HEROISM OF FRENCH AT "FREEDOM'S FRONTIER RECOGNIZED BY GIFTS"

Contributions Will Be Taken This Week For "America's Gift to France"

SMALL SUMS FROM ALL

National Campaign Being Carried On to Raise $250,000 to Design and Construct Statue to be Placed at Mound on the Mackinac-Fund Received at Iowa Office

This is "America's Gift to France" week, for the University. Last week was designated as "America's Gift to France" week throughout the nation but because of rain the campaign was postponed at this University.

Every student in the University will have an opportunity to contribute a special memorial to the memory of the French people, which is to be erected on the site of the battle of the Marne by the American people.

A national campaign is being carried on to raise the $250,000 which will be divided among the states and continents and placed in the endowment fund, in order to make this gift truly a gift from America, it is desired that the "America's Gift to France" should be an American contribution, by popular subscriptions. For this reason, as many contributions as possible are desired, even if they are very small.

Statement Underway

"America's Gift to France" follows the precedent of the state of Liberty, which was presented to the United States by the people of France. The proposed gift has received the highest official sanction of the French Republic, and with many campaigns underway, especially in France, Frederick MacMorrow is working for the states which would be suitable.

The national organization of the "America's Gift to France" fund includes such men as Thomas W. Lamont, Robert E. Wood, and T. Herrick, Cleveland, chairman of the executive committee; Charles H. Fiske, New York, treasure.

The Iowa will carry on the campaign for funds for this Memorial during the ensuing week. Contributions may be mailed as directed to "America's Gift to France" at the Iowa office.

CARING CANOES TO BE DEMONSTRATED

Demonstrations in the art of handling a canoe will be given at the men's swimming pool by David A. Ambrose, swimming coach, and members of the Kappa Delta Kappa, beginning Monday, Wednesday or Thursday night, according to the schedule of the coach and the physical director for men.

These demonstrations will show the men the proper way to handle a canoe, the way to paddle, and the things which will prevent their being stranded or an accident. All members of the men's physical training classes will attend one of these demonstrations on Monday, Tuesday, or Wednesday night.

ARTISTS ARE PLANNING FIRST ANNUAL DANCE

The clingy, nose-covered, old Vienna ball will be held in the music hall of the main building at 8:30 Monday, December 22. Young men and women will be present at the first annual dance at the University. The title of the dance is the slipper on the third floor of the physics building Thursday evening.

Announcement of social committee characteristic that this dance of the deadfoes would be resisted at the art society this year.

LIGHT TO FLASH ON FAR EAST TONIGHT

Luttrell, of Denison U., Will Lecture on Japan in China April 6th

Prof. Kenneth E. Luttrell, head of the department of history and political science at Denison University, Granville Ohio, will give a lecture, under the auspices of the graduate club, on Japan in China, the natural science auditorium this evening at 7:45.

This lecture is one of the leading authorities of the country on oriental history and politics, according to Prof. Andrew M. Schubiger, head of the department of history and political science, who discusses the China question, the secret demands of Japan upon China, and other phases of the Chinese question, and will give some interesting and unique ideas on the subject.

He has spent several years in China as a member of the United States Legation in Beijing, and has written several books on China's economic conditions. He has also been a member of the United States Legation in Beijing, and has written several books on China's economic conditions.

The department of history will certainly be at a loss to present a more able lecturer on this subject. He has taught a number of years in the United States Legation in Beijing, and has written several books on China's economic conditions.

THREE WRESTLERS TO GO TO URBANA

Team Is Split Leaving Jennis, White, and Esther Franco or Syracuse To Compete

Three wrestlers will represent Iowa at the Western Intercollegiate gymnastic, wrestling and fencing association meet to be held at Urbana, Illinois, April 9 and 10, according to Russell G. Schadler, physical director for men. The men will be accompanied by the wrestling team, of the 154 pound weight class, and the wrestling team, of the 175 pound class but will be trained down to the 154 division, and either Franco or Savage in the 151 pound class.

Mr. Schadler originally planned to take the entire team, but as a meeting of the athletic board last week it was decided to limit the team to the members of the 154 boy's and only those boys who are in the 175 pound class.

Mr. Schadler announced that he had selected the entire team, but as a meeting of the athletic board last week it was decided to limit the team to the members of the 154 boy's and only those boys who are in the 175 pound class.

and ground school. Princeton, Cornell, California, Pennsylvania have private fields close to the campus, Pennsylvania has announced its intent of entering a team in inter-collegiate competition. Other Universities will fall in line before long. Aviation is passing from the amateur to the professional stage and Universities by accepting the responsibility of instruction and keeping abreast of the knowledge of the men already trained in service will provide valuable service to the advancement of a modern enterprise.

If the Area club's ambitions are realized it will have accomplished something worth while.

**THE LISTENING POST**

An excellent way for a great many students to find their instruction supreme—April 1 is by paying in class with their assignments prepared.

In Chicago a group of men have formed a Corn Beef and Cabbage club for the purpose of combating the every existing price. That's a new idea. For City breeding house keepers formed the charter chapters many years ago.

"Babe" Ruth, a baseball player not a barbershop queen, has been licensed for $15,000. That will give the downtown college professors of the nation another argument in their struggle for a so-called living wage.

The Listening Post demands a sensational investigation. It even asks that $2.50 an hour. To return; however, the report is $5.50. Congress could find out about that extra cent for about $15,000. We imagine—one of the things this year's report will look into the status of the Office of the Accountant. This is the week of the year when the phrase "favorable opinion," as used in clothing store advertisements, becomes trite staff.

Students of the University whose names are in Iowa City register, one tells us, when the spring vacation ends for with it comes, too, the close of spring house cleaning.

The announcement that Dr. William Jasper of River City, a former mayor, would deliver the address at the convention exercises tomorrow reminds me of the time when we interviewed that officer. The esteemed Journal of his city sent us out to see him when he received his army commission and our reception was quite informal. He was attired in pajamas and a bathroom.

Won't it be tough on the poor lad who does today? We'll never know the situation of the mysterious letters, P.C.??

When "Jerry" opened the "Coffee Room" his knowledge of food balance and courteous service gave it instant prestige and popularity.—We were sorry to lose him. We are glad to have him back.

Under this new management you may expect to find the "Coffee Room" a better place to eat than ever before.

Gaining your Confidence

"The best way we know to get the confidence of University women, and keep it, is to do things that deserve confidence.

Prompted by that attitude we have selected every garment we have to sell, with the same fastidious discrimination we would use in buying for our own wardrobe.

To further enhance your confidence we've marked every one of these exquisite suits, sport coats and dresses exceedingly low—quality considered.
