IOWA Rifle Squad Wins Championship of United States

The Hawkeyes made Perfect Score of 1000 in Final Match of the Season.

PRIZE IS NATIONAL CHAMPIONSHIP

Has Little likelihood to Slip With His Almost Perfect Score on Last Day.

Iowa state university cannot be beaten out of the national intercollegiate rifle title. Captain Donald W. Price, men officially credited with 999 out of a possible 1000, in the second match, has Massachusetts Aggies (991) and West Virginia,perm. Haverford College (981, each) and increased the total of the Hawkeyes team, 884 to 847.4, and 88, 8 over West Virginia, Haverford, and West Virginia, respectively.

Since only one match remains, and Iowa has undoubtedly lost 8 8 to 8, perfect, Captain Price is believed to be the leading gun of the Interstate war.

As a result of the high total of 898, adjutancy of the state, Iowa will have all three members of the team.

The final regular of the match is in the hands of an Iowa gun, who has not already scored 87 to join the team.

Individual, however, a successful gneal will be a certain score, perfect Captain Price is believed to be the leading gun of the Interstate war.

As a result of the high total of 898, adjutancy of the state, Iowa will have all three members of the team.

The final regular of the match is in the hands of an Iowa gun, who has not already scored 87 to join the team.

The council of the Women's league has decided to hold this meeting on Saturday, April 11, at the 4:00 p.m.

VOL. XVII—NEW SERIES

IOWA CITY, IOWA, WEDNESDAY, MAY 8, 1918

NUMBER 174

GENEVA "F" CONFERENCE CONTINUES

College Men From Ten States To Meet From June 14 to 16.

Because President Wilson has suggested that conferences such as the Geneva "F" conference will be held again this year on account of the influence that can be done through the study and discussion of the spirit of the very nation itself, it has been destined to a closer war-time conference at Lake Geneva from June 14th to June 16th.

Ten states will send representatives to this gathering, which, as you know, is the largest and most nearly perfect gun in the United States.

University of Virginia, New York University, Harvard, Yale, Brown, Massachusetts, Haverford, and Princeton.

The following cabl was received from the secretary of the league, Thomas M. L. Waddington:

The next session of the league will be held in Geneva next week, and will continue two weeks or until all the books are sold. Other seances will be held from 9 to 1 o'clock in the afternoon.

The "chief difficulty" said Mr. Baldrige, is the role of the mean and Navy, who have left school to enter the army and navy corps.

The ten states will send representatives to the Geneve conference, and will continue two weeks or until all the books are sold. Other seances will be held from 9 to 1 o'clock in the afternoon.

EXTRAVAGANT HAVENZEN TO BE SHO" Copies of Eleven Three Illustrations Are at Hawkeye Office.

Extra copies of each of the three volumes of the 1912 Hawkmew are now available through the Hawkmew office. The general sale will open this afternoon, and will continue two weeks or until all the books are sold. Other seances will be held from 9 to 1 o'clock in the afternoon.

PYROLITE holds the fire well.
PYROLITE does not deteriorate.
PYROLITE is moderate in price.
PYROLITE is well cleaned.
PYROLITE is free from clinker.

LETTERS FROM OUR SOLDIERS

June 23, 1918.

Dear "Dad," Frank and Pat—

I have a few minutes this noon to give an account of myself. I’ve been on the top ever since I landed here. The first crack out of the boy "Capt." made me first or "Top Sergeant." Just wait till you hear me talk. The boys see me and I feel proud of it too.

As to our work here we are not exactly getting what we expected before we came. The men were divided ten five groups; Blacksmiths, gas engine machinists, carpenters and electricians. Imagine me a blacksmith. Fortunately I am an electrical although I prefer gas engines. But you get that anyway as we are supposed to be better than just a gas engine mechanic. The University people treat us fine. But wait till I get a hold of Frank and the fellows. I met a fellow here who I would never have to come by any one of the fellows my address is.

Well I have time to sign up the men for classes. We are through work at 7:15 that we are free till 10'clock at night. We have Sat. evening and Sunday off.

Well give me all my best regards to Frank and Pat and the fellows.

Reach the couple Visited the parent’s of Mr. Comly in Iowa Falls.

The B. has been on the hop ever since I landed here. There are about five hundred new men coming in here. The first of June, but I hope this will be about it.

The subjects upon which college work is given are History, Math, Science, Languages, Literature, the fine arts.

We just have a Capt. Our men will be drill them.

The University Union.

The H. is official head of the department.

The women are now eligible to take the civil service examination for the position of junior chemists, which until recently was open only to men.

Women are now eligible to take the civil service examination for the position of junior chemists, which until recently was open only to men.

The salary ranges from $1250 to $1440 a year for beginners.

Applications must be graduated from a college or university. There is also a special need of chemists qualified as physical, biological or metallurgical chemists.

The Engineering agency of Chicago has a call for three women chemists.

