PLANTING THE GAME

The spirit of our teams playing up on the gridiron is indeed typical of true sportsmanship and cooperation. No other institution has such a playing spirit as the real "Play the Game" spirit. Its application is often a phase of old men who would make this University a united institution.

What Iowa needs is a little more "Play the Game" spirit. In every organization, whether fraternity, in every society, athletic club or class, each should be expected to carry his share of the load and his organization and fraternity and his University.

On the football field no man knows just what he is going to receive the ball or how far he is going to carry it, but he keeps a watchful eye anxiously waiting to have a chance to "play the game."

The sport is needed in all University activity. The fellow who is ready to carry on his share of the burden is sure to be a winner. Yes, he is no more of a servant than the huckster. He is just an executive for it is he who makes the accomplishment. The old adage, "We learn to do by doing" is nowhere more applicable than in college. If you are a member of any organization whatever, make yourself a part of it. Throw off the shade of rhetoric and move forward to no accomplishment. The runner carries the ball over the goal line does not stop to ask questions. He assumes the job when it is put up to him and if a good man be set away with it. Real push, work, and confidence is all that is required to accomplish an end and the fellow who has these qualifications will invariably carry the ball over the line and score a touchdown.

OLD GLORY

Why is it that one's heart beats faster when the national anthem is played or when the flag is raised? Why is it that tears often come to the eyes of those who think of the things that have to do with the flag with national greatness, with duty and sacrifice and patriotism?

"These and a dozen other questions which we have never been able to raise the flag的问题 yesterday. The reason perhaps has to do with the heart and not with the mind. Perhaps it is the emotional emotion that one experiences but does not explain.

Perhaps too, there were those who saw the waving tricolor of France. Others probably saw the red, white, and blue of France. Perhaps some saw the scarlet banners which had marched away under the folds of the flag that did not return. Perhaps there were those who glanced at the flag and looked through the trees to the battlefields in the land of the free and of the blue of America's breast and felt in their chest something of pride and joy.

ADDRESS AT UNIVERSITY Saturday, October 25, 1919 and Mrs. Erling Thoen will chaperone.

Dr. Donald L. Topping, head of the department of military science and tactics, gave the members of the Irving Institute and Erodelphian Society, East High School, and the College Senate a significant address yesterday afternoon at 3 o'clock and it was the grandest opportunity a nation, if we are to stand firmly upon what they did for us, devolves upon us to determine whether they died in vain. In no small measure the present and future of America is in our hands, and what we do now signifies. Mr. Topping referred to the examples of Belgium, France, and Russia, which have stood against overwhelming odds for the last four years. It is because they have stood that the World is now beginning to understand the possibility of a just war, a war that can deal with the problems of the future. It is because of their stand that the Allies now are in a position to stand for justice and good government.
