PROSPERITY IN AIR: ALL OVER THE CAMPUS

Summer Work Brings: Large Results In Every Department of The State University of Iowa

"One of the finest prospects for many years" is the way some of the university officials characterize the opening of the year of 1915-16. Advance registrations have been pouring in all summer and long before the general registration opened the score was way in advance of last year. Almost before summer school had closed the men who remained here to keep the wheels rolling during the summer began to prepare for Big Things. Thousands of letters were sent out over Iowa and all over the middle west to prospective students. There are many new things this year to draw students. The domestic science course has brought many girls to Iowa who would have doubted going elsewhere, other things being equal. Currier hall and also has had its effect on the registration. It is an undisputed fact that the university does more than any other institution in the state to take care of its students. The board of education has supplied a dean of men to look after the interests of the men in school and he has been in all high school experimenters and principals telling them of the advance. There is no doubt but that this will have its effect upon high schools in encouraging their students to finish their education here.

The efforts of the alumni have been active in bringing students to the university. Many letters were received during the summer by the alumni bureau asking that an effort be made to bring certain students to the university. Just as school closed a card was sent to every alumnus in the state and a letter asking him to send on the card the names of prospective students from his vicinity was begun. The response was large. The organization of the Iowa alumni association has been organized and a big boost for athletics is coming from them. Every effort will be made to make Iowa turn out winning teams. The association is incorporated and its permanency is assured. The purpose of the organization is to make Iowa's athletes advertise her all over the middle west. All the changes are looking to a greater university in Iowa. In no department has there been a fall back during the summer. Thus the university officials who said that Iowa's most prosperous year was before her has the facts to back up his statement.

TO FOOTBALL MEN

All men who wish to get out for football should report at the armory today and tomorrow.

DR. M'CLERNON NEW HEAD OF DEPARTMENT

SUCCEEDS DR. W. S. HOSFORD AS DEAN OF COLLEGE OF DENTISTRY.

Change Made with Cooperation of Dr. Hosford—Dissociation of College of Dentistry at Drake University Necessary Strength Now

Dr. Thomas J. McLehrnon, a dentist prominent both in eastern and western circles, has been appointed dean of the college of dentistry at a meeting here of the faculty ladies of the State Board of Education. Dr. McLehrnon succeeds Dr. W. S. Hosford, who for 20 years has been dean. The change is made with the cooperation and good will of Dr. Hosford. He will remain in the college as a teacher and devote a large part of his time to private practice. Two additional demonstrators are also added to the staff.

From time to time during the last two years members of the Iowa State Board of Education have been looking into the condition of the college of dentistry. The responsibility which the board has assumed in this matter was emphasized last spring by the dissociation of the dental school at Drake University. The first step taken to this end was the appointment of Dr. McLehrnon, who will give all of his time to the administration of the college.

Dr. McLehrnon comes to Iowa from Philadelphia. For eleven years he was in charge of the dental college of Western Reserve University at Cleveland. While here he became associated with western dentists and western dentistry.

Dear Students:

Dr. McLehrnon was born in northern Ireland in 1873 and was educated there. As a young man he came to Philadelphia where he obtained both a medical and a dental education. He comes now to Iowa with exceedingly high recommendations.

Dr. Hosford, who retired from the presidency, said: "No man is more happy than I am to see the college go forward. I shall be loyal to the staff. For some time I have been feeling that it is time for me to devote more time to practice and to scientific work and to turn over the details of administration to the new man."

TO FOOTBALL MEN

All men who wish to get out for football should report at the armory today and tomorrow.

AFTEPNOON TEAS FOR NEW GIRLS

Innovation at Close Hall Proves Great Success in Helping Greene Get Acquainted.

Many new girls attended the first afternoon tea given by the Young Women's Christian Association at Close Hall yesterday afternoon. The girls plan to entertain for the new girls again this afternoon and also Saturday afternoon.

This year the young women have perfected many new plans for helping freshmen girls get through their first week of school. Cohort members all have rooms and all interroom cars, Here the new women are taken in charge and helped to get their hangups out of the way. Girls are also helped with their registration and if they have not yet, found a resting place the association members are at their disposal.

