AEROPLANES BEST DEFENSE AGAINST SUBMARINES-FORD

Inventor Work on Many Devices For Detection of German Subs

I use TELEPHONE TRANSMITTERS

Entire Sensitivity Required of Instruments—Must Work at Great Distances

"I suppose every electrical man is working on some scheme for submarine detection," declared Prof. A. F. Ford, professor of electrical engineering, in an interview Wednesday.

The difficulty in such an invention is that the instrument must be made to work at a great distance and as must be an extremely sensitive detector.

One kind of electrical circuit, flash would be foreshadowed by iron from the neighborhood. It is one of the theories suggested by Professor Ford as a possible work on inventors might take. He would have to be a fellow who would work from shore, and if placed on board a ship, and so forth, he would be affected by the winds of wind itself.

Other proposals for submarine detectors are that telephone transducers be placed in the districts frequented by the U-boats to detect vibrations of the submarine propellers. If the vibrations could be heard for miles in the water, this would immediately point to one of the submarine as a possible target or the seafloor. The magnitude of the field work would possibly make this plan not feasible.

The Ford transducers are the best in the country known for detecting the water as hot, as they can see much farther into the water by being driven into it. It is possible for them to get the sounds, or they may inform the high-speed tones to pass the checks, says Professor Ford.

RETURN FROM DETROIT

And Prof. Harry A. Green returned from Detroit yesterday, where he spent the last three weeks. Mr. Green is employed by Michigan State University as a research department of the Great Lakes police, being one of the few college students who has been engaged in that work in Detroit during the present year. Mr. Green will now continue his work at school of education at Michigan.

W. C. Anderson addressed the annual student Tuesday afternoon as the subject "Differences between Maintenance and Operation."

J. B. Cribb, graduate student in school of education, is making a survey of schools at Washington to work.

Make It Yugosl

Cold-Cola is on a mighty welcome suggestion, whether the crowd's hot and "dry" or just needing a glass of delicious refreshment. It's a favorite call of millions daily.

THE COCA-COLA CO., ATLANTA, GA.

Photographic Headquarters

Mark this sign! It stamps our store as the best place to buy photographic materials. And it stands for the best photographic materials.

We are proud to handle Ansco goods, because they never disappoint. Long experience has revealed to the Ansco Company the best materials, the proper formulas for taking and printing perfect photographs.

Come in, and let us demonstrate the best points of the famous Ansco, the amateur camera of professional quality, priced from $2 up. Let us show you beautiful pictures, developed by famous Ansco Film, developed with Ansco Chemicals and printed on prize-winning Cyko Paper. You'll be surprised and delighted. Come in TODAY.

MORRISON'S PHARMACY

W. P. Knowlton, pharmacist of the University, a representative for New-

man & Co., has been visiting University professors this week. Jack Ste-

gal of Silver Stuart, and J. T. Bur-

ten of McKenney were also here.

The Rev. J. J. N. Bracken is in Dubois attending the district confer-

ence of German Lutherans church-

CUPID WORKING OVERTIME FOR UNIVERSITY GRADS

Kappuyger-Paribah.

The engagement of Miss Mercie Kappuyger of Mason City to Mr. Bob-

tart Merton Parsons of Des Moines has been announced.

Both were graduated from Iowa State University.

Mr. Parsons is a member of Phi Beta Phi, and Mr. Pearson is affiliated with the Phi Delta Theta fraternity.

Miss Parsons has been continuing his work in Des Moines university,

and will be associated in practice with her father, Judge Robert L. Parsons, 1504 Oak Park Ave., after his admission to the bar this summer.

Stet-Holdings.

The Spencer News announces the marriage of Miss Myra Smith to Leo W. Stet-Holdings of Cleveland on April 14.

Stet-Holdings is a graduate of the Spencer High school 1899, and of the State University of Iowa. Latastick took place work graduate in metal-

lurgy at Yale. At present he is asso-

ciated with Cope college at Clev-

land, in the chemical department.

Miss Smith is the daughter of Mr. and Mrs. W. E. Smith of Des Moines.

Gifford-Morcels.

George Price Morcels, graduate of the Iowa State University law college, was married on April 15 to Miss Gertrude Landisc Gifford, daughter of Miss Eileen Webb Gifford, of Des Moines.

Mr. Morrison, the son of Mr. and Mrs. E. R. Morcels of Fairfield, is present a member of the Morrison and Mor-

erson law firm, and attorney for Wash-

ington county.

Miss Gifford is a graduate of St. Katherine's school and is a member of the Delta Gamma society.

Dailey-Dailey.

Miss Ethel Dailey, daughter of Mr. and Mrs. William Dailey was married to Mr. John B. Dailey, on April 13. Both young people make their home in Waterloo.

Miss Dailey is a graduate of the Da-

water high school, 1894, and attended the State University of Iowa for two years after her graduation.

Some Elliott is a member of the Achon society and before marriage

lived at LeMars. Mr. Howard is from Fremont, Nebraska where they ex-

pect to make their future home.

The Student's club will meet to- 

day in the room in the liberal arts building.

Mr. Hoss will talk on two plays, "The Intruder" and "The Blind."
