MUMMA TELLS OF NEW RULINGS ON R. O. T. C. COURSE

Students in Advanced Classes to Have Larger Rolls

Col. W. E. Mumm, assistant to the Drill Instructor at Purdue, made public certain new regulations in this department.

OUTSTANDING ADVANTAGES

More men interested in work asked to meet Colonel at Armory tomorrow morning in all the regular classes in the various classes.

All men considering entering the R. O. T. C. are asked to meet tomorrow afternoon in Room 204 at the Armory by Col. Morton C. Mumma, who will explain the advantages of entering this course at the University this year.

The class will meet at 4 o'clock.

In response to the first call for enrollment in the advanced course of the R. O. T. C. twentyseven juniors and seniors were assembled at the last morning assembly, while at the same time only six or seven students asked in attendance with the latest rules of the war department and the same instruction to be followed this year.

Get Cadet Commissions

It was stated at that time that it might be possible for the rear guard to have their applications in for the cadet formation without delay.

In the advanced course the R. O. T. C. offers the student an opportunity to earn a commission in the officers reserve corps and thus fulfill himself for a possible call to service.

Many Others Advantages

The principal advantages of the advanced courses are:

1. A commission upon graduation (3 years). 2. Commission of ratings (present rate about 40 cents per day) for two years or approximately $150, paid half.

1. Uniforms and equipment without cost to the student or adequate credit for the two years.

The requirements are:

1. Enrollment in the university
2. Attendance at the camp of six weeks duration from the last of June each year.
3. Transportation to and from camp, and forms and rations furnished while at camp.
4. Five hours per week of practical and theoretical military instruction.

A resolution is now before Congress authorizing the Army to prepare a service in the army in the following for the advanced courses. Colonel Mumma states that the officers of the department will be on leave of absence.

Wants Ex-Officers to Aid

Colonel Mumma is also anxious to have former officers and students in the commissions in the training of the new cadets.

The following names are of those re-commissioned officers who can help the military department—only one is known at this date.

Col. Mumma at his office without delay, and the names are given for the first two months of training.

FRENCH COURSES STILL OPEN TO FRESHMEN

Stephen H. Bush, head of the department of languages, announces that sections in French are still open at Purdue and that there will be no more shifting of classes in his department. This being a change of plan has been one of the causes of confusion in the French department.

By the addition of Boletus Iampe, R. S. A. 1891, and Elmer Douglass, L. R. S. A. 1914, as instructors in Spanish and Madeleine Miller, assistant in Romance languages, to the staff of instructors in French, all freshmen meeting their language requirements in this department are being taken care of.

Instraightlining the changes, Professor Bush stated that on certain days it was necessary to change sections in Spanish. It was not intended to forego registration in French instead of Spanish.

DEVEREUX PLAYERS COMING THIS WEEK

Will Present Plays By Shaw and Sheridan at R. T. A. Auditorium.

Wednesday and Thursday

The Devereaux Players, with Miss Eliza Graf as leading woman, will return to the University this week, presenting Richard Sheridan's "Rival of the World" and George Bernard Shaw's "Arms and the Man" on Thursday evening. Both performances will be had in the natural science auditorium.

Miss Eliza Graf

Leading Lady of the Devereux Players.

Miss Graf as Sirsya girl, being a native of Fayette. She has made a name for herself in the legitimate stage and her appearance here is expected to create considerable e.

DEVEREUX HERE BEFORE

Col. Devereux, the leading man of the organization, is quite well known at the university, having appeared here in over 100 plays with his picture. He is a brother of the late Col. Devereux, who was a student at the University.

The company has appeared before practically every college and university in the United States. Its engagements have been in the state and out of the state.

HAWKESY PRACTICE AS COACHES WATCH ENEMY FORMATIONS

Iowa players go thru Signal Drill Under Watchful Eye of Jake Watrous, No Strimmons

ENROLLMENT FOR ACADEMIC YEAR

JOHNS SENS ILLIY PLAY

Monte Gery Lin on Susquehanna's Signal Drill for the Play of the Gogol—Old Gold favored by Jope in Big Ten Title Race

The Iowa football squad worked out yesterday afternoon under the direction of the "grand old man" of Indiana football, Jake Watrous. The workers, Jones and Ashmore were spending the day in enemy territory, scouting. Jones hired himself to Lafayette to test the battle belligers Illinois and Indiana. The Iowa team was gath- ering points at the Nebraska-Min­ nesota game.

