SHOW BETTER IN FIELD EVENTS than HAWKEYES

In Agins' Showing Against Nebraska, Iowa has a Lead on Even Chance on Track

A comparison of the records made in the Iowa boat meet with the marks made in the Anser-Nebraska dual at Lincoln on Saturday gives the followers of the Hawkeyes more hope for the future than seemed possible when the marks made here were first turned in. As the Nebraska team was most of the first in the track events, it is difficult to tell just what the Agins may be in the speed line; but of course they may be something of what the records made by the Nebraska men are.

Racy of Nebraska won the hundred in 10.7-5, but second faster than the Iowa boy went west have the best known of Ames. Anderson of Nebraska set a terrific pace in the mile event with a time of 4:28 4-5, with Farquhar second; and from the Iowa; secretary, R. F. Hurd with a time of 2:27 2-5, Gymnasium Director to do better Packard of the faculty.

In the followers of the Hawkeyes more in Virginia being the only university not Hawkeyes an unqualified title to the regional indoor gallery short with score of 3,294. The bulletin issued by the war department at Washington shows the Hawkeyes in the lead with but one exception. There is not that glaring lack of talent found in many clubs; one part of this point the record of the cost and no part is wiser than the others so that it cannot be heard. The harmony of some teams and the vagaries and concerts daily while on tour have brought the voices to their perfect performance.

The special marked at the and of the Iowa Male Quartet, a double quartet, two dust bands and two unison. The variety is second, and popular music and plenty of humor is interpreted with the people of the program. A special applied to all arrangements. Des Moines was cheered to third place in the indoor contest one year ago by the R. F. The New Wool

As and The Old
A Quality Point Worth Consideration
New Wool means last season's shearing -- Old wool has been stored in bundles for two, three and sometimes four years. When made up it will not give the service or have the laster and life that the new wool has.

Our years of experience in buying has taught us to take only garments from the New Wool. For they have the life laster and distinctiveness that men want.

An $18 Value
When you slip into one of these dressy suits you will think it's a twenty-five dollar garment. These are finely tailored and will fit perfectly. They are fine suits, were made to sell for more, and are big values at these prices.

For A Degree:
Place Your Rental Order NOW
For The Coming June Exercises

We have secured the Exclusive Agency of the E. R. MOODY Cap and Gown makers of Chicago, who guaranteed the leading Cap and Gown makers in the West, and we suggest that you place your order on file as early as possible. Herefore, graduates are compelled to use the selected, tattered gowns, thready with age, because the local market afforded none better, but we have entirely changed that condition. Instead of the cheap-o-cotton gowns, used and green with age, we supply the best tailored all wool serge, clean, pressed and in high class condition and will fit in length and chest measure. No advance payment is asked for, as the rental will be collected in June when the garments are delivered to you. For the ladies we have a set of marked cap frames that will best suit to fit each one’s way of “hanging up” her hair. Each garment delivered in separate box, marked for each student individually. Colored tassels, if necessary, will be placed on caps to indicate the day from which the candidate is receiving his degree. Your order placed at Willner’s will now have careful and prompt attention.
