**Lectures Will Be Given by Men of Great Reputation**

Lorado Taft, America’s Leading Siudent Body President, will be on the platform at First Number.

**Men of World-Wide Renown Speak**

Sir George Reid, John Macfieand, And Elwood Lewis, Also Be Here.

The state board on University has made arrangements whereby a number of men of world-wide reputation will be brought to the University during the coming year. In addition to the address on the "Great War" by Lord Lanchester, Joseph P. Taft and William Gibbs McAdoo, there will be other men of note, such as Lord Tull, the Irish M.P. Sir George Reid, John Macfieand, and Elwood Lewis.

**Dean Entertains Staff and Circle**

Miss Klinghagen Meets with Graduate Students at Carrier Hall Home.

The Staff and Circle, the honorary student organization among University women, was entertained at a dinner of the staff and Circle on Monday evening by Iowa M.A. at Carrier hall. This is the seventh dinner given in the history of the organization. Ten former Staff and Circle members were present at the affair. Gertrude F. Miclea, who presided, spoke at the initiation. This is the M.T. of the Taft company who dwells in the home of an authentic "History of University women," and who, as a private secretary to the president of the university, has always been present to put on a good show. The staff and circle is composed of the "wise men" of the student class chosen by their classmates because of their high standards of character and scholarship. It is, in point of fact, a very capable duty to help the freshmen girls.

One month since they have been in residence they have already the responsibility of the interest of the University girl. Robert E. Elwell, dean of men, in his address, paid high tribute to the work of the circle and Staff. He said: "The Taft circle and Staff, Tafts of the past have already answered the call and, in their way, have performed a most creditable service to their school and country. As a matter of fact, these essays and orations which the Staff and Circle have given have set up a precedent which will be hard to equal in the future."

The list of Staff and Circle members for this year includes: Miss A. M. Johnson, Miss Mabel Martin, Miss Mary L. Williams, Miss Gertrude F. Miclea, Miss Minnie P. Martin, Miss Helen R. Smith, and Miss Ella B. Smith. These are the members of the Taft circle and Staff this year.

**Nays Makes Annual State Coal Report**

The Revolution in coal for Iowa is: 1916, 7,985,081 tons, which was 1,567,888 less than 1915. According to the data of the department of commerce and politics, the output of anthracite coal is 7,717,714 tons, 153,157,106 short tons of coal are used for steam purposes in Iowa, and 7,717,714 tons of coal are used for steam purposes.

**Freshman Trials Are About Over**

For It’s Generally Granted That The First Few Days Are the Worst of the Entire Year.

Are You a freshman? Maybe you are, but you have no idea. And if you are, you know what an ordeal it is to be one. There were times when you would barely have survived the ambition to become president of the United States just to be back in that little (Continued on page four)

**College President Will Speak at Y. M. C. A.**

President G. P. Chalmers of Upper Iowa university will speak at the first service of the Y. M. C. A. on Monday afternoon at 7 o’clock. The President was recently a prominent member of the Iowa State Teachers college. He is the editor of the "Yale Book of Capers’" and the "Sellar’s," an educational text book that has been widely used throughout the country. As speaker at men’s meet-ings he is to be envied, according to former G. P. Chalmers.

Later in the year other prominent set-asides men, members of the faculty, and various professional men of Iowa City will speak.

**Varsity Squad Has Smallest Turn-Out in Several Years**

Approximately Forty Candidates Report to Be University’s Liniment In Material.

Will Probably Scrimmage Today.

Indications Point Toward Real Work-Out For Aristocrats This Afternoon.

With the first week of football practice really drawing to a close, what doisters saw for the Iowa varsity before the season started new and improved footballers. Assistant coach Jones from the problem of building a representative eleven out of the least material that has re- 

pected for varsity football on Iowa field for several years. Approximately forty men, practically none of whom have had university football experience, apparently are the university’s limit, and if even a mod
cal number of the men who have owned a cent, there will be only one man to blame.

Promises yesterday still remained that there would be a real football. Earn
day in the afternoon Jones took the team out to the practice field and carefully drilled them in the requirements of their positions. After the work Jones stated that the operation of the backfield and ends and halfbacks was

After half an hour three eleven men went scurrying down the field in a signal drill. The first line-up suffered but two changes from the previous day, one in the backfield and one in the line. Cumberland still holds his position, but not on the right. O’Donnell displaced Backoven at guard. The remainder of the backfield is the same as that for the game with Utah last Saturday. Kelley playing at left guard, with Lemmon, O’Donnell, and Ruhl on the end. The front of the line is basically the same as that for the game with Utah.

"in the hope of the men. As a matter of fact, the Iowa line has a better line than any that he has ever come across. The Iowa line has a better line than any that he has ever come across. The Iowa line has a better line than any that he has ever come across.

**President Stewart Will Talk Tonight**

Iowa offers better advantages for the student who wishes to enter the ministry than any theological seminary according to B. M. Brown of the department of education. Prac-

tically everything that is needed in the training of preachers is included in the curriculum. The modern and accepted creed of Modernism should be taught in the training church. Miss Harriet H. O’Rourke, only half of the senior women at the University to be equipped for their needs. The course for the senior at this institution with the exception of the senior women in the training school and the student body will have the oppor-
tunity to work out. The senior women in the training school and the student body will have the oppor-
tunity to work out. The senior women in the training school and the student body will have the oppor-
tunity to work out. The senior women in the training school and the student body will have the oppor-
tunity to work out.

**Preacher Can Get Training at Iowa**

Iowa is one of the leading states in the training of preachers in the United States. Y. M. C. A. Hawes of the state architects made plans to build a new building in the center of the city of liberal arts. These figures are somewhat above the one for the previous year, when the output was 7,111,434 tons, with a value of $11,127,686, the pro-

"Coal has been for many years the chief mineral mined in Iowa, the "master coal," according to the United States Geological Survey. In seven and eight million tons every year.

"Last year’s coal was mined to the amount of 1,227,686 tons, which was 7,985,081 tons, with a value of $11,27,686, the pro-

Northrop, W. N. Exall, R. M. Snowball. W. H. Hart, Editor.

STOCK IN TRADE

The fact that the student body to which I belong do not seem to judge close to the truth as to my school is not the fault of the people who allow them to work as they do. They know what is right and what is wrong, and they are determined to do their best in every department of their work. They are always willing to do anything in their power to help others, and they are always ready to do so.