Trueman John Piper Watrous per­ mitting no scrimmage on Iowa Field yesterday, but he drove the varsity through a thorough signal drill that did much to work up the score energy in the athletes' muscles. Harry Hun- sacker lined up in Bob Kaufman's yard on the gridiron. This may be only a temporary change however for the Iowa squad usually been occupied by a turn ig Neglin in his lead that is in doubt.

League of the Week

The comparatively easy work Sat­ urday night in the Big Ten on the excellent condition to begin with a rash, the last week of practice before the season opens. The first few days of the strenuous period will probably be devoted to developing scrimmage in which the varsity will attempt to solve Illinois play at staged by the yearling program.

Prospects for a conference cham­ pionship were never brighter for the Old Gold than right now. Barrington, Dickerson and the ever-continuing monsoon start. Jones day after day are making the sen­ sation of western football within the conference. Indiana's Offense con­ sidered a formidable rival was held to 4 to 6 in 6 yesterday by Nebraska, the team that was as easily crushed on a sudden field by Iowa, and the much liked Illinois crowd barely escaped with a 1 to 1 victory over Purdue at Lafayette.

While comparative scores are not always reliable, they are usually a fair guide to western monarchs. Indiana is a formidable unit, at any rate, that the Old Gold will have at least an equal chance against the Illini Saturday and with the Gophers one week later, and this is Goff's first year in the Big Ten. As a matter of fact, many, many years ago, the Hawkeyes were not allowed to be any better than the Big Ten aggregations with high honors of national victories.

HIGH SCHOOL HAS LARGE ENROLLMENT

I. H. McIntyre, new principal of the University High School, stated yesterday that the enrollment up to date is about 900, a considerably larger number than last year's total. Registrations were closed in the ninth and tenth grades owing to the high school's practice of not enrolling students until their work was satisfactory.

Mr. McIntyre said that the biggest thing which the University high school is working on this year is in the course of study for high school work, a more gradual transition, he stated.

BELGIAN RELIEF FUND CAMPAIGN WILL OPEN MONDAY, OCTOBER 12.

Campaign Will Be Carried on in All Organizations Connected With the University

BELGIAN ORPHANS COME

Spectacular Effort Is Being Made by the Woman's College Union to Attract One Belgian Child a Year Education in America.

Beginning Monday October 12 the Belgeian Orphans fund campaign will be carried on in all the educational institutions in this state for the purpose of realizing the $1,000,000 goal set by the University makes this contribution the backbone of an undertaking unprecedented in history. In the University the campaign will be carried on in purpose to make the Woman's League's of Miss Julia Wade is president. An appeal will be made to the members of all organizations at their first meeting of the week. Any student can become a member of this relief fund organization for the nominal sum of 25 cents. The object of this society the University makes this contribution the backbone of a by helping the Education in the hearts of the children. Of the boys and girls officially endorsed both by the British and Belgian governments to promote the work to be done in the welfare of the underprivileged children, whose fathers were killed in war. The relief fund organization was established in 1811 and incorporated with the War Charities Act of Great Britain. Funds are handled exclusively by volunteer workers so that every cent contributed goes directly to their relief.

Monday October 12 the campaign will open. The Women's League will receive contributions through the student officers in the form of a Donald Jones will Be carried on in the different colleges and the different districts. The campaign will be carried on through the Joint Women's Council for a period of 12 weeks. Under the leadership of Miss Jones who will help the Women's League to make the $1,000,000 campaign goal for the by the Women's League. Miss Jones will be in charge of the campaign.

Iowa students are not responding to the appeal for volunteer workers in the last week of October.

Two hundred are needed to help in the big campaign for $1,000,000 for a Memorial Chapel.

If you are willing to give several hours of your time next Wednesday, either 6:30 or 8:30, and to it, send it to the Daily Iowan today, they will have your name at the Iowa office. Plans for the $1,000,000 campaign, which will begin on Monday, October 12, is to be carried on in the University to serve as a permanent form of the university's support. The last three years, are already completed.

