A reporter for the Ladies' Home Journal once asked James Whistler how he became an artist. He is reported to have exclaimed this surprising reply: "Well, speaking of art, I used to know a fellow here in Paris, France, who could stand and sit down, that sort of art."

The story is told that Whistler had just come through a hike, during which he composed a bit of music in his head. It is out of the question to know the music, but it was composed. Then Whistler sat down, took a pencil and paper, and went to work. He sat there for a long time, and then he wrote down the music. This is the story of how Whistler became an artist.
