GET IN NEWSPAPER WORK

The staff of the Daily Iowan is, as yet, incomplete. There are several positions open for men who wish to get into the journalistic work. This year we are inaugurating new policies and running our paper on a basis which will give the students what they want and the experience which they want. No matter what line of work is taken up that line of work will be given adequate representation. The beginning in newspaper work is slow and tedious, especially so on a metropolitan daily. It has occasional moments of production, and Iowa has been getting the most out served. FOR

it is certainly not the fault of the requirements for membership

American History Attractive

An interesting feature is the number of school days saved in the city. This adds up to 21,921, enough school days to allow one scholar to attend regularly for 145 years.

ANNUAL PUSKBALL CONTEST
TO BE PULLED OFF SAT.

May Have Some Trouble in Getting
Froshmen and Sophs Organized—Time Is 2:30

If the athletic authorities can get
the froshmen and sophomores organized in time, the annual pullball contest will be staged as per announce-
ment, on Iowa field, next Saturday.

Just now Manager Kellogg is finding some difficulty in getting the two classes in proper fighting trim, no organization existing in the froshman
class and the sophomores having been given to announce themselves thus far.

The big pullball has been under-
ing repairs this summer, somebody
having pulled the tube off the blad-
er during last season's hostilities.

This made it necessary to send to
Philadelphia for another, and the re-
pairs have just arrived. Ames au-
thorities wanted the big ball last
week, but the non-arrival of the blad-
er made it impossible to furnish it.

If all goes well, the fray will be
started on Iowa field Saturday about
two o'clock. An army of police
from other colleges will be on
hand to keep the contestants in or-
der.
