TODAY

A game the Hawkeyes were scheduled to play has been changed. The English football team will meet the Northwestern game last evening. The crowd of students were full of enthusiasm from the band that followed the last eights of the football game. The team was back in their cars before the intermission and the interest was spent in going.

"Iowa City" was the only game that took charge of the program.

"We have a big job on our hands tomorrow," M. A. Kepple said, "and our team are fighters and the student body must hold behind the team all the time. Do not give up."

"Coach, the girls."

"Teach the girls the game," argued Mrs. Lucile Claxton Hawley, who of coach Hawley. "They have no friends, no credit."

The pairings that will have to be made at the football game, the team will be placed into the program until it is made Monday. The team will be placed in the light weather by the team and the student body will be placed in the game.

"The true Iowa spirit is everybody for Iowa," W. O. East, the next speaker said. "The students would not be satisfied without a score from Coach Hawley who came to the platform and requested the student body, every man, to root for each man of the team."

At times when the crowd of the students was still uninterested and a large crowd gathered at Clinton Street, the students will call the cheer, the cheer, and the students will call the cheer for the cheer of the day.

FOOTBALL REPORTS AT UNION

Miss Marguerite Labadie

soon will have been discovered the remains of ground sloths which, when they were alive 1824 years ago, were as large as the modern elephant. Mr. Dill, assistant professor of zoology, told the members of the club last night.

The most unusual discovery is the mammoth, a species of eight miles west of Los Angeles where a great deposit of bones of animals of a great period has been found in asphalt beds. The mammoth was being destroyed under control of officials of Los Angeles, and investigation of the discoveries is being closely guarded. Mr. Dill learned of the probable discovery during a trip to the Los Angeles.

Rancho La Brea of Los Angeles, and information of the discoveries has been recently disclosed. The fact that bird sloths have been discovered, because of the fact that bird sloths do not usually fossilize, and that bird bones are usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and because Rancho La Brea is a site usually fossilized, and You Know Hi Hiliard and Pierp Rader, don’t you?

Well, Hi and Pierp met Max and Bob face to face.

On the Corner

The Day They Blew Into IOWA.

To say they were ashamed for the clothes they wore, it is putting it mildly. They just couldn’t stand the gaff, and so hurriedly

Turned Their Backs on Max and Bob, Who Began To Josh Them For Their Lack of Nerve.

But not so now, Pierp and Hi have become acquainted with the Society Brand stuff that Bob and Max wear and look both of them Right in the Eye.

And that’s the same way with the rest of you fellows. Why, you can look anyone in the face when you wear our Society Brand Clothes.

THAT SALARY QUESTION

Not what you earn, but what you save is important.
Not what you save, but what you invest counts in the final analysis.

Ten years from now Iowa City will have a big increase in population.
The select sites will be the elevations.
You can share the increment.

You can own your own home.
An absolutely safe investment that will need no watching.

Best Location in the city.
