RESOLUTION TO STUDENTS

WHEREAS, the fuel shortage has resulted in a situation whereby some buildings in the university remain unheated and other buildings, to a certain extent, are unheated by reason of the necessity to conserve fuel;

WHEREAS, the Student Council believes the student body wishes the chance to be continued if it is possible to do so. They believe that the students of all concerned, and their friends and instructors, authorize the university administration to take such action as will be best suited to the needs of the University as a whole;

WHEREAS, the Student Council desires to express its appreciation to the Student Council of the State University of Iowa for having kept full knowledge of the condition and that such action as will be best suited to the needs of the University is entirely supported;

Now, therefore, be it

RESOLVED, that no action be taken by the Students Council, or any action be taken by the Student Council of the State University of Iowa, that shall hinder preparations, or that shall hinder cooperation, to prevent the situation resulting from the fuel shortage. Such action as will be best suited to the needs of the University shall be promptly taken.

COLD GYM FAILS TO DAMPEN AROR OF VARSITY

Coach Ashmore Sends Two Teams Through Snappy Practice

BIG SHAKEUP IS PROBABLE

Captain Nicolaus, Fullback, and Worth of Last Season's Quartet to Fizz String—Peters and Nicolaus—Seconds Moke Only Basket

The Iowa basketball squad is gradually getting into condition for its first game with the Cornell college quintet at Mt. Vernon December 13. As yet the definite line-up of the varsity from the ten fast men and four best of the candidates are being given a chance each afternoon to display their merits in scrimmage. The armory is still unheated but the cold falls to affect the order of the athletes who manage to keep warm by working fast.

Last night Coach Ashmore started a temporary first team composed of Nicolaus, Worth, Peters, Peters and Nicolaus at guards. A second team, consisting of Askie Daverne and Worth, Daverne at center, and Prentis and Nicolaus at guards, held more than the varsity crew. Nicolaus marked the only basket made by either team, in the last minute of the tussle. For the most part, the men shat wild from long distances and fumbled to come close to the tags. The guards on both teams played tight defensive ball and Prentis and Nicolaus were particularly strict in breaking up plays.

Battle for Closes

The pivot job is still open to a capable player, although Daverne has made a good showing up to date. He has the speed and the basket eye for the position but it is inclined to forfeit to excess and is a little lax in overcoaching his men. It is felt that Nicolaus will make a first appearance in坚决ness to the front line and center on the second half and established a surprising amount of fight and gain.

Worth scored the second basket of the day.

Worth McClellan

OF VARSITY SQUAD

In an appeal to responsible leadership, I wish to announce that for the present the University is to continue in regular session. Several of our buildings have been closed entirely, and all buildings except the hospitals, dormitories, and libraries, part of the time, and the University-Operational Schools have been adjourned, in order to conserve fuel.

Our supply of fuel is very meager, but a limited number of cases have been made available for our use, and we shall have to make full use of the fuel at the disposal of the fuel administration to furnish us with the necessary coal that can be done. Arrangements have been made for a reserve supply as an ultimate protection to the hospitals of the city.

I wish to urge upon every member of the University community the importance of saving light and heat and be as careful as possible. Constant and serious consideration is being given to the conditions which prevail, and we believe at present that continuance of our regular work with such curtailments as are necessary, is the most patriotic service the University can render and the least likely to produce inconvenience and suffering among all who are concerned.
