WHAT WILL TAKE PLACE OF WARS IN THE FUTURE?

WARS IS THE SCHOOL FOR MANKIND

By Dr. Henry Albert, Dr. G. L. House, and Prof. Irving King Also Give Discussions.

"War has been the school in which mankind has learned to think, and it is abolished some other form of crisis must be found. The great goal that war has done is to test life itself to the social group, and few problems of war in a state and national and social consciousness prepare any which which takes in the idea. There all seem to go on the assumption that war is the only way to win. Here, let us "wait the army," they say, "let us be abolitionists, let us let the army do it." A war is a crisis which in war and white has shown the vast and hopeful opportunity equaling the idea of an army, and the idea that war will be conditioned to the happy." --The New York Times.

FIFTY YEARS ANNIVERSARY

FRADE CELEBRATES ITS FIFTIETH ANNIVERSARY

This is a pleasant anniversary, as the event is celebrated at the chapter house on north Clinton street. In the evening a speaker will be heard from the University of Louisville, Kentucky, and Wednesday night Prof. Dr. Franklin is to be the speaker for the company to be held at 7 o'clock, and free and open to the public.

MORE THAN 100 MEN TAKE PHYSICAL EXAM

Only Three From Those Already Examined Are Rejected for Induction.

More than 140 men have been given the physical examinations required by the army, and the examiners have made a corps camp that is to be held at Fort Bragg, N.C. The examinations have been thoroughly conducted and white have not been rejected. A few, however, have been found not physically sound and tested. They must be tested before the man can pass on the course. The next examinations will be made on the next week's time, and another physical examination will be made.

"In colleges of the medical division of the army are seeking the doctors for the best of the army, and the applicant for the position must be one who has taken care of the medical profession.

"To be selected must be one who is a student in the medical profession, and has taken care of the medical profession. The examinations will be made on the army, and the patient must have been found to be fully capable of the medical profession.

To the Editor:

What next in admission of doors? It's statements regarding the volumen exterior may not be a possibility in that the failure of the volunteer system is an expression of disapproval of the American people regarding the policy of the government in this way? When the people understand the war is being directed against submarine warfare they are not only in the interest of the best and feeling shown when a submarine sunk an American ship on the armed merchantman sunk the marine attacked an American ship or castle science, and Washburn regular meeting of the department of geology.

The first regular dance for the graduate college will be held Thursday evening, May 3, in the ball room of the Burpee Imperial Hotel. There will be dancing from 8 to 11. Carl Franzen of school of education, chairman of the dance committee, announced that plans are well under way. Other members of the committee are: Donald Lister of the department of chemistry, W. N. Anderson of school of education, John S. Fife of the department of political science, and Wannakers Silver of the department of artistry.

Several members of the faculty have signed three treaties of being present. All graduate students in any department of the University are invited. Tickets are in the hands of the committee now. Members of the graduate faculty will chaperon the dances, and music will be furnished by Bishop's orchestra. The following program will be given:

TWO GRAND CONCERTS

EMIL OBERHOFFER, (Conductor)

May 1, 3, 30

WHAT WILL TAKE PLACE OF WARS?

(Continued from page 1)

"Student's Flirt," a small strand of protagonist found in the central cavity of the brain and spinal cord of all vertebrates, was reported on by Dr. G. L. Howser. Recent experiments, he explained, show that this fiber has to do with the formation of posture. It is at least in part by this fiber that we know when we are standing up or sitting down.

Sarah Reynolds of Cedar Rapids is a guest at the Alpha Chi Omega house this week end.

Charles Hoffer, freshman liberal arts, has had a minor operation at the University hospital.

Eugene Van Oye, freshman liberal arts, has had a minor operation at the University hospital.

Make good this summer

To the student who is not afraid of hard work out of proportion is one of the best. One student averaged $4.50 per day last summer. If you are interested, please write.

What Will Take Place of Wars?

Seven Applications are Rejected by Captain Mummus for Admission to Training Camp.

Applications of seventy students and faculty members of state University were passed for admission to the officers reserve training camp at Forts Snelling, Minn., and one for Fort Moberg, Virginia, by Capitain Morton C. Mummus, examining officer, and seven were rejected because of various deficiencies. Thirty-three other applications were left on the waiting list last evening and the Captain is of the opinion that by the time the morning roads arrive he will have at least two hundred more to examine today.

The single applicant who will enter the camp at Fort Moberg, Virginia, is Wolf Klavans. Mr. Klavans has already shown service in the marine corps and will train for use and should his application be accepted, will join the camp of his choice.

The line of students waiting to register in the office of Captain Mummus yesterday resembled the registration crowds of busy waiting for admission during the days of Robert R. Rumsen, advisor at the beginning of the week, and the line of those who registered finished waiting for admission will be shorter.

Four Applications have been turned down by the Captain because of various deficiencies.

Dunlap's Second Annual May Day Opening, May 1 and 2, 1917

9 a.m. to 9 p.m.

A wonderful series of exhibits will be shown. Here are some of them:

1. Models of ideal barn, garage, poultry house, granary, etc.
2. Model of cement factory
3. Exhibit of Bridgeport Wood Finishes
4. Exhibit of super subterranean
5. Exhibit of building blocks
6. Exhibit of Best Planter Wall Board
7. Exhibit of Upson Wall Board

Various other miscellaneous exhibits of interest.

Demonstration of the National Lumber Manufacturing Association and of the Bridgeport Wood Finishing Co., and other notable representatives will be present.

At the same time as the exhibit in our yards a building cartoon film will be run at the Ringer Theatre.

EVERYBODY IS INVITED
