AMAZEMENT GREETS AMES PROPOSALS TO BECOME UNIVERSITY

SOUTH SYMPHONY FOR IOWA

CHANGE OF "IAW STATE" TO "IOWA"

All Rights—But "College" to "University"

SOUTH WILLIE While Willie the Hawk- eye can Fight for Constitutional Rights.

Iowa students have read with an-

amazement and the majority of the stu-
dents are willing to have their re-

sponses considered; but it is not likely to remain—indeed, they are

likely to be a matter for the next Uni-

versity Session. Thus the question of

being a university is one on which the student body is likely to have

an opinion. The Iowa students have read the following, and are

likely to continue to read it, as it is the

only government that the public has.

Dr. Harvey White, Famous Food Exp-

ert, Who will appear in Lecture at National Science Auditorium

Wednesday Night.

CHARLOTTE LUND WILL SING HERE TUESDAY EVENING

NOTED NORWEGIAN SOPRANO IN MAKING FIRST WESTERN TOUR

Appears in Iowa City as the First

Number of the Advisory Board Mus-

ic Series in K. S. Auditorium.

Charlotte Lund, who operates the Advisory Board Music Course on

Wednesday, is now in the city as part

of her first western tour. She is a

Soprano, with a voice that is both

expressive and melodious. Her voice

is one that can appeal to any audi-

ence, whether it be musical or

non-musical.

M. D. PETERSON

TUFTS SPEAKS HERE TOMORROW EVENING

CHICAGO UNIVERSITY PROFESSOR WILL ADDRESS PHILO-

SOPHICAL CLUB IN L. A.

Auditorium.

Professor James H. Tufts, head of the Department of English at

the University of Chicago, will give the fourth in a series of public lec-

tures before the Philosophical Club in the liberal arts assembly room at

3:30 p.m. on Monday, October 29. Special attention is called to the

date in order to avoid selling out.

Dr. Tufts is the editor of "Elia, a journal of high

literary and artistic interest and is well kno-

wn for his scholarly work on the classics.

The lectures are free to the public.

Michael Angelo's work is discussed by Well

er.

Dr. Wellern, who is a prominent

historian, will present a paper on the

work of Michael Angelo at the next meeting of the Philosophical

Club. His paper will be based on the study of the master's work and will

be of great interest to art lovers.

CIVIL ARTICLES DEFEAT IN IOWA

In a closely contested game on Iowa

Field yesterday, the Hawkeyes were

defeated by Minnesota, 41 to 14.

The game was played before a large

crowd, and the score was not changed

until the last quarter when Minnesota

took the lead and held on for the win.

Shinn won the opening kickoff for

Minnesota and Gest took the second

kickoff for Iowa. Both teams had good

kicks, and the game was played at a
good pace.

At the end of the first quarter, Min-

nesota led, 7 to 0, and held the lead

for the remainder of the game.

The Hawkeyes scored three times in the

second quarter, and once in the third, but

were unable to score in the fourth.

Minnesota scored four times in the

second quarter and once in the third.

The Hawkeyes scored twice in the first

quarter and once in the second, but

were unable to score in the third or

fourth.

Minnesota scored once in the fourth

quarter, and the Hawkeyes scored

once in the same period. The final score

was 41 to 14, and the Hawkeyes are

now in fourth place in the Big Ten.

The Hawkeyes are coached by Coach

Jones, who has been in charge of the

team for the past three years.

Subscription price $1.00.

A SECOND UNIVERSITY

The Ames college paper, the Iowa State Student, according to a special report from Ames, is in an editorial favoring a movement to ask the legislature to change the name of the "Iowa State College of Agriculture and Mechanic Arts" to "Iowa University," the argument advanced being that the college is now devoted principally to agricultural and mechanical arts, but is a real university and should be designated as such.

The editors of the Student will probably be taken out of the wood shed and severely spanked by the administration at Ames, which has devoted considerable energy in the past in connecting the legislature that the announcement is not true that it is breaking out of its legitimate field and黑名单 the field of the state university, which by the constitution of Iowa in forevery ideal city, without exception, in the state. The people of Iowa do not want two universities and they do not want their two big schools to develop in such a proper field—Iowa City citizens.

WHAT MEN LIVE BY.

"Let it be understood at once that Christianity has no counterfeits. That fact helps greatly in believing it. Could it have a greater compliment than a counterfeiting? The counterfeit emphasizes the value of the real. Nobody ever tried to counterfeit a piece of common brown wrapping-paper.

In the same way we should try to impress upon men's minds that their lives are not cheap.

The fact helps greatly in convincing the legislature that the university and should be designated for the state university, which by the constitution of Iowa in forevery ideal city, without exception, in the state. The people of Iowa do not want two universities and they do not want their two big schools to develop in such a proper field—Iowa City citizens.

STUDENTS MAY HELP LIVING CONDITIONS AMONG PRISON CAMPS

Prisoners Need Food, Clothing, Bedding, Medicine. Crutches and Other Common Comforts of Life or They Will Die.

