Bonds Are Not A Burden, But A Blessing

Thrift requires the exercise of restraint and self-denial — qualities without which you cannot achieve the success in life which it is your ambition to achieve and for the lack of which you are likely to suffer in later years.

The money you acquire by thrift you are asked to loan—not give—to your country. It will come back to you when you may need it far more than you do now, and you will be paid interest for its use.

This war is a frightful thing, but it may prove of inestimable benefit to you, if it teaches you the good habit of thrift.

We dare not delay the VICTORY now. American lives are at stake, our own safety, the safety of the whole world. If we are not to prolong the slaughter and the suffering, if we are not to risk defeat or an inconclusive peace, we must act quickly; we must put forth our every effort now.

The army is doing its part. Five hundred thousand American soldiers are in France today. There will be more tomorrow. And more the day after. We are going to send an army large enough so that when we strike, with our Allies, we can drive the German hordes back across the Rhine—so that we can win the decisive VICTORY that will make American freedom safe, and establish a just and lasting peace.

But the whole nation must take part. Our armies in France are looking to us to furnish them in ever greater abundance, the ordnance, the munitions, the supplies that will make their VICTORY possible. We must not fail them.

The Third Liberty Loan is our share in the winning of this war. Upon it depends the safety and success of five hundred thousand American soldiers in France.