After everything has been satisfactorily arranged the new girls are invited to take tea at the association rooms at Close Hall.

Yesterday afternoon Mrs. Freydor and Mrs. Howard of the advisory board of the association met to serve tea. Other members will be close hall today and tomorrow to help the girls get acquainted. The teas are given from 5:30 to 6:00 in the afternoon. In this way they make the acquaintance of many girls who already know the ways of the situation. The invitation of all first year girls has been extended.

Tuesday evening the association will hold its annual freshman frolic for the Woman's gymnastics. The regular weekly meetings will be held Wednesday as usual beginning the twenty-fourth.

DEBATES ARE PRINTED

During the summer the Forensic League had printed the Debates between Iowa and the Universities of Wisconsin and Minnesota. It is the plan of the League to sell these at 15c per copy and thus raise funds for the work in Debate and Oratory at the University of Iowa. The debates are in charge of George Glitch, the secretary of the league.

CROSS COUNTRY MEN

There will be a meeting of the Cross Country candidates, including the freshmen, Wednesday night, Sept. 24 at 7:30 P.M. at the Armory.

All men interested in this event are requested to make an effort to be here and bring other men with them. Plans for the work this fall will be made at this meeting and the present situation will be thoroughly discussed.

"Jack" Watson.
CITIES RECNOIGIZING DEMANDS UPON THE UNIVERSITY AMONG ENGINEERS

Sweden has chosen the University of Iowa as one of the six institutions in the United States where representatives of that country will study this year.

Mr. Per stenhof, of Stockholm, Sweden, has selected the University of Iowa, after careful investigation, as the leading center in the United States for the study of experimental psychology. The secretary of the American-Swedish Foundation, headquarters of which are in New York City, wrote President J. B. Buynars that Mr. Corrin will come to the State University.

Under this Foundation, six fellows are appointed by the King of Sweden to study in the United States. These fellows are eminent scholars in Sweden, and the expense of their period of study in this country will be paid by the Foundation.

Mr. Corrin has distinguished himself for study in the Universities of Uppsala, Stockholm, and Lund. He is heartily recommended in Sweden for his work in psychology. He was born in Jodhpur in 1889.

SUCCESSFUL SUMMER AT MICHIGAN LABORATORY

Six Iowa College Residents, University Representatives at Michigan Laboratory.

Six Iowa college residents beside the state university recently represented Iowa in the enrollment at the Michigan Laboratory last summer. This institution is sustained by the alumni of the University of Michigan and is located near the shores of Lake Okoboji.

A scholarship is awarded annually by the state university to a representative from each of the other Iowa colleges of recognized rank. The following institutions accepted this year: Mechanicsville Laboratory, Lakeside College, the State Teachers' college, the Iowa State College of Agriculture and Mechanic Arts, Grinnell college, and Drake University. The representatives of Parsons college and Coe college were appointed but they were not able to take advantage of the laboratory study this summer.

CITIES RECOGNIZING THE IOWA ENGINEERS

Cities in Iowa are increasing their demands upon the University for the experimental testing laboratories where brick, paving, and asphalt, and other building materials are examined by the engineering faculty members.

Samples of paving brick were submitted during the summer to the university engineering authorities from Council Bluffs, Ottumwa, and Cedar Rapids. Citizen sent specimens of asphalt for tests here, and a Sioux City engineer wanted his cement examined. Another engineer from Eastport sent cement blocks for examination.

A Mason City company asked that concrete be tested here, and one of the largest, asphalt, paving companies in the state had paving brick here for inspection.

SLAVATA & EPPEL

Iowa City's Live Clothiers

We're Ready To Play The Good Clothes

game with you for Fall and Winter, nineteen hundred thirteen-fourteen, and because the live store believes in doing everything a little better each succeeding season you will find even a bigger, better, brighter variety of good things for men and young men in our new stock, than we have ever offered before.

A careful, conscientious study of the prevailing styles, has convinced us that we make no mistakes in placing our faith to clothes from.

Hirsh-Wickwire & Kuppenheimer

Likewise, a careful inspection on your part, will convince you that here, and here alone, are garments which are both pleasing to the eye and critic-proof from a standpoint of quality and worthy workmanship.