OVER MILLION AND A HALF MEN AND WOMEN NOW PRISONERS IN EUROPEAN CAMPS

(Continued from page 1)

Interesting information concerning conditions in the prison camps in Europe on both sides has reached the University with announcements of the project to raise $150,000 among American students for relief work. Over five and a half million men and boys are war prisoners. Among them are some of the finest blooded men in Europe. Thousands of these men or ladies' men who enlisted in their respective nations. Some of these men have been in prison two years.

The students are doing everything within their power to raise money for the prisoner. But they have not been inconsistent with the men and the civilian population.

Deplorable Conditions

Prisoners live in camps containing from 2,000 to 12,000. These are often within a few weeks' distance, which are often without heat, even in winter weather.

Many of the men have received no new clothing or bedding in two years. Their blankets consist of a shoe and a sheet, and the shoes must often serve as receptacles for food and a blanket for washing clothes.

The Daily News

An average day's meal in a prison camp is: breakfast, hardtack, empty water, dinner, a piece of bread and beans or potato soup, supper, a piece of bread and green soup. The prisoners sleep in huts consisting of a 100 by 2,000 room. Each man has a space 3-1/2 feet by 4 feet.

The Good Samaritan

With the approval of the governmen 3, 000 C. A. workers go into the camps, provide accommodations for wounded, wounded, and rear-

5. Maintenance of an Employment Bureau for the benefit of men who are earning a part of their expenses.

6. Social events held throughout the year for all students.

7. High "Y" Club. An organization for High School boys under the direction of the University Association.

9. Visitations of men who are sick.

10. Tutoring men who are delinquent in their work.

As a University man do you stand for this sort of thing? If you do, join the Y. M. C. A. and give it your moral and financial support.

Why Pyrolite Does Not Clinker

Strictly speaking, no coal cinders. Formation of this dust of the householder depends upon the rate and quantity of the ash and the temperature to which the fire is raised. Clinker is melted ash.

Now ash is simply the incombustible content of the coal and consists largely of the tilden in the vegetable matter of which the coal is composed, together with various lime and magnesia salts and the slate and other impurities within the laminations of the mine. If these incombustible elements consisted only of silica, the ash would be little danger of cinders, for few furnaces reach a temperature sufficient to fuse this substance. The presence of lime and magnesia lowers the fusing point below the temperature of ordinary furnaces. Sulphur lowers it still. When the ash melts, a slag or cinder is formed which attaches to the grate and slides off the draft.

Pyrolite is very low in ash, it is cleared of slate and dirt, and contains an unusually small amount of lime and sulphur. Consequently the temperature at which its ash will fuse is not ordinarily reached in heating furnaces. Its ash is white and fluffy, like that of the finest tilden. This is why we make our leader. Of course, we have many other varieties.

_WANT TO BE HUNGRY? EAT AND RIDE THIS!_

Pickles, Pie, Cheese, Tea, Coffee... Beaud. You must touch hot pastries hot, handle hot. BOYS and GIRLS of the University, clean up.

They left hours out of every twenty-four, truly hard, brush your teeth. By the 7:30 "Get up now!"

If you don't "wash out!"

These are some of the modes left behind by the Iowa Mothers Congress and Parent-Teacher Association which war in session at the University last week. Follow them and you will grow into vigorous growing men and women.

Their program of daily life is simply but it cannot be carried out singly-mindedly—it requires cooperation.

"Get up happy!" (This should suggest to professors that exams should be no more.)

"Take a good wash!" Ask your roommate if the look of your neck looks clean!

"Brush your teeth!" Can someone else's paste—It's economical!

For breakfast, confine yourself to highly advertised brain foods. After eating walk slowly to your class! The professor, realizing that either exercise is disastrous after heavy meals of cereals, will not insist if you are late.

Pick out a seat by a window where there is plenty of fresh air and an exciting view.

"Study hard!" Get your lessons for the next class instead of taking notes on the lecture that is being given. Concentration is required. In this way you must train yourself.

Pick out the morning lecture of the professor who is attempting to GRATIFY your attention from your work.

"Play hard during recess." The games will seem to be more in tune when struck with force.

The tingling is the program for the morning. With this as a basis it will be very simple for every BOY and GIRL in the University to work on a desirable schedule or routine for the rest of the day. Or if you are unable to appreciate this you must consult the little red and black (Spencer's column) poster from which the fundamentals for the morning schedule outlined in this story were obtained. This poster has been offered for the color scheme on these posters.

Naunet Alfitl will be unable to finish her course in the University this semester. Her mother arrived Thursday to accompany her to Bowling Green, Ohio, where she will undergo an operation for appendicitis. She expects to return the second semester.

How Scotch tweeds got their name

The "tweed" is said to have received its name as a result of an error in attempting to read the handwriting of an old Scotchman. He had some particularly desirable woolen yarns and he wove them into a twilled fabric in a new way. Then he wrote, in his Scotch dialect, to his London distributor that he was sending a new "tweel." In reading the letter, the sales agent mistook this word for "tweed" and advertised the goods extensively as "something new." It immediately took the public fancy, so the name "Scotch tweeds" became established.