At a meeting of University representative ses, memorial campaign directors, and newspaper people, Friday evening, the details of the campaign were completed.

Prof. F. C. Ewing was named chairman of the executive committee, which will begin now to make plans for the return of former Iowa students on November 12.

A committee will select other committees to handle various features of the week-end program, and is made up of J. D. Zirkus, president of the Iowa City Commercial club, professor H. Weller and Dr. E. H. Banfield, to be carried out.

Tuesday their conference will work things as a Western church. It will be the large meeting for returning alumni, donations, bands and reception committees.

"Homecoming will be the 'high' event for the week, the most important event to reach the official committee which will be held the eights before that, from November 22 to November 23," said W. Cross, at the state campaign headquarters yesterday.

Tuesday afternoon acceptance cards were received at state headquarters from the first district chairman, H. W. Spencer of Cedar Rapids. Mr. Professor will have chances of the ninth congressional district, committeemen are now chosen.

Other congressional districts heads have been asked to serve, but their acceptance have not yet been re-

Address ____________________________

I agree to be at the Commercial Club rooms at 2 o'clock Wednesday afternoon, October 15, to assist in receiving official and initial distributions for the Iowa Memorial Union in its campaign for $1,000,000.

MEMORIAL CAMPAIGN WILL BE FLOATED AT HOME COMING

Response To Appeal For Help On Needed At Thanksgiving And Christmas.

Address ____________________________

I pray that you will give this appeal the attention that it deserves.

IOWA CITY, IOWA, SUNDAY, OCTOBER 13, 1913

NUMBER 12
THE NEW CIVILIZATION

A new consciousness has been born at the University—a consciousness born of the American middle class and Americanization. Announcement for this week and next week directors are no longer sent round out. Hanging, a brutal, dehumanizing, and often a dangerous routine, seems to have died out for all time. The death of such an odious device is commendable.

Hanging throughout the whole country has undergone a wonderful and permanent reform. It has not been as many years since details of hanging have been recorded than in the past when hanging was a social custom in the entire nation. Some years ago in an Ohio college there died one of their number in a railroad station. In a moment of thoughtlessness and an act of sheer carelessness, the man was hanged, and the hanging of the young man was death.

Fortunately the other is an horrific and the past the present civilization would surely believe them.

It was only a few years ago that a kid attending an eastern school met death by hanging. He and several other students had been sent to an isolated island by a number of upper-classmen. The strangled fellows attempted to squelch in the Society of the Sons of the South. This was very bad when his own strength was not equal to the task. But regardless of the few years there has been an express reform tendency toward reform of us.

The old thoughtless and proscriptive form of hanging has gone out for ever.

Hanging has never flourished in the West as it has in the East probably because of the more democratic institutions. Rich and poor enter the western schools on an equal footing which is not possible in the East in the same way.

Hanging in the West has been confined more to those who have been frowned on by the student body if carried in individual prank.

The hanging reform which has gradually taken place over the country has not been as suppressive a Cub-verse repressive as it has been in the East. Interclass conflicts should be handled every harmoniously as they are not as extremes as those between classes must be of the right kind.

The hanging reform is one of the best methods of generating a new civilization.

Happy reading these restless even-

ings consists in the personal of the day the baseball experts wrote of the baseball experts wrote of the baseball experts wrote of the baseball experts wrote of the baseball experts wrote of the baseball experts wrote about the White fan grabbing the scores. If you haven't time to read all, ask Kirk Kirk to tell you about it.

President Wilson continues to show improvement. He wants to get his own books.

More study by willow professors.

You can secure the books at the book stores, next to the drug stores, and the corner, where students study classes.

Art. Yesterday was a dull day for the bottom. The Hawkeyes lost out again, but theנחש was not the best of the big teams and the players will make for the championship.
FOOTBALL COACHES IN GOOD POSITIONS

Former Coaches Rawley and Kelton, and Captain Dave and Reed to Guide Eleven

Two former Iowa football coaches, Rawley and Kelton and two former captains, Davis and Reed, are getting their first assignment as football team in this fall. Jesse Hawley, football coach at the University for four years from 1913 to 1916, has been induced by Dr. Hart to come to Drake University and assist in coaching and will divide his time between his business in Chicago and assisting in football at Drake. While at Iowa Coach Hawley developed some of the most powerful offensive combinations of which any team has been possessed in Iowa history.

