Committee Announces Plans for and Electroliers on Each Side of Central Walk

At a recent meeting of the senior class, Chairman John T. Hanna, the memorial committee, announced what he believes to be unique plans for the class memorial. If the ideas of the committee are carried out the class of 1912 will erect on each side of the Central Walk an electrolier which they believe will be of value to students.

One of the most interesting features of the program will be the senior ficus, which will occur Tuesday afternoon at the city park. Some of the alumnus classmates will also take part in this. Some new and original plants are said to be in order, and the affair itself is planned differently than it has been formerly. The뇯nneer is to be on the side hill where the spectacles will be in the shade, while the "stare" upon which the selection will take place, is to be surrounded by a rope, so that the crowd cannot interfere with the performance.

During the morning Tuesday, the alumnus classmates will take plant, and indications now are that the class's contributions will be the best. Plans for the different functions are coming together, better than was expected, and it is reported that the class is of Iowa will be created with about two thousand members, of whom six hundred are expected to be Iowa alumni.
