FACTORIES REQUIRE DRILL OF ALL MEN IN LIBERAL ARTS

All of the 450 men in the college of these arts, barring the physically unfit or conscientiously opposed, are required to undergo the strenuous drills and exercises of the Army, and will be admitted to subscription drill for any three hour course in registration. Students who wish to retain their present school will also have this privilege. The faculty feels that this will be given one additional credit. The letter provision is a feature added to the plan suggested by the students in the faculty.

FACULTY REQUIRES DRL OF ALL MEN IN LIBERAL ARTS

Continued from Page One

The faculty of the liberal arts will be required to receive credit for the military drill.

That said, military training begins this Tuesday, April 30, and continues until the end of the present session, subject to the approval of the Commandant.

The college of liberal arts was the fourth to trace a line requiring drill. Applied science, pharmacy, and homeopathic medicine, acting on permission from the students, had previously passed similar regulations.

In giving out this statement, Dean Hildreth said that only two faculties had signed up by last night, and 51 seniors. Difficulty arose among some departments, and new instructors began signing last night. About 115 men out of the 138 in the college have signed up for drill.

A WORD OF WARNING ABOUT BUYING COAL

Unless the War Collapses soon, prices are likely to go up rather than down, and coal may become very scarce.

We are anxious not to overstate the one, but, after careful study of the market and another visit to the dealers in Chicago, we are of the opinion that the situation is serious. Prices are unlikely to go down, and they probably will go up. At any rate we advise you to look into the matter, early as possible.

Thence for we have not been without real at any time, and we have filled orders and contracts. We assured that we shall try to keep up this record, but you must let us know your needs. We don't like the situation any better than you do.

GRADUATE STUDENTS
ASK MILITARY DRILL

"We, the undersigned, members of the graduate college, being of age and
physically fit for military service, do hereby petition Captain Martin C.
Monnum for the organization of a graduate training company to drill not
less than three hours a week, as periods to be decided upon, beginning
immediately after April 19. We pledge ourselves individually to en-
roll in this company and to engage in this training."

The above petition was signed by about thirty-five men in the graduate
college at the meeting held in library auditorium Thursday evening.

Prof. C. C. Net-

ting gave a short address in which he

urged the men to petition for mili-
tary drill. Military training, he said, is only one form of expression of one's patriotism.

The resolution for military drill was passed, and the petitions signed and sent in the graduate council for action.

Every man at the meeting signed the petition.
