NOTED ENGLISHMAN TO GIVE SERIES OF LECTURES AT S. U.

BOB. FRANCIS NEILSON WILL SPEAK ON TUESDAY, WEDNESDAY, AND THURSDAY.

Former Member of English Parliament to Present Lectures on Socialism, Religion, Drama, and Make—This Popular Writer.

The Hon. Francis Neilson, famous journalist and a leader among the advanced elements in Great Britain, will arrive Tuesday, Feb. 13, form Chicago. He will lecture Tuesday on "Soc­ialism and Sociality," Wednesday "How to Diplomatize Mako War," and Thursday "The Art of the World." The lecture for Tuesday by Mr. Neilson has been so great that he will probably spend the entire month of Feb. at the College.

Neilson has spoken at several learned meetings, among which were his recent consecutive years one and one-half meetings for every day of the year.

Land Tax Group's Leader

Besides this he has carried on his work as a member of Parliament, also as a social critic and writer, and as a writer of a constant stream of articles on art, politics, religion, and current events, he has become a somewhat dreamatist and a bold and radical thinker, the leader of the land tax group in the British parliament.

Some of the impressive novels from his pen are "A Strong Man's Hour," which tells of the great war, "The Butterfly on the Wheel," and "New Twenty Years." These books all deal with the critical effects of war on the common people—on the man, who does not from the Druseville regions to the desert. It is an entry into the society that survives after war to see its civilization brought back for a second chance. The man has the same national problem that war has for his people. These writings have appeared at a time when they are most needed. Many of his books are written in a surly style, but in a manner of diplomacy that is reasonable, forcible, and moving.

Seven Causes of Democracy

His success of lectures are on socialism, religion, drama, and music. The enormous strain of the war has caused a physical breakdown which had his physicians to order him to America for a long vacation. However, Mr. Neilson has never been willing to remain idle, so he plans to enjoy his time while here in serving the summer stage of America.

The demand for his services as a lecturer is very great and the University should be grateful for the opportunity of hearing him twice during the year.

WHAT MEN WANT

There Will Appear in This Column from Day to Day Opinions from Modern Writers and Speakers, Letters from Alumni and Friends of the University, and Statistics Relative to Men and Institutions:

"Enrollment was engaged in the profitable but shady business of turning the faculty against some of the pestiferous districts of Palestine. He was a politician and business man combined, and the kind of man that is "over to hand." Only when the first few feet he had no choice until a crowd in a narrow street working a prowess. He climbed a tree. Imagines a corpora- tion of people claiming a powerful post to see Jesus! This spirit of determination appealed to Jesus and he promptly made friends with him, through he well knew he would lose by his, but why should he?"

THE NEW PAPER

Readers of The Daily Iowa are introduced to a new stock of paper today. For some time this change has been under consideration and the new stock has been selected only after a search for the best possible paper to suit the needs of the daily at the present time. The new paper is the best grade of print stock available.

Two reasons may be assigned for the acceptance of this paper. In the first place, the present stock is not being used as efficiently as other uses. Agencies as a social expression and a community product. He considers the theatre to be, secondly, there has been a separation of the arts which are using, while others have been of the theatre. The theatre finds no favor with him, though he well knew he would lose by his, but why should he?

The编织 needed to be confirmed in the impor-
ance of preserving the history of the state in sixty years ago.
It was in the General Assembly that the first permanent annual appropriation
was made in 1857, drawing up the present constitution of Iowa,
and that the General Assembly which was meeting at the same time voted
a permanent annual appropriation of two hundred and fifty dollars for
the benefit of a historical society.
Since its establishment the society has been at Iowa City and the first
quarters were in the historic Old State Capitol. During the succeeding years
the society had many homes, among them the mechanic building, and
old state house, and the upstairs tenement of a business house.
In 1893 it was accorded the benefit of a hall, a gift of the city of