Right now we wish to extend to every man in the University an invitation to make this store his clothing home. We want to meet you and know you personally. We want you to feel free to come here at any time, not simply when you have a definite purchase in mind, but whenever you happen to be in our vicinity.

Our main idea, as good business men, is to sell clothing--we care for friendships and acquaintances too. An ideal combination of both is just exactly what we are looking for.

And because such an announcement as this would be incomplete without telling you what these good things will cost you, here's our complete price range, and from the lowest to the highest, every item in our stock is represented just so many dollars worth of that before mentioned quality.

$17.50, $20, $22.50, $25, $27.50, $30

P. S.—For the man who seeks high quality at even a lower figure we offer a line of exceptional value at the popular price of $15.00. Some even lower and all guaranteed to give a full measure of service.

WEST POINT EXAMINATIONS

Examinations for admission to West Point will be held at the Iowa University on Wednesday, October 11, and Thursday morning, October 12. These examinations will be under the direction of an examining board appointed by Congressmen J. E. Peppet and composed of Dean C. G. Drake, chairman, Assistant Dean of Men, Robert Mason, Dr. W. B. Revan, and County Superintendent of Schools.

Y. M. LAYS PLANS FOR BANNER YEAR

Management has begun its work for the coming year. Large class in the different churches are to play an important part in the studies which will be taken up, and in many of the classes there will be classes for the students of the different classes in the University which will be taught by university professors or men, familiar with university life. The tendency of study seems to be toward religion and every-day life, and the complete course of study in the different churches will best explain themselves, a copy of which may be obtained at the Y. M. C. A. building.

Student Loans and Employment

The 1913 football season opened yesterday, the earliest date permitted by the rules of the National Conference. Two veteran coaches, Haskell and Haywood, opened for the opening practice, according to present indications, while as many novices are starting out this year as in 1912 freshmen, and many new men are on hand to try for positions on the team.

As a result of the arrivals and the fading of old players, the Connecticut team has at least 35 players on the roll, and in about 20 of these are men who are the leaders of the team, while in 10 of them are men who have been retained for a second year. Among these are the only first-string men who just now are worthy of consideration.

Bowen, the end who developed rapidly last year, was the first player to come out, and although he has his work to do in the backfield, he is a try at the quarter back and has played the game for the Crimson. Coach Haughton has decided to make the defensive work of the Cornelian lines this year, and has placed a strong man in the backfield. The former all-American, W. T. Gunderson, who has been admitted to the squad during the last year, is the best substitute tackle of the team, and Houghton centers.

The most promising linemen of them all are Eastman, his mate, Jacobsen, for the end position, and Meloy, a strong player with added experience.

The surplus tackle material will be divided among the two substitutes, and each of these: Wilson, Penningroth, and Dick seem to have the best claim to the two backups. Some of the surplus tackle material will be shifted to the guard position. Conn and Wilcox, the freshman guards of last year, are both very competent at the position, and each of them is capable of filling the other man's place with ease.

THE DAILY IOWAN
Published every morning except Saturday and Monday.
Entered at the Post Office at Iowa City as second class matter.
Office and editorial rooms 23 East Washington, Phone 23.
RALPH G. GRAISFIELD
Editor-in-Chief.
H. E. WEBB
Business Manager.
(Briefly to be announced later)

Friday morning, Sept. 13, 1912.

ANNOUNCEMENT
With this issue of the Daily Iowan we extend a cordial welcome to all the students of the university. This year the paper has for its manager Mr. H. E. Webb of Marion, Iowa. For three years, Mr. Webb was a student in the college of Liberal Arts. He took a prominent place in Athletic and other university activities. The past two years he has been away, but comes back this fall, into his Iowan position, backed by business experience on big daily newspapers, and with a thorough knowledge of the university. He is well equipped to care for his responsible position.

Among the many things which we are planning to do this year, for the paper, the first is to make it truly representative of the great university which it represents. To do this we NEED THE SUPPORT OF THE STUDENT BODY. The paper belongs to the students. It is the servant of the student body which makes the policy of the paper. The Daily Iowan is not a partisan paper. Its purpose is to give to all the news of all the titles, and to editorially champion the rights of the students and faculty, regardless of class or station.

