THE IOWA COLLEGE PRESS

A permanent organization, known as the Iowa College Press, is the result of the meeting of editors and business managers of college newspapers of the state held on Friday and Saturday at Colfax. Eighteen newspapers from sixteen colleges in the state were present, and the convention for the new organization will have the name of each college represented signed to it as charter members. It is the purpose of the organsiers to add the names of every other college, which has a newspaper, in the near future.

The object of the Iowa College Press association is to unite the colleges of the state for a three-fold purpose: to promote a friendly relationship between the various colleges, to maintain high standards of college journalism, and to aid in the solution of problems for future editors and business managers of college papers.

The object as outlined in the constitution will be fulfilled if a ready perusal beyond a doubt by the spirit shown at the first annual meeting. Other newspaper men of the state who were guests and speakers at the convention declared that there was more real spirit and enthusiasm exhibited by the college men and women present than they had ever witnessed at any convention of newspaper men, either in the state or elsewhere.

The main feature of the convention noticed by members of the staff of The Daily Iowan was the excellent manner in which the members of the various schools became acquainted. That friendly relation so often between every school in the state was very evident. Students made the remark that it would give the Capses a good feeling which actually exists between the newspaper men of Iowa and Iowa State. The same may be said of other students who are strung for athletic honors, and no one can deny that there is not anything but the friendliness of relations between all the schools.

After listening to some twenty or thirty talks from prominent athletics, newspapers, and the most vital points which affect the business of getting out a college paper, there is little doubt but that there will be, a marked difference in most of the papers. Especially could this be true in the schools where the members of the state have an expert in the journalistic field to direct their interests. Most of the men were there to learn all they could and make suggestions on problems which have confronted them as shown in the discussions which followed various talks and in the question box which was opened on Saturday afternoon.

All in all it was a mighty fine succession, whatever whether a purely social gathering or a business meeting, and the general resolution adopted by members on return to their respective schools was, “Back to College Next Year.”

Clothes for college men

YOU don't have to be a college man to appreciate the kind of clothes they choose; you may be just a plain everyday businessman, or a farmer, or whatever you have to do; the point is that good clothes are an important factor in whatever you do.

Hart Schaffner & Marx Varsity Fifty Five suits and Varsity Six Hundred overcoats

These very striking and lively models are the choice of young men everywhere, in and out of college. They've made for men who feel and dress young; and that includes a good many men who have lived more than young years. The Varsity ideas in designing clothes are expressed in modified form in the suits and overcoats we have for men of 45 and 50.

Men of affairs don't outgrow, or get too old for good style, good all-wool fabrics, good tailoring, good fit.

Every Hart Schaffner & Marx suit has the label in it; we'll show you where if you ask us to. "A small thing to look for, a big thing to find."
