Girls Demand Right to Play Tennis Somewhere Sometimes

"Tennis for women" is the new term among the members of the University girls. They have met in the Student Senate and are at the present time in the meeting of "votes for women" but the question of tennis is not yet resolved.

The following is a description of the situation:

"The members of the women's tennis team are the chivalrous men of the campus. Presently they majestically accumulated courts and are consolidating every point. The men say that they can't stand it any more. When the tennis season comes, we will see the men playing in the south side of the city, offering vigorously that their season is full. The question must be solved. Shall we get a woman justice or an answer to the improvement of grounds and buildings?"

From "the front"

If thoughtless talker is like a minor Official at War, then the策略 us is the same. This suit looks as good as "from the front" as it does from the back. But that isn't the main idea in the heading, many of those spirited sport suit touches are "from the front"—military ideas. Notice the well defined waist line, the free and easy shoulder effect.

Hart Schaffner & Marx have produced for us the lively designs you want. All we ask is a chance to show you.

GLEE CLUB OFFERS VISIT TO COLORADO
Until Colorado was "discovered" as the most wonderful of 
American resorts, thousands of Americans went ahead every 
year in search of new climes. Now they go to Colorado and get more va-
riety of climate and pleasure in a single day than they formerly did in a 
week.
Just to mention a few of the many 
terms of interest is the Colorado 
National Park 
alyzed Southern highlands.
It is surprising how little it costs 
to see all these wonderful 
parks, to enjoy any of the myriad of other