SIGNED:
RALPH G. GRAISFIELD
Editor-in-Chief.

NEW DEAN OF MEN
For several years the university has been without an advisor for its students. In this way the students were not entirely left to their own resources upon entering the university. Last year Professor Forrest C. Ensign was made advisor of all first and second year men and Miss Anna M. Klingenhagen, Dean of Women, was made advisor of all the classes of the first and second year women.

Professor Ensign took up his task with a will and in spite of his duties as registrar, found time to give valuable council to the men of the college of liberal arts. Upon taking up the work he noted the large number of failures among freshmen and sophomores and resolved to stop them. He realized how many times the student failed to realize the claim standing until a failure was returned for him at the end of the term. Of course Professor Ensign succeeded in putting aside the bad ground, university records for the last year demonstrate.

The whole scheme succeeded so well that the state board became interested in the work and during the summer added the title of dean of men to Professor Ensign's former title. Mr. Robert Rowse was appointed as an assistant to Professor Ensign.

Probably there is no man in the university better qualified to do this work than Professor Ensign. Beginning as a teacher, he has the gift of leading young men and young women toward higher education. His experience, before becoming university registrar, as instructor of high schools gave him a broad insight into the life of the university student before he came to Iowa. His work as registrar has shown him where the student most often fails and with this knowledge he begins his work.

The good will of the entire student body goes with Professor Ensign. In whatever he tries to do and there is no doubt of a hearty co-operation on the part of the students in his new work. He has a pleasant personality, is a jolly companion, and understands all a heart big enough to embrace the entire university if necessary.

FRATERNITIES AND SORORITIES
The Daily Iowan suggests that each fraternity and sorority appoint one of its members to report news items to the Daily Iowan. Every effort will be made to see that all items of news value whatever shall be honored. We expect you to cooperate with us. It is the interest of the reporter to gather little items of news and personally from all of the organizations, every day. By this method every organization may be represented as it should be.

FRUITS OF THE CONTEST
Whatever the subject of those who brought about the Iowa State Educational Controversy may have been, it is satisfying to have an attitude favorable or unfavorable to the University. They have succeeded in bringing about the greatest awakening that the greatest honor the University has known within the memory of present students. In all other departments we can see evidences of the new growth and new development. At the beginning of almost every college year, in almost every college paper, can be found the statement, "that the present year promises to be the greatest in the history of the institution," until now such a statement is not given much credence. This year, however, that statement may be made in regard to the University with truth and without a shadow of contradiction. Conclusive evidences of this fact are so abundant that we all know it to be absolutely true.

The football prospects are brighter than ever. The chief reason for this is that the alumni, awakened by last year's controversy, are supporting the University more generously than ever. That marvelous sum of two hundred and forty thousand dollars is the result of that effort. The entire field for the game is the hundred acre wood, and the victorious team will return with the IOWA SPIRIT.

The key to the controversy is the same old "ALL FOR IOWA!" which is the Watchword of every Iowa man and woman toward higher education. His Liberal Arts. He is thoroughly connected with all the colleges and during the summer added the title of dean of men to Professor Ensign's former title. Mr. Robert Rowse was appointed as an assistant to Professor Ensign.

DEBATING TEAMS READY FOR WORK

Lacker, Harris, James, Fairham and Garfield (heraldiste) Men.

The Intercollegiate Debating Teams were chosen last spring and have been working this summer on the question that will be debated in the Central Debating Circuit this winter. The final debate takes place December 11. The League is composed of five state universities, Iowa, Nebraska, Illinois, Minnesota and Wisconsin. The teams of the different universities meet each other every other year. Iowa meets Indiana at Urbana, and Nebraska at Iowa City this year. Iowa's debaters are Leonard Raker, Orville Harris, Clarence Isaac Reed, Leslie Parsham, and Theodore Garfield with George Murray and Holt alternation. The men have not been assigned to teams, yet, by the coach, but the assignment will be made during the next two weeks. Barker and Isaac are the only old men. They were on the team last year that defeated Wisconsin. Wisconsin's question is, "Is the solved, that immigration into the United States should be further restricted by a literacy test." Iowa will have the affirmative on the home floor, and the negative at Urbana.

