Kemp is Doing Better Work than ever is the old men are all saying. This work this year is to be offered at better rates. Kemp is ready to join the Club To-Morrow...
Exact text is not possible to transcribe due to the quality of the image. However, the text appears to be a mixture of advertisements, announcements, and various other content typical of a university publication. It includes sections on football results, a call to register for courses, an advertisement for a bakery, and other miscellaneous notices. The content seems dated, typical of mid-20th century student publications, and includes a variety of typographical errors and historical references.
All New Students Invited

On account of the registration list being incomplete, it was impos-
sible to send out invitations to all the new students to the Philo-
Oceania reception. However, a cordial invitation is extended to all fresh-
men men and women at the univer-
sity and new students however clas-
sified, whether they received a per-
sonal invitation or not. The recep-
tion will be held Saturday evening
at eight o'clock in the Philo-Oceana
society room at Chase hall. Enten-
ners are beina made for an entertain-
ing program and a good time in general.

BIG ADDITION OF FOSSIL INSECTS

Prof. Wickham Does Great Work for
Iowa Museum—New One of
Largest in World

With an addition of 1,200 fossil
insects and about 500 fossil leaves
and fruits of the tertiary period of
the state university through the ef-
forts of Prof. H. P. Wickham Iowa's
museum of fossil insects is now the
third largest in the country.

Professor Wickham spent a part
of the past summer in Colorado near
Fremont searching the shale and
rocks for remains of animal life
which thrived perhaps a million
years ago. The fossils are preserv-
ed in a volcanic shield formed by dust
showers from the old crater now
by. Many of the fossils are so per-
fect as to show even microscopic
features.

The trip was undertaken as a part
of an investigation which has extend-
exed over a number of years. Reports
have been published by Professor
Wickham upon the collection by the
American museum of Natural his-
tory at New York and upon those
of the University of Colorado. He re-
cently finished the manuscript for
the National museum collection.

Good taste doesn't necessarily make clothes COST more, but it makes them WORTH more.

You'd call those impressive clothes as luxuries, if they weren't sold at the price of necessity; you'll find them the sort of clothes you'll like to wear, and the sort of clothes you ought to wear, at the price you can afford to pay.

Hirsh-Wickwire and Kuppenheimer

CLOTHES

judged from any standpoint offer remarkable values for the money. In style they have set a top-notch standard; in tailoring they show the staunch workmanship that means shape-permanency; in wear they give the service you naturally expect from the pure-wool fabrics they're made of.

We'll let the clothes do the talking when you see them—You won't be pressed to select and those that are.

FOOTBALL PRACTICE IS IN FULL SWING

Iowa Starts Big Nine Season With Bright Prospects

COACH HAWLEY IS SATISFIED

Captain Hanson Ill With Cold—Many Veterans Are Out—1911 Squad Fills Up Holes

Yesterday marked the real opening of football practice for Coach Hawley, but in many cases the actual practice was quite limited. Those who were present, however, were given a good view of the players and the way they were working. In his opening remarks, Coach Hawley said that he was pleased with the progress that had been made in the early stages of practice, but that more work would be required before the team was in shape for the opening game.

High-school stars in vast numbers are flocking to the university now—a-days, and local athletic authorities are making the prediction that within a few years the big teams outside the state will have to look elsewhere than in Iowa for their material. In the past it has been customary for the football managers to seek foreign talent, but now they are finding that the best local talent is good enough for the big-time competition.

The result has been that, annually, enough mighty Iowaans to win any number of national championships might be found on the big-time teams. Even now, say those who know, the tide is changing. State pride coupled with the gradually dispelling of the belief that the Big Ten is the only place to be found in the land is bringing a much needed stimulus to the Iowa football situation.

A proof of this to be found in the list of men who played in the deciding game for the state football championship last year, which defeated Iowa City 5 to 0.

The Iowa State team is composed of one of the best high-school teams ever assembled in the state, and in almost every case the team is composed of men who have played football for at least two years. The Iowa State team is expected to be the strongest in the state, and it is believed that the team will be able to hold its own against any other team in the country.