Many Big Ten teams, when asked what teams will be to the fore for the championship this year, omit the name of Iowa. The Hawkeyes are underestimated and may prove the surprise of the year. Hampered by a poorly balanced schedule, the fate of the team will be decided on October 18 and 25, when the team meets Illinois and Minnesota on successive weekends.

Marty Logan, all-Western full back, is one of the best receivers at the Iowa eleven. He was an unusual athlete at Ft. Dodge, Iowa, with a high average of 118, and was one of the best tracksmen in the middle west.

Hawley's team was as sound as the boys put in for the sport. In his younger days the former Iowa coach was an athlete in himself, having worn four letter "M" at the University of Michigan, from which he was graduated in 1904. His specialty was the ten-mile run.

Edward Davis, former captain of the football team, is coaching at the Kansas State Normal, Manhattan, Kansas. Davis led the 1912 Hawkeye eleven. He was an unusual versatile player performing either as halfback or end, and was one of the best of the midlanders in the middle west.

Davis has been at the head of the field practice activities at P. D. Dugger during the past summer.

Ronald G. Reed, captain and mate of the football team, in last season coaching the Missouri City high school team this fall. Reed performed at the wing position with such skill as to attract consistent of the sports of the middle west. As a defensive player he is one of the best that Iowa has had in years.

RETURN OF FLU IS EXPECTED BY DOCTORS
Pamphlets Will Be Published Giving Information on How to Keep Well

Resurgence of influenza is a mat-
er of conjecture even with the medi-
cal advance made. Many things are,
however, that there will be influenza
but in a much lighter form than last
year.

Speaking of the health situation, Dr. Henry Albert, head of the state
bacteriological laboratory and pro-
fessor of bacteriology in the college
of medicine, said:

"Previous epidemics of influenza have
been reverse in one season or other
over a period of years. On that as-
numption it is presumed we will have
another epidemic of influenza as soon
as cold weather brings on slight
colds and causes crowding of people
indoors. Several slight outbreaks have already occurred in various
places, and there will be smaller out-
breaks in connection with the outbreak of the epidemic this year.

Dr. Albert thinks that there is a third wave of influenza, and a certain degree of immunity is insured by
having had the disease once. This
immunity is not absolute but it is
thought that since so many persons
were affected last fall the epidemic
will at least appear in lower form.

Pamphlets will be published by Dr. W. J. McDonald, director of student
habits, furnishing students how to
protect themselves against epidemic
influenza.

A successful vaccine has not yet
been produced which will guarantee
protection against the "flu" but cer-
tain vaccines have been found to
contain vaccines have been found to

PROFES. R. A. THOMAS AT FIRST BACONIAN

GIVES INTERESTING ACCOUNT OF EXPE-
DITION TO WEST INDIES

Prepare lantern slides

Professor Thomas speaks at Washing-
ton and State National Museum—New officers are Dr. W. L. Williams, Provost and Dr. Chan-
try Secretary.

The first meeting of the Baconian
club held in the physics lecture room
promised of a successful year. Prof. A. D. Thomas, the retiring
president of the club, and official
geologist of the county, Barbour,
Antiquity expedition, gave an illus-
trated address 'Some Observations
on the Geology of Barbados and Anti-
inia.'

The West Indies were described as
a chain of islands representing the
tops of mountains, some of which
are volcanic and still active. Thou-
ands of years ago, this mountain
range stood on a small continent of
land, called America, which connect-
ed the south and north America,
from the mouth of the Amazon to the
coast of Florida.

A successful voyage.

The geologist of the island of Bar-
bados described its oil wells, its
marshes, its climate and its sea
climate. Likewise the island of Antigua was described. The lat-
er is more muck broken, has more
marshes, and its rocks are older.
Large quantities of fossils and rocks
were collected. Professor Thomas
spoke the greater part of the
month of August in Washington,
studying these fossils at the United
States geological survey.

Election officers

About eighty slides illustrating the
geological features of the islands
were shown.

