GERMANS BEATEN AGAIN

The Germans have been beaten again. If you doubt it let me take you on a tour of the university hospital where a few weeks ago there were many cases of German measles. Recently the measles ward was the noisiest in the building. It is now quiet and the nurses are enjoying a rest.

Only three cases of the total German disease are being treated at present and there have been no new cases for several days. Each day for the past week, students who have shown the measles have been allowed to leave the hospital and according to the nurses and doctors in charge there is little chance of many new cases developing.