CLOSE WATCH OF STUDENTS MADE

F. C. Ensign, Dean of Men, and Robert Reimow to Judge Morals and Scholarships.

Scholarship and morals of the young men students in the University of Iowa will be more closely supervised this year than ever before. The State Board of Education at its July meeting provided for a Dean of Men and Forest C. Ensign, the University Registrar, was chosen to fill this position. To assist Professor Ensign in supervision of students Robert Riceau, superintendent of the State School for Feeble-Minded, will be elected by the board.

The University of Iowa has maintained for several years a most efficient advisory system for the undergraduate courses, and because of its success the State Board of Education decided to extend this work.

Professor Ensign, the new Dean of Men, was for nine years a teacher in the public schools. This was followed by eight years' experience as high school principal. That same year he was state inspector of high schools. During the last two years he has been registrar and examiner at the University of Iowa.

Merchant Tailor Clothes Look Better—
They Always Have—They Always Will

That elusive something called STYLE cannot be made in a factory.

Good tailoring—the draping and cutting and modeling of cloth—is an ART, nothing less.

Every good merchant tailor believes this with his soul. I KNOW it from my own years of experience and patience and toil as a craftsman.

I know that merely to FIT is but a small part of a good tailor's art.

The RIGHT sort of clothes—the clothes YOU want—appeal as much through FITNESS as through FIT.

Through an air of distinction and elegance, a good tailor can express the best there is in you. I can make your clothes bespeak CLASS, I can preserve INDIVIDUALITY. I can give PERSONALITY a chance.

You want such clothes and they can be had in only one way. They must be cut and made EXPRESSLY FOR YOU, from faultless fabrics, by that artist of merchants—a merchant tailor.

These are tailoring FACTS. In neglecting them you wrong Opportunity.

PHARMACY FROM IOWA
ARE IN BIG DEMAND

Members of Jane Class Already in Good Positions—Many in Graduate Work.

Graduates of the University of Iowa's colleges of pharmacy are in demand. Ten members of the class had secured good positions before graduation. Practically all of the seniors have almost closed contracts or have made arrangements to become graduate students in pharmacy.

The following are the seniors who have accepted positions: J. W. Aid, Oquawka, Ill.; and G. W. Bailey, Letts, with Henderson Drug Co., Waterloo; T. J. Long, Iowa City, with H. W. Taggart & Co., Waterloo; L. H. Latjens, Hull, with W. A. Coon, Hull; R. A. Miller, Luverne, with the State Hospital for the Insane at Clarinda; C. B. Williams, Richland, with the Soldiers Home Hospital, Marshalltown; W. K. Kollman, Gravel- ville, with H. E. Bowes, Davenport; and C. B. Barnum, Level, with Scholten's Pharmacy, Davenport.

TO DR. AND MRS. OSBORN

Born Wednesday, September 17, 1919, Dr. and Mrs. D. B. Osborne, an eight pound girl. All if these students of the medical college and the many other friends of the couple extend heartiest congratulations.

SAYS INSPECTOR

Cadet Regiment is Given-Praise by Government Inspector Here Last Spring.

Considerable zeal was manifested by the cadet regiment and the general appearance of the regiment was very good according to the report of Inspector Raymond submitted to the university during the summer.

The Inspector went in detail as to the work done at Iowa not only stating that government requirements had been complied with but also that the men were solidly in appearance, well mannered and fond of military life. The report explained the importance that was attached to military work by the faculty and commented on the fact that the officers on duty was usually supported by the faculty.

At present the Inspector believes men who receive military instruction at the university are competent to take a place as lieutenant in a volunteer army. Provided testing facilities can be provided for the spring encampment there is little doubt but what this standard will continue. The report recommends that an officer be continued on detail here.

In inspection and review the uniforms and equipment were reported as being in good condition. The lines were also very good during the marching. The officer thought the regimental parade however to be better than the review. Very few criticisms were made on this last occ-
