THE DAILY IOWAN

Wednesday, May 11, 1921

THE DAILY IOWAN

Auditorium is the State University of Iowa

Board of Trustees

The hearing is in order.

Harold Noah

The 1922 Hawkeye

A truly representative yearbook of the State University of Iowa.

Such is the statement which the editors of The Daily Iowan made of the 1921 Hawkeyes which has made its appearance on the campus which will be for sale tomorrow.

The task imposed upon the managers of The Daily Iowan is great and requires patience. It requires literary ability, appreciation of the spirit of the times, and knowledge of business methods. Examination of the annual proves that the men who have performed these tasks have possessed these essentials and have made the book a credit to the faculty and students.

The most noticeable improvement is in the arrangement of the sections. The general article, make-up of the departments and pages. The balance of material on the pages is more uniformly correct; the colors are numerous and there are now no combinations that cannot be overcome; and the colors are for the most part, quite perfect. Perfect colors can always be attained, if it is beyond the power of the cartoonist to cut out a poor negative. In this, however, the editors this year have been extremely fortunate. The art work of the book is from the pen and brush of Frank Mannon, the editor, whose ability has previously been proved.

One of the greatest features of the 1921 Hawkeyes is the index of pages in the back of the book. Formerly it has been necessary to start at the first and hunt through the pages to find a particular section.

A brief examination of the sections would indicate that they have been of great assistance and that the indexing in the book is accurate. To mention all of the quality of the jokes this year would involve some further and more serious examination. As a result, however, it will be safe to say that some of the material will have appeared.

The material and cost seem to be of excellent material and the binding and workmanship desirable, a dull task of the work which is of great importance to the durability of the finished product.

UNIVERSITY OPPORTUNITY

Note—The Daily Iowan will gladly print any communications from students regarding any opportunities. We shall be glad to consider any matters of a news feature that may be in the interest of the students.

THE SENIOR PLAY

To correct an impression that some may have gained among the seniors, the next statement of the senior class committee will perhaps be appropriate. Before the war situation became so serious that the committee had to formulate a play and had engaged the services of a leading cartoonist, plans were almost completed for producing a play, including acting, casting, advertising, which would have mounted up to several hundred dollars. Under normal conditions the proceeds of the sale of such a book would have been actually sufficient to meet the cost of production. But the war situation has made no more than the senior class of the present year has been. In fact, the war situation is such as to create these classes that have changed matters very materially. The attention of these class committees will mean that there will be fewer separations and parental loss in the future.

Furthermore, the indications are that there will be more music left for future years than in the past.

Mr. B. H. Hammel, Manager

AdVisEeS

Dr. William B. Calhoun, Dean

The tryouts will be held in the auditorium, Monday evening at 7:30. Be a loyal Iowan, senior and come out!

WHAT THE FACULTY THINK OF HAWKEYE

I think the 1918 Hawkeyes had the best one I ever had in the University."

Dr. J. B. Holman.

This year's Hawkeyes have achieved high standards. The first of College football season was fine, with its display of buildings, landscapes, student corps, and student bodies that in the future we shall be proud of.

Prof. J. W. Blaisdell.

I have examined with great interest the 1918 Hawkeye. It is a very fine one of upward of five hundred pages of sound workmanship, description and activity of the University. The successful efforts of the editorial and student bodies in starting the present issue of the high is a very large volume of distinctly superior in workmanship and for its high standards. Two new and interesting features of the volume are the Index and the section devoted to the University. The large number of cuts, the unadorned work and the careful and skilful arrangement of materials together with the superior workmanship of the volume itself led me to believe that this is all around this best Hawkeye ever.

Prof. E. L. Lewis.

JOSHEPH DAVIS HAS TURNED MOVIE ACTOR

"I'm sure" Barry has played many popular roles in University affairs. But his latest accomplishment has caused anything he does to the best. He is now a star of the first magnitude in the "short" world. In the recent pictures taken of the president's imperial and governor's portraits of the University cadets "Fleming" played a prominent role. The movie man stopped to talk in the faithful gazette of the Iowa and became involved in a dire

JUDGES CEREMONIAL DANCE

C. W. Keyser of the mathematics department was one of the judges of Cotterell last week. At the convocation, the student body was given a system of compulsory military training for all young men. The dance was the final inter-society between Alpha Chi Omega and Alpha Delta Phi.