Call Out for Cross Country

Manager Kellogg Expecting a Large Squad—Several Old Men Will Be Out This Year

Manager A. N. Kellogg has issued a call for cross-country runners to report to his office in the athletic building at 4:30 p.m., Sept. 23, at which time the cross-country teams will be selected. The cross-country teams will be selected on the basis of their ability to run a mile in less than five minutes.

The team will consist of the best runners in the state, and the manager expects to have a team that will be able to compete with the best teams in the country. The manager is also expecting several old men to come out and try to run the mile in less than five minutes.

MOTHER INTEREST SHOWN  
IN CHEMISTRY DEPARTMENT

Two Fine Positions for Graduates  
in Chemistry—Good Prospects  
This Year's Work

In Backwood, of the department of chemistry, reports a healthy growth in the department this year. In most classes are as large this year as that last year, while increased registration in the professional classes has vastly augmented the number.

Mrs. Flay Graham Smith  
Teacher of English  
Park of Heims, Chicago;  
Member:  
Chicago and Lehautzick, Vienna.

Meeting registration in the professional college this year than last year, while increased growth in the department this year. Women in the regular class in inorganic chemistry. This is due to the fact that students in this class may enter the domestic science instructional and laboratory courses later if they desire. This course is introductory to the domestic science courses. This work in domestic science has been popular each year, not only with the women, but also among the men; but with the offer of advanced work interest has immensely increased.

Class Call Was False Alarm  
A false alarm call, issued by the superintendent for a meeting to be held in the library hall Thursday afternoon caused some confusion, when the meeting had been postponed till a later date. The authorities of the college evidently forgot or neglected to remove the first announcement before posting a notice of the postponement. Consequently, the immature students rushed out and were disappointed in the failure to organize their forces there. The meeting was held Saturday at 1:30 o'clock and the basketball contest between the freshmen and sophomores was called at 2:30 o'clock.

Prof. M. W. Woodworth, Pres.  
Seeing at 7 p.m. in Gilbert Room  

An Invitation

To all our young friends.

The Iowa City community is to be the scene of an all-day meeting of our young people, beginning at 10:30 a.m., Saturday, Feb. 11th. The opening service will be at 10:30 o'clock in the Unitarian Church. A special feature of the afternoon will be theafs of music, with special arrangements for the young people. The program will be announced later. We ask all young people to come and help make this a success. It is to be held at the Unitarian Church, Iowa City, Iowa.

F. M. Fox, Presbyterian student pastor for the University of Iowa, has returned with his wife from a summer tour of Europe. Dr. and Mrs. Fox brought with them a charming seven-year-old girl, Margaret Joan McPherson of Glasgow, Scotland, whom they have adopted. The little girl accompanied them from good Scotch accent, that her name is Margaret Joan McPherson Fox. The adoption was made on shipboard. The widow of a prominent industrial secretary in Glasgow, left souvenirs for her husband's name. The voyage was made on board the C. A. W. A. (C. A. W. A. is the name of the ship). The adoption was completed as soon as the ship ar-
Here's your ticket and platform
CANDIDATE FOR ALL GOOD CLOTHES WEARERS

PEOPLE'S PARTY

The home of Hart Schaffner & Marx Clothes

PLATFORM

W E, the men of Iowa City who believe in dressing well, hereby declare our belief in the underlying principal that all men ought to be particular about what they get for their clothes-money.

We point with pride to the Hart Schaffner & Marx clothes that can be bought of Coast & Sons, the best clothes made.

We declare our unalterable conviction that Coasts are selling the smartest lot of suits and overcoats ever brought to this town; and we call upon young men, especially those who are to cast their first clothes vote this fall, to support our candidate, thereby saving themselves from dissatisfaction and unnecessary expense.

We view with alarm the increasing cost of living; and we pledge to the public that, so far as good clothes are concerned, our candidate will quote prices that are low enough, and qualities that are high enough, to make for real economy.

We denounce the cotton-mixed fabrics that are common in clothes, and declare ourselves unalterably for a single-standard—all wool fabrics.

We pledge our candidate to furnish you the best clothes you ever wore.

Hart Schaffner & Marx clothes at $20.00 to $30.00.
