SUNDAY IS DAY SET LIKE TO SHOW LOVE FOR OUR MOTHERS

Tribute to the ideal of motherhood will be shown by University students on Sunday, May 5, the day officially designated as Mother’s Day. Florists of Iowa City expect a brisk demand for flowers of all kinds, especially roses, and say that their stocks will merely supply any demand.

“Say it with Flowers,” the expression popularized by extensive advertising, takes on more than its usual significance when applied to the day that is set aside to honor the mothers of the nation. Whether the idea is a scheme to increase the sale of plants, or there is really any person who will not agree to the sentiment which actuates the promoter of Mother’s Day.

According to the traditions, red carnations are the flowers to be given by those who personally deliver their gifts, and white carnations to be used as a remembrance to those mothers who are no longer among us.

In years past the observance of Mother’s Day has taken the place of the regular service in many of the churches, or a special sermon glorifying mothers has been prepared for the occasion. No intensive plans are being prepared by the University for this year and it is likely that the secretaries have already signified their intention to show their appreciation by giving flowers of their own choosing in a more simple way.
