**FACULTY DOESN’T CARE FOR EXPENSES**

In spite of the high cost and the necessity of the University in having in supply a thin, finely-tooled examination paper. In the college of dentistry, however, the students were divided among three subjects, and the seniors must suffer through six hours, while the sophomore women will be quizzed in chemistry, botany, zoology, medicine and the class, until they complete examinations in twenty-five hours of work.

In the law college, only one of the classes has been stopped. The third semester classes were suspended yesterday, and the second of the entire college was suspended temporarily last Friday. Most of the classes in that college entered through the full examination in great stress and so the class will stay until June. The usual number, no one knows what it is, of “exames” will be conducted by the instructors in the liberal arts college.

**PHYSICAL TRAINING CLASSES GET EXAMS**

Examinations are being held in all the physical training classes this week. These examinations consist of physical tests in marching, inselfisibility, and in the apparatus.

The men of the elementary training classes who wish to try out are given examinations. Many who could not seem at the first of the year are now able to swim the length of the pool and back again.

All men wishing to change the sites attended the examinations. In these subjects until June.

**BREENE IS AGAIN HEAD OF AMERICAN DENTAL TEACHERS**

**ORGANIZATIONS INCLUDES MEN OF MANY PROMINENT UNIVERSITIES**

**DENTAL**

**RECOMMENDS THAT TWO YEARS OF ALUMNI, HEAD OF THE UNIVERSITY, BE USED AS PREREQUISITE FOR DENTAL WORK**

At the annual meeting of the Dental Association of American Universities, held in Philadelphia recently, Prof. E. T. Brees, dean of the college of dentistry, was re-elected president for a term of two years. This association comprises the leading universities in the foremost school of its kind, and the honor conferred upon Dr. Brees is a signal one.

Among the important recommendations in his address, the suggestion of Dr. Brees that a one or two years’ course of pre-dental work in the liberal arts college is required for admission in the four-year dental college, is received most favorably, and a committee was appointed to see that these ideas before 1925.

**A PROGRESSIVE CURRICULUM FOR GRADUATE WORK IS ALSO RECOMMENDED, AND STEPS WERE TAKEN TO CARRY OUT**

Representatives from Harvard, Pennsylvania, Michigan, Minnesota, California, and Washington University attended the session, which was one of the most successful in the history of the association.

**SHORT WORKS WITH BOSTON BOY SCOUTS**

The Boy Scouts, Inc., 1918, who has been taking graduate work at Harvard university, is giving one of his times as district secretary of the Greater Boston council of boys. In the fall and winter months of 1916, there were 175 cases of this disease, and in the past six months more than 100 have developed.

Statistics show that there has been an increase of about 25 per cent. in the number of cases of the last six months as compared with the corresponding figures of the previous year.
