KEEPING OUT OF PRINT

Chief among all other heathen who
paint with a brush the greatest and
grandest achievement that a driver could make at top speed ever since it arose
are the arcs of accomplishment.

The coming of the automobile in human life and the coming honest laws that
have come to limit the number of different kinds of these young Atomes of the gas
tank who came about the fraternity
room next door talking how they "Ostern"ed her.

But Dr. Atrameson was not given
to rashness just to be counted bold by a
crying young lady, and he normally
looked about him with an admiring glance.

It might spell name one page newspaper stories of the gilded ages,
but these young ladies would discourage rather than appeal accomplishable
rashness.

SOMETHINGS TO DO

In making the position of editor of the Iowa University, Ralph G. Grandstaff said that he expected the
Union to hear the same rotation in the University as a community center
due to the city.

To persons interested in University problems this is a cheerful outlook. It is believed that one of the causes of the annual election will be
called to the attention of the students, and of their certain feeling of service to the city in the sense of
community work. Acquiring an education involves the acceptance of service in the public cause.

With a Memoriai Union writing in prose and employing all the resources of the
campus organization, a chance for something crete to do seems highly certain and
over a number of undergraduate growth can expect to issues.

I stared at him;
His tie and shirt were used of silk—

With every look I told
He stood like a lifeguard began;
In truth his pants were tailor made
Finished were the man's I adored.

But when he lit a Garcia Grande
I puffed my cud to no avail;
I said today he gives the Tip
For I'll shine mine tomorrow.

Human Interest Material

For the 1922 HAWKEYE

While the spring of the year rolls around again and you think of good old vacation days—no more studying, no more cramming for ex-
ams—there is one day, and that day finally comes, when the HAWK-
EYE is distributed. That is the time when you are going to get a . . . .

You will see people looking through the pages of the 1922 HAWK-
EYE with the breathless interest of relatives listening to the reading of
a will, or the interest of the fun with the huge fall and Bake sale at

— with the interest with which everyone reads that which deeply con-
cerns him.

The numerous features will not be the product of one person, but the keen, clever, inside material gathered by everyone at this school. Athletic dope will be real peppery stuff written by those who know the
art. And that Scene Section—Different!—Well, we'll say no different as
a ham actress compared with the American Beauty—Norma Tal-
madge—as refined in its treatment as a painting by Cotet, and with the

— with the interest with which everyone reads that which deeply con-
cerns him.

Thought, skill, and refined tastes are working hand in hand in the
planning of this wonderful book. If you are holding back on the human
interest material, come over and whisper it to us. A great HAWK-
EYE can only be built by everyone putting their shoulder to the wheel.
