MUSIC STUDENTS WILL HELP FEED BELGIAN BABIES

TO GIVE PROGRAM SATURDAY APRIL 17 TO RAISE FUNDS FOR RELIEF WORK

series of Concerts Planned With The Kind In View-Mrs. Martha Stinson, Originator of Idea.

The concert for Belgian children will be given in the rental hall of the school of music next Saturday evening. The program for the Saturday evening concert is:

Spanish Dance, 6:30 Mrs. Mary Anderson; Esther Thoman.
Los Angeles, 6:45 Mr. Stinson.
Spanish Dance, 7:00 Mrs. Mary Anderson, Esther Thoman.
Miss Isley.

"The thought of these children being hungry on a day like today has made me feel that I must do something," Miss Isley said. "I wanted it said that their suffering is being realized by Mrs. Anna Tritsch Stinson.

"My observations have been confirmed by the University of Oregon and new proofs are given in the school of education here. It is quite possible that the most important thing is to make good to them through practical work."

The school of journalism has been one of the greatest assets in the University and that of Oregon. Because of the great demand of the people upon the University through the initiative and will be required to pay for twenty-five copies for each day's
delivering next Monday no sti­pulation will be allowed to retain it for the book for which she or he may like.

STATE BOARD ASKS FUNDS FOR BETTER LIBRARY FACILITIES

PRESENT LIBRARY INADEQUATE IN BOOK AND SEATING ACCOMMODATIONS

SURELY it is not the fault of Iowa students that we lack funds for the public libraries of the University of Iowa to relieve the pressure which has been put upon present library accommodations by the accumulation of books and the rapid increase in the number of students. In addition the present accommodations in books and the rapid increase in the number of students is...
OPEN HOUSE

At either of the Raceine Stores you'll find "Open House" at any time. You are welcome to call in while waiting for cars, enjoy the lounging chairs and keep warm.

RACINE'S

The Brunswick Phonograph

The Brunswick Phonograph combines every genuine advance in musical value with all the mechanical improvements of permanent worth, and combines in one splendid instrument the means of faithful reproduction of every medium of musical expression given by art to the human race.

Brunswick Phonograph cabinets are the achievement of 74 years of master cabinet making on the part of the Brunswick Balle-Cloudier Co. They have nine factories requiring the services of 5,000 employees among whom are the finest artisans obtainable.

There is a Brunswick Phonograph cabinet to fulfill every requirement of elegant home furnishing, whether of the simpler or more ornate style. And each one is artistically correct, and made under the supervision of men who know.

In spite of the superlative quality of the Brunswick the prices are approximately half those of competitors. Control of the source of supply of raw materials and unqualified facilities for manufacturing make possible the saving of thousands of dollars daily, and the result of these enormous savings is a lower price of the new Brunswick Phonograph. This can be seen in a few moments' comparison of the instrument with any other on the market today, as regards musical quality, elegance of cabinet work and price.

HAY'S MUSIC METHOD
WIDELY RECOGNIZED

The laboratory method in the teaching of singing introduced by Prof. Hay's of the Department of Music in the State University of Iowa has attracted unusual interest among singers and teachers of voice throughout the east and middle west. Three years ago Mr. Hay invented a recorder by means of which he was able to record the voices of pupils on the Edison talking machine. This method the student can watch the development of his own voice.

Within the last two weeks Miss Kate L. Drury of New York City, Mr. J. L. Conrad, head of the voice department of Cornell college, and Col. Wm. Franklin Miller of the Boston English Opera Co. having heard of this system visited Mr. Hay's laboratory and each manifested great interest in the advantages to be gained by the pupil of the voice machine.

Last winter, while Mr. Hay was residing in Boston, the Edison people urged him to prepare an article for publication in order to bring before the public the possibilities of his invention.

Why Not?

Why not have the final at the beginning of the term and do away with all this cramming? If you do not pass the final then, you will study and make your mark before the final, you will not have to study. This will work out better for all. Try it.

Hay's Invention.

Baconians To Show Educational Movt.

"The King of the Banjos," a powerful three-reel production depicting the evolution of transportation from the primitive days to the present time, will be shown under the auspices of the Banjo Club. In one hour and 15 minutes the film is projected in its natural current, thus giving the spectators the thrill of the great electrical and audio-vision feats of the modern age. Admission will be charged.