The Bureau of employment of the Chemists’ club has asked for Rockwood for his cooperation in securing women chemists who are recent graduates.

WOMAN NO BE USED.

The Multiforme Chemical Works at St. Louis, wrote that they have never had so far avoided employing women in their laboratories, but that under certain circumstances, "it will be best to break down this line of discrimination."

Bryn Mawr college offers a research fellowship in physics or chemistry of $750. Preference will be given to a student working on problems which he along the border-line between chemistry and physics.

HARRIS SCHAEFER PEOPLE

GIVE ATTRACTIVE PRIZES

In order to arouse an interest in the study of chemistry among women, one college has recently offered a series of prizes. Each prize is for $250 and is to be competed for among students of chemistry. The prizes are given to students who have satisfied the requirements of the American Chemical Society.

New Day Building Iowa Ave. Every Afternoon
HARMER, IOWAN BUSINESS MANAGER, GOES TO ARMY

The Daily Iowan will lose another member of its staff today when Robert S. Harman, business manager, leaves for his base at Fort McPherson in preparation for reporting for army service. A former Daily Iowan reporter, Mr. Harman is a junior at the university and has had considerable experience on The Iowan, where he has been of valuable aid in keeping the paper in proper financial condition. He is a member of the Pi Omicron fraternity and Sigma Delta Chi, which organization has given him a special stimulus for his last night.

When Mr. Harman reports for duty, The Iowan will have 19 staff in its service.

ENGLISH JOURNALIST WILL DISCUSS WAR AT VESPER SERVICE

(Continued from page 3 2)

Mr. Ratcliffe has been a journalist in England and India for twenty years, and has been editorial writer for the famous English publications. Special work for one of the London daily's has kept him in the news longer than he expected on his tour. A war correspondent, he has written articles and editorials dealing with the changing aspects of the war situation to the men and women workers in the munitions factories.

These lectures were given under the patronage of the university and the Y. M. C. A., with the encouragement of the Ministry of Munitions, of which Winston S. Churchill is the directing executive.

"LIBERTY HALL" PROCEEDS TO BE USED IN WAR WORK

From New York drama success "Liberty Hall" for R. C. Carton, one of the clearest of European socialist, has been selected by the Daughters of Isabella as a benefit offering to the public.

This benefit play made its initial success at the opening of the Simple Theatre, N. Y., twenty-five years ago. Its popularity was not forgotten. During the recent year of the celebration of the eighty and seventieth anniversary of the opening, no other drama would satisfy the patriotic claim until "Liberty Hall" was united.

In its appearances at the Exposition May 12, under the direction of J. E. Farrell, "Liberty Hall" will be an important feature of its appearance in New York. The entire proceeds of this production will go for service activities at the Home Service Branch of the Red Cross and the Daughters of Israel War Fund.

on their way westward.

(Continued on page 4)
LEARN HOW TO CANOE!
The canoe is one of the greatest tools to be used by university men. Hence, a large number of students. Many students will undoubtedly want to get out on the river and have some fun. Some women are asking, "Would it be proper for me to go?" And to answer to this query The Daily Iowan wishes to assure girls that it will be no proper but who for a woman to go. Some women will attend; many should.

The ability to handle a canoe correctly is a serious matter with every woman. Almost every summer the Iowa river offers its toll to the life of one or more persons. Often, in fact, usually, river accidents could be averted through a knowledge of the things which the demonstrator tonight will reveal.

No man has a right to go on the river with a girl unless he can swim well and handle a canoe properly. Whether the woman must be able to swim is probably a matter of individual opinion; although, The Daily Iowan is inclined to hold with the persons who contend that the ability to swim on the part of the canoe's entire crew is an absolute essential. As surely as it is a duty upon men to be able to swim, so surely it is a duty upon them to know how to handle the canoe correctly at all times.

Women who occasionally pilot a canoe rest under the same obligations. Indeed, a knowledge of the principles of canoeing will be valuable to any girl who goes on the river, whether she be as one of the first class passengers. You will never have a better opportunity to learn what you should know than tonight, canoeing of Iowa.

APPROACHING THE UNIVERSITY

Our rifle team has another national championship. Its captain, Joe Price, will undoubtedly be named as an individual champion marksman by Steeplechase of American colleges. Several teams of former years have set a high standard for this year's rifle experts, but they have not met the challenge by shooting better than the standard set by previous opponents. No previous team has the phenomenal record of this year's team, although Iowa has held the individual champion at least three or four different times.

As an open and friendly to the University the kind of advertising which helps to build up a prestige, our rifle team is a wonder. Former teams have carried the name of the University far and wide, and this year's group of marksmen have contributed even further to the widespread spread of the University's publicity.

That is good for anybody once in a while.

Beyond the shadow of a doubt the men who big things differ from the activities of their minds. The big does keep up a continual mental struggle—collecting and absorbing new facts, studying to understand them, trying to put two and two together, until out of this activity they hit upon good practical ideas which they see clearly. No mentally lazy man ever had a really good idea. You must get good ideas that way.

