

On Wednesday afternoon, the Music Department will hold their annual credit party. The musicians will meet in the Music room at 4:30, and will be made of the promotion. All the faculty and members of the class are invited to attend.
Every morning except Saturday and Sunday, the student pages of the Tribune, an organ of the student body of the University of Iowa, come to you in this issue. As a student, you will find it a source of news and information about the university and its activities.

New Merchandising Policy

We wish to announce the inauguration of a new merchandising policy for this store which is of great importance to the people of Iowa City and vicinity, and which we trust will be of mutual benefit.

There are several reasons for this new policy.

1. To improve the selection and quality of goods available to our customers.

2. To provide competitive prices that are fair and reasonable.

3. To enhance customer satisfaction and loyalty.

4. To foster a positive shopping experience.

We believe that this new policy will benefit both our customers and ourselves. We look forward to a prosperous future together.

Here are the reasons:

We want you to come in and see what we have that is new and fresh from the New York market.

We want you to get acquainted with each and every department of this store.

We want to keep the stock moving so that we will have new goods all the time.

We want to stimulate our cash sales.

The new policy starts this week, Wednesday, and we will have a sale on suits. Next week it will probably be shirts and hats, etc.

deal: the best clothes for the best money.

A REVERS ECAM

It is with pleasure and pride that we announce to the faculty and students alike that the University of Iowa has received the highest approval of its students in the history of the school year. Since the inception of the faculty-student organization three years ago the administration of this school has been efficient and honest.

The students have brought to the front rank in the realm of scholarship and influence as a group they will be evident long after we have gone to other fields of work.

But the success has not been con-
ARTIST CHARLES A. CURNIN TURN TO CHICAGO

But One More Installation of Upkiss Cylinders Being Placed in Bird Hall Yet Remains

With the return of Artist Charles A. Curnin, of the Field Columbian Museum of Chicago, to the home, the second installment of the Larnac painting now being installed in the west end of Bird Hall is completed. For three or four weeks by Curnin has been in Iowa City working on the landscape circling the prodigious systematics which the department of geology is now constructing. The first installment of the marine work was early begun in the fall, Larnac having finished some time prior to the holiday recess. His work at that time was forced to cease owing to the necessity of arranging other details in the great work. Later by, he returned, and devoted the major portion of the time to painting on the canvas part of the thousands of birds that will grace it. The work is sufficiently difficult, bespoken as it does a fine appreciation of perspective aside from a fact-devised-into-life type.

The work promises to be greater than even at first anticipated. All of the details are being worked out with surprising rapidity and it is thought that the original plan that not more than one-half that time will be required. When the work is finally completed the department will make an exhaustive report to the government, which has been kindly instrumental in making possible this project, both as to the exhibit which has been erected and as to the explorations the expedition while on the Round.

NOTE: MUSICALS

IN SPRING FESTIVAL (Continued from Page 1)

The second symphony orchestra will give a grand concert under the leadership of Conductor East Obersteiner. With the orchestra will be a quartet of soloists, who are already known to Iowa City people: Joseph Schenck, tenor; Lutelle Stewart, soprano; Caroline Wheat, contralto; and Horatio Connell, baritone.

At 8:15 to the evening, the University Choral society, accompanied by the Minneapolis orchestra and solos, will render Mendelssohn's "Rita." Professor Gisler Schenck will direct the chorus of one hundred voices.

Kirkpatrick to Speak

A mid-week meeting of especial interest will be held by the Y. M. C. A. at Clear Hall tonight, when Carl T. Kirkpatrick will be present to deliver the address. Mr. Kirkpatrick graduated from Iowa last June last year, and while here he was one of the most enthusiastic nonsense workers. At present he is in charge of the work of the Y. M. C. A. at Cedar Rapids. "Kirk" is sure to be a good drawing number for the meeting, as few who know him, both as a man and as a quipster, will miss the opportunity to hear him and meet him again. His subject will be, "My College Career If I Had to Do It Over." The meeting will be called at 7:30, on usual, and will close at 9:45.

IOWA NITE SHOWS "STAY IN DAILY PRACTICE GROUND"

Take On Pros For even Game

Following in the heels of the season in St. Paul, Stewart's base-ball team took the prize in an even game yesterday. The battle raged for an indefinite time, being finally called on account of darkness with honors even. It was the first hard workout for this Hawkins made the eastern invasion, and much of the man's activity was directed to teaching "April". Leads the list of playing. Gay play will not be back this spring to fill the place, and Stewart's work at Williams was satisfactory. Bunting, the substitute catcher, started at Chicago, but was yellowed by Carpenter in the second inning. Ecker, the pitching star, tried to fill the bill, but with indifferent success, and Stewart over took. Leads to the breach. The tall boy proved a wonder, digitizing them up on all sides and at all distances. The problem seems solved forever solved if he can keep up the pace he set there, and his work yesterday in the city's department of the city's.

Three years were thought hardly more than sufficient, but now it is believed that not more than one-half that time will be required. When the work is finally completed the department will make an exhaustive report to the government, which has been kindly instrumental in making possible this project, both as to the exhibit which has been erected and as to the explorations the expedition while on the Round.

The perfection to which girls may attain. The Indian club drill, given by the sophomore, is expected to show the great amount of work that has been put upon it. The girls are developing great grace and ability, and promise to give an interesting display. The last feature of the program, the indoor baseball game, will be one of the most exciting things of the evening. The freshmen, favored by their muscled, a huge white Teddy-bear with a green scarf, have been victorious before, but the sophomores have sworn to break the chain and an exciting contest will result.

Admission to this affair is by ticket only. Those tickets can be secured only through Miss Williams, the greayess of the physical training for women.
