SOME IMPORTANT GENERAL PRINCIPLES WHICH SHOULD ASSIST THE STUDENT IN THE DEVELOPMENT OF POSITIVE PERSONALITY.

THE unhappiness which characterizes the lives of many of our youth is due in most cases to the fact that they have been trained to believe that their happiness depends on the possession of some particular external thing, or under certain external condition.

The best way to acquire happiness is to be content with what we have, and to be thankful for it. It is the most wholesome, healthful, and successful way of living.

The way to be happy is to be satisfied with what we have and to be thankful for it. It is the most wholesome, healthful, and successful way of living.

NATIONAL TUBERCULOSIS ASSOCIATION

Tuberculosis cannot stand fresh air and sunshine. So these three children, who have been sent to a sanctuary in the woods where the smoke and grime and noise are few and the air is pure, have found the way to beat it. They are strong now, and forever free to enjoy the sunshine and the sweet hours of play. They can enjoy the wholesome, happy life of other boys and girls.

Tuberculosis is waged among children. The scourge fastens itself upon them frequently, and often remains until they have become adults. It kills 12,000 children annually, but many more grow to the age when they are most productive in the country, between 20 and 40 years of age. Thus tuberculosis seizes them, and kills one in every four who die. It is for this reason, among many others, that the annual sale of Red Cross Bonds is held every December under the direction of the National Tuberculosis Association, and 1,000 local and state organizations affiliated with it.

SHIMEK RECEIVES DEGREE

Made Doctor of Philosophy by University of Prague

Prof. Bohumil Shimek of the history department, recently received the degree of doctor of philosophy from the Czech University of Prague, located at Prague, Czechoslovakia. Professor Shimek gave a course of lectures at this university in the winter and spring of 1913-14, as an assistant professor in plant ecology. At that time he was informed of a decision of the faculty to grant him a degree at the next meeting of the faculty. On account of the interference of the war, the next meeting was postponed until January of this year.