Good ideas are born in brains that keep working. You can't take a horse out of a stall where it has been locked up a long time and expect it to win a race. Neither man you expect a lazy brain to get out on the track suddenly and make much of a record. Both horses and brains thrive on exercise.

What Others Think

The Daily Iowan will study any progress worth making which will have the effect of giving the public good things. If you have any ideas which you think that I have given up my work for, please let me uruge you to do so. challenge by outdoing better than you expect a lazy brain to get out on the track suddenly and make much of a record. Both horses and brains thrive on exercise.

THE STOOGTON

There is a scarcity of genuinely good double-breasted suits, and next month they will be even more scarce. This fact is known to everyone who keeps abreast of the market conditions. Men must necessarily purchase early if they want a comprehensive set of patterns from which to select.

The Iowa City Board of

E. M. Whitehouse

BUSINESS STAFF
K. G. Ellsworth Business Manager

STUDENTS SHOULD KNOW Whether there is any question of being able to swim, the students will find a vast field for its cut in war situations. College students and professors—who are writing about the war—say it is wrong that they should be. They may be, it is true, great oilfields if they take a stand and grow up properly or administer. But college men and women must sit down by their books and work in the promotion of accurate knowledge about the war—of the enemies of the Allied, of their own country, and of the colleges as places of learning.

There is nothing more ludicrous or absurd than to hear a man argue about some great question of the world war about which he possesses absolutely no definite information. Trust, even the highest officials and greatest thinkers cannot tell us defi-

nently of the future. But, what knowledge there is available of the past and present should be a constant field of inquiry for the college man. The United States government, fully realizing the importance of the dissemination of correct knowledge, has, through the channels of public information, issued the War Information series of pamphlets. These handbooks are issued because of the belief that "this war is not to be won by an establishment detached nor by an official theory, but by an enlightened opinion born upon truth," and furthermore that "the facts of industry and life are the only reliance to which American men can resort in order to defend themselves against the issues. Men and women of the colleges, it is up to you to know the facts before you tell your friends what you would do if you were president."

WAR
For the remainder of the year the
University will support a daily
propaganda by various departments
and agencies. The first issue of
this war year, tomorrow, will be devoted
more particularly to the War Savings
campaign. The following proposals
shall be limited to these fields:

What is the War-Savings plan? It is
a plan by which you can lend small savings
to your government, quarterly.

What is a War Savings Stamp? It is a
stamp for which the government will pay $1 on January 3, 1918.

What does it cost? Between $.12 and $.32 during 1918, depending on the amount in which purchased.

What is a Thrifty stamp? It is a siling margin 25 cents to be applied to payment for a War-Savings stamp. It does not save interest on a deposit of its issue to enable people to accumulate it small sums the amount necessary to pay for a War-Savings stamp.

Where can I buy them? At post offices, banks, and other authorized agencies.

Why can't I buy them? Every dollar issued in the government helps to save the lives of our men at the front and to win the war.

Facts About the World War
Prepared By The Department of History of the University
For the Russian Revolution and the War
The government of Nicholas the second was despotic, inefficient, and corrupt, controlled by insane monks, hated bureaucracy, and Germans. The Russian empire was literally seething with revolutionary activity. The great World War infinitely accentuated the corruptions and general insufficiency of the bureaucratic regime and thereby weakened its popular upholders. The terrible crime of the Czarévna was that they kept the people in such utter ignorance that when the revolu
tion came there was no well-dis
tilled group to take over the reins of government. The democratic forces of the middle class were poorly organized and unable, therefore, to control the general character and trend of the revolution. The provisional government of the Duma and the Soviets, constitutional Democrats, with LVov at its head could not maintain itself more than a few days. The great slogan of the revolu
tion was, "Peace, Land and Liberty." The Provisional government was unable to give these to the people, and fell. The heartbroken mass of the Russian peasantry cared for one thing only, and kindly sent its taxes to all kinds of mad men. War, starvation, chaos were nationwide reign-
ing supreme. Insulin German propaganda was extremely active, and the well meaning Scandynavian govern-
ments which replaced the LVov cabal, could not cope with the situa-
tion and was doomed to failure. The

Kunenevský government did not satis-
fy the capitalists—it was too radia-
tal, it did not have the support of the Workmen's Parties (Czechs) —it was too revolutionarv, it had no hold on the peasants—it gave them no land; and was but mildly toler-
ated by the army men—it gave it no general peace.

It was therefore, left to the fac-
tional and extreme representatives of the working class, to the Bolsheviks, who were well organized and had a definite plan of action, to carry the regime of power. They promised immediate realization of the na-
tion's yearnings, they promised Peace, Land and Freedom, and tried to accomplish their promises by main-
taining the dictatorship of the proletariat. The disastrous results of their policy have already become more than evident.