The following officers were elect-
ed: Dr. Medal Clare Williams,
president, and Dr. Ralph Chassey,
secretary. Professor Thomas is the
retiring president and Professor Dell
is the former vice-president.

The meeting was held Friday even-
ing. A number of townspeople and
students attended.

select for or ten University women
who will receive education credit
for their work.

Salaried teachers will be employed
for the regular studies in the first
school grades. Martin R. Louns, head
of the department of physical educ-
sion, arranged classes in the physical
education to be taught in the school.

Girl majors in physical

eduction will get some of the
training already given.

"THE BEAUTIFUL LOVE STORY WITH THAT GOOD LOOKING FELLOW"

EUGENE O'BRIEN

You will see some of the most beautiful sets, women, and
gowns ever shown on the screen.

This is a story of a man whose charms no woman could resist.

He is supported by four of the most beautiful leading
women in Filmdom. This is a very high class production.

Also a Dandy HAROLD LOYD COMEDY, PATHE NEWS.

Admission—Children 10c; Adults 25c.

Come early and stand the line.

Don't speculate.
THIRTY MEN OUT FOR CROSS COUNTRY
Larry Dutton, Former Track Captain, is in Charge of Squad During Football Season

With thirty men working out daily on the Iowa cross country squad, prospects for developing the first real fall running team on the field has had in several years are looking up as a certain certainly Wisconsin has carefully mapped out a program of work for the runners, and Larry Dutton, former Hawkeye track captain, has been put in charge of the men while Wisconsin is busy taking care of the football team. Negotiations are underway for a cross country meet with Cornell. It is likely that the Mt. Vernon managing will consent to a dual engagement with Wisconsin's youngsters and Iowa sports followers will have a chance to see the Hawkeyes in action in the near future.

One of the best features of the cross country work is the fact that so many men are utilizing themselves of the splendid opportunity of developing long distance runners for the spring track team. Out of a squad of thirty consistent cross country candidates, Wisconsin is probably able to find six or five men who are capable of winning points in the miles and two mile events. Arthur Krause, two mile and last year's four mile track man is setting the pace for the men in practice. He leads the squad with easy time of 10:11.3 in the two mile run. The men are working hard for the cross country season. The fall work will make a valuable man in his part event by the time the big meets roll around next spring.

COLOR ETCHINGS ON EXHIBIT AT CRAFT SHOP

Color etchings, collected by Prof. S. H. Buck of the Romance language department, will be on exhibit at the Book and Craft shop Monday and Tuesday. George Plans is the producer of the etchings. Professor Buck will write a lecture at the Book and Craft shop Monday afternoon at 4:30 o'clock, telling of the etchings and their significance.

PLAN S. U. I. ELECTIONS

Date To Be Chosen by A. F. I. and Staff and Circle

ELECTION SANCTIONS WORK

Student Council to be Formed at Meeting of Two Societies Next Thursday at Home of Dean Key

Recommendations to the effect that no class elections be held until a committee composed of representatives men and women of the University shall set aside an All-University day for the holding of elections in all colleges have been drawn up by A. F. I. honorary senior society for men, and Staff and Circle honorary senior society for women.

Recommenders follow:

It has been recommended by the members of Staff and Circle and A. A. L. be joint committee, to the student body of the State University of Iowa, that no class elections be held in any of the colleges until such a day shall be set aside for that purpose by a committee of representative men and women students now engaged in drawing up plans for the creation of an All-University student organization.

WOMEN DO GYM WORK

Increased Enrollment Points to Most Successful Year

NAME NEW INSTRUCTORS

Edith Goodwood, Oberlin; Anne Beilin, Trinity College, Washington, D. C.; and Miriam Taylor, Grinnell.

With the three new instructors and the biggest enrollment in gymna-
sium classes there has ever been indicated, it is expected that the two years will be the most successful of the students, the department of physical training for women.

Edith D. Goodwood, B. A., Oberlin, will be instructor in dancing and other subjects. Her special work in physical education was at the normal school at storefront, Min. She was a member of Phi Beta Kappa of Oberlin and has also spent a year at the Y. W. C. A. National training school at New York. She has been gymnastic instructor for the Y. W. C. A. at Waterloo, Iowa. Her last two years were spent at West Virginia Wesleyan College, Buckhannon, W. Va., where she was physical director.

