SCHOOL TIME IS MADE IN FIRST HOME MEET

SHREDDER OF FRESHMEN IS FIELD CHAMPION

Vastly Won Meet by Close Score

From Yeatlings-Gabalsen Takes Both Duties

By a score of 56 to 19, the vastly triumphed over the freshmen in the annual home meet on Iowa field yesterday. With the exception of the work done by Shredder, the freshman team, in its showing, the showing made by the men was almost uniformly poor, and the records were correspondingly off color. The track meet, however, and of the best of the vasty contenders, including chase and ballard, were not able to put up for the Shredder shrew line was the meet for the freshmens. Taking first, in both jumps and the pole vault, and second in the last two events, Shredder was entered in the pole vault, and probably he won the home meet by the narrowest margin of a surprise, winning by a slight margin in each, carrying a good race in the name. It was not in Shredder to run the high hurdles, and Kort, the other vasty event, fell, leaving Taylor without a chance to win the event in slow time. Captains Ians ran but one race, the half-mile, which he won with Galnera a good second. The summary:

160-yard dash—Gabalsen, Jans, Field, Ians, 10.9-5.
120-yard run—Bruner, Mather, Galnera, 10.1-0.
Pole vault—Shrader, Prince, Klemmer, 8 feet.

Male vault-Shrader, Bailey, Mather, 7 feet.

Mile relay—Bruder, Bruner, Mather, 5:32.6.

For the first time in the history of the university, the easy class was asked to publish an album containing an individual picture of each member of the class, the design is of a small bound book in cloth and nearly arranged, and no matted in the pages of a shaded in to be included, it being believed by the committee in charge that the ad-

nominal announcement will be improved by no matter other than the pictures.

The book is to be produced at a considerable expense but will be given to every member of the class with no charge whatever. This scheme was made feasible by an arrangement with a photographer who has charge where those who have pictures taken will have theirs included without expense to those who select to have the book. All others will be charged a minimum at seven cents each, this covering the cost of the work. Mr. Nieske has the matter in charge for the class. From the present outlook the class will be able to raise the amount in such a way that increases its success. It is the first thing of its kind ever attempted, and if well planned, quite successfully, it will be perpetuated by future senior rooms.

The New Wool

-And The Old

A Quality Point Worth Consideration

New Wool means last season’s shearing – Old wool has been stored in bundles for two, three and sometimes four years. When made up it will not give the service or have the luster and life that the new wool has.

Our yearly experience is buying by us to buy such wool and to fit perfectly. They are fine suits, were made to sell at Iowa.

An $18 Value When you slip into one of these dressy suits you will think it’s a twenty dollar garment. These are finery tailored and will fit perfectly. They are fine suits, were made to sell for more, and are big values at these prices.

The White Slaves of America

A startling and sensational exposure of the world’s greatest crime—the organized traffic in women. The secrets of the Underworld revealed. The lure of the city explained. Why girls go wrong. How the ranks of the army of shame are recruited from the homes of the innocent and pure. A series of pictures of vital importance to everyone. No mother or father, boy or girl, should miss this lecture and pictures.

A sensational subject, handled so delicately as to offer no offense to even the most prudish. Strictly moral. Deeply interesting.

Furnishing much needed instruction. Views from life in the vice districts of 20 different cities. A revelation; a condition exposed that you never dreamed could exist. Exhibited in connection with regular program.

Admission 10 cents.