TRAVEL TO HOMESTEAD

Members of the classes of 1913 and 1914 who planned and executed a trip to Homestead Saturday. They left at 7:00 on the last train and reached their destination after six hours. They returned home by way of Des Moines at 5:00.

PHYSICAL TRAINING MAY BE MAJOR NEXT YEAR

Excellent Positions Offered to Men Trained in Gymnastics Work

Efforts of Schroeder Have Led to the Building up of the Department of Physical Education

Probably by next year the work of the department of physical training at the University, of which E. R. Schroeder is the head, will be organized so that a greater man major in this subject will be found. Going through the University, taking a certain amount of other required work, and graduating after four years with a degree of bachelor of arts just as much as if he had majored in English, sciences, Romance languages, or any similar subject.

Work in the department is coming to be of increasing importance in the present national emergency. As one of the results it may be said that the research work in the department has been increased greatly. The research work in the department is of importance in the physical and athletic work in the school and athletic work. In this way the department becomes more important in the school, and according to "that, Schroeder says, it will mean the possible perfection of other work, even if it means that he has to take a part in the present work which is all of necessity much concerned at the present time.

This is one of the reasons why all athletes become of more importance than ever. If the government particularly calls attention to the fact that they are to be physically fit, so are we.

The training department has been used by 61,649 persons, counting duplicate cases, of course. About the same number of both sexes have taken the physical training department has taught 44 men to swim. About 1000 individuals have been using the gym privileges during the year. Of these, 630 have been enrolled in required work and 10 in elective work. During the winter over sixty hours of scheduled work each week was given by the department. Medical examinations in the number of 52 have been given, and there have been few physical examinations. Fifty six swimming examinations were given last fall, and about 30 will be given this spring. Under certain circumstances medical examinations are given in the department at the end of the term to the juniors and seniors that no man is able to attend.

Must All be Swimmers?

The swimming examination is a comprehensive one in itself, and vitally means that no man may register in the University until he is able to take care of himself in the water. Every examination at the end of the year must be able to swim two lengths of the pool, one length being one stroke and one length any stroke. He must be able to swim for longer time on the work using the stroke. He must be able to swim two lengths of the pool. If he is not able to go to the bottom of the pool and bring up material which may be thrown in for him to eat. During the past year the department has given two swimming meets and wrestling tournaments. There was no baseball this spring because of the great amount of work for the men are doing. In addition to the scheduled and extra work across the University men, the department has always given six hours of work for the band, and we have been able to school and two hours a week for the band of the elementary work.

No Serious Accidents

This year there has been an end and has been given to about 150 cases of minor injuries, however, nothing in the swimming pool. First month of which were simply bruises, slight loss of skin in falls or other injuries, etc., etc. There has not been a single serious accident in the gymnasium for the second month. Demonstrations and lectures form a part of the work of the department. There have been demonstrations on wrestling, boxing, swimming, basketball, and a throng of others. There has not been a single serious accident in the gymnasium for the second month.

TUESDAY AND WEDNESDAY MAY 20-22 COURT SQUARE

DOWNTOWN DAVENPORT

STATE UNIVERSITY

Why do friends mean more to us now? Why in the midst of preparation to enter the mighty world war we cannot deny a deep feeling for those who have been most dear to our hearts. Yes, we shall soon be saying fond "Good-Bye to thee"—and perhaps for the last time for m-

so! The program tonight will be more up to what we think of them. For in the midst of the life-saving work the men have left for training and mobilization camps. And yet in the face of these facts we set our faces aright to a bigger impulse. Not that of a

"The Film was presented in connection with other reels of Iowa State Guard at Camp Dodge and on the border. Also popular reels featuring prominent stars of the movie world.