Anne Beilin, Clearwater, Iowa, is another new instructor. She received her B. A. from Trinity College at Washington, D. C. in 1916 and was a graduate from Smith's school of Physical Training in Boston. She has been instructor in many training centers at the largest schools and has also been physical training director of high school girls and of the grade schools in Pennsylvania. Speaking of the equipment of the women's gymnasium, Miss Beilin said, "It comes nearer approximating professional than any college of liberal arts I have seen. I wish we had an athletic field just for girls though."

Miriam Taylor of Grinnell, former playground superintendent with the St. Paul-Ksaukauhnau country, and teacher in the Grinnell high school, is another new member of the department. She will teach gymnastics classes and will give the course in playground instruction. All remedial and corrective work will be in charge of Rachel Belknap, who became a member of the faculty last year.

Off-Court Combine Program

May Receive B. S. Degree as Well as Certificate of Graduate Nurse

Quite a number of young women have registered in a combined course being offered by the University for the first time this year which permits students to receive the degree of bachelor of science as well as the certificate of graduate nurse.

Two years' registration in the college of liberal arts are the first requirement, during which time a course similar to the pre-nursing curriculum is taken. During the third year registration is in the school of nursing, but only in liberal arts. In the fourth and fifth years the student is a hospital resident and has practical nursing subjects.

By extending one year the combined course makes it possible for a student to register and study in the college of liberal arts and prepare for a broader education. During the first three years the student may be over load and room, as does any other student in liberal arts, but in the fourth and fifth years board and room are furnished by the hospital.

EASTERN SCHOOLS COPY IOWA PLAN

New Idea in Engineering College At University Being Adopted

Over the Country

Schools of engineering in the east are adopting Iowa's plan of training engineers as worked out by the University. The principle feature of the plan in the college of applied science is that all students in civil, electrical and mechanical engineering are given the same course for three years and specialize in their particular field only during the senior year.

This rather radical new was placed in the University after consultation with many practicing engineers. Now it appears that several eastern schools have adopted the same plan.

W. G. Remmey, dean of the college of engineering believes that a student should be given the fundamentals of all branches of engineering rather than a narrow, intensive plunging in one special line. As a result, all engineering students at the University receive some electrical, some mechanical, and some civil engineering. The chemical engineering course of five years is made like the others in a single year.

Vernon B. Seehquirer, graduate of the college of law, has been appointed assistant county attorney of Polk county.

Dr. Walter Kelton, who was dem- onstrator of operative dentistry at the University last year, has opened a dental office at New Hampton.

NINE cases out of ten, the man who once smokes a W.D.C Pipe becomes a life member of the W.D.C club. He can't help it, because a W.D.C is certainly a man's size smoke. It's as sweet and mellow as carefully selected French briar and expert season- ing can make it. Not only material of the first water, but craftsmanship of the highest order, and designs that are most pleasing—all combine to make the W.D.C Pipe a smoke of peace, contentment and satisfaction. A man's smoke. Any good dealer will confirm this.

BIG INCREASE IN MUSIC ENROLLMENT

Growth of Department is Due to Lifting of Restrictions on Study of Freshmen

Enrollment in the school of music is increasing, according to Dr. Philip G. Clapp, director of music. Theory courses show an enrollment of sixteen in elementary harmony, nineteen in advanced harmony, forty-eight in history of music, eighteen in public school music methods, thirteen in solfege and sight singing, five in form and analysis, and seven in counterpoint.

The increase over that of last year is due to the fact that freshmen are now permitted to elect four hours of music, two of which is required to be worked on theory, whereas formerly they might elect only two hours.

TANK COMPULSORY FOR WOMEN, PLAN

Girls May Have to Take Swimming in Order to Secure Their Diplomas From S. U. I.

Girls of the class of 1922 may have to wear a swimsuit. If contemplated plans of the University are correct, the women students will be required to swim for the diplomas which they have been working toward. Under this plan they will be required to wear a swimsuit.

Students think that this is one of the biggest factors in efficient living and is especially needed for the physical development of the growing girl.
